ROCK RIVER VALLEY SEED FARM D. N. Shoomaker

GRANDMOTHER'S OLD-FASHIONED GARDEN OF ANNUAL FLOWERS

CONDON'S BIG FREE PREMIUMS for 1928

Every Order, Large or Small, Re-FREE ceives Some of These Valuable Seeds

This special mixture of Grandiflora and Spencer Sweet Peas is made up by combining many of the most exclusive as well as the leading standard sorts in proper proportions to give you a most gorgeous array of colors and markings.

Burning Bush or Kochia [Annual] also known as Summer Cypress

Makes a beautiful specimen plant, or grown in hedge form is equally attractive. Grows about 3 feet high, forming a perfect pyramidal shaped cypress bush, with fine feathery, light green foliage.

Complete Culture on all Packets

With orders amounting to 25c you may select any one of the rare seed premiums offered, two with 50c orders, 3 with 75c orders, or the entire assortment of 5 on orders for \$1.00 or more. These premiums may be

selected with orders for Plants and Shrubbery as well as all Seed orders. We cannot send any Plants as premiums.

The Great Garnishing Plant

Very useful for flavoring soups and stews and for garnishing. The green leaves are used for flavoring, or they may be dried crisp, rubbed to powder and kept in bottles until needed.

The Great Garnishing Plant

CALIFORNIA Poppies—Eschscholtzia Choicest Mixed Colors

A most showy and free-flowering annual. It flowers early, and where the weather remains cool keeps on blooming until October. The plants are particularly well adapted for beds or borders. They are dwarf and spreading, growing about a foot tall, with gaily colored flowers of a satiny finish.

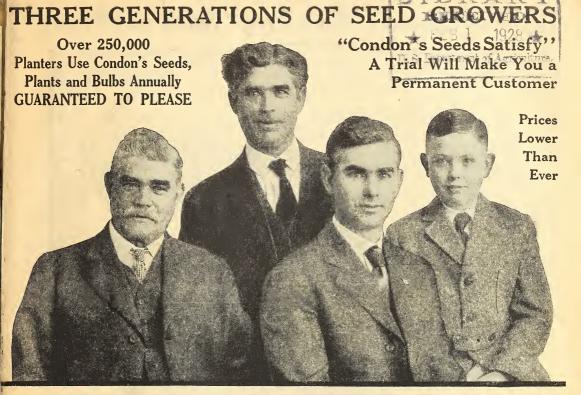

Many of our customers write us every year for a general mixture of all kinds of Radishes. They don't have room for many separate kinds and still desire a few of each, so as to have them from early spring until winter time. This special mixture will give you an even proportion of all the leading sorts from the very first earlies to the late sorts for winter.

Mixture

FATHER, SONS AND GRANDSON

How Our Seed Business Began

NOTICE The story below is old to our thousands of satisfied old customers and we apologize to them for printing it again, but it is new to the thousands of new customers we hope to serve this season, and it honestly tells just why our business grows and how very carefully it is conducted; so we are printing it again for their benefit. We believe our old customers will enjoy reading it again also.

1st Generation
Beginning in the ages of the old Cradle and Rake when everything on the farm was done by hand and back work, Dad started farming with Mr. Greenlee, a pioneer farmer of old reliable Scotch parents. In those days land of course was cheap, but money was scarcer than hens' teeth and crops very poor on account of inferior seed and lack of proper cultivation, so you may know it was mightly hard sledding for a good many years: still I guess it was a good thing, for those lean seasons, when it was hard to produce enough to pay the interest on the mortgage set Dad to thinking and figuring how to make both ends meet, and he concluded the best way out was to use extra care in selecting his seed, breeding it up to the highest standard possible and to spare no labor in preparing and cultivating the seed beds after planting. This worked out well and really was the motive or incentive instilled in him in pioneer days, transplanted to us boys a few years later, which makes it possible to serve you today in a pleasing and particular manner.

2nd Generation

It was during those early days that John and Leonard were born and as we grew up under Dad's careful instructions we naturally followed his trend of thought, so at the age of 13 we both started working out on a small truck farm at the enormous wage of 40c a day. Well do I remember my first day: The boss started John picking peas and I weeding asparagus, and honestly the rows looked a mile long. We stuck to it though, even if it was hard work, and I'll never forget if I live to be a hundred how proud we were when we took our first pay home to mother. She, too, was proud of us, for while we worked hard and were dirty, she knew it was honest work and Dad needed the money, and we were glad to help even though it was only a little.

"As You Sow So Shall You Reap." Well, this went on for a few years, Mother insisting we go to school winters and garden in the summer. As time passed we realized more fully the necessity of planting good seeds to produce good crops, for we saw many failures from poor seed; consequently we went into the seed-growing business on our own account, and today we personally grow on our own farms and rented ones thousands of bushels annually of beans, peas, corn, radishes and other seed crops, so we are still actual farmers and really more so than ever before, and we know full well the necessity and wisdom of planting only the best seeds that grow, for the old proverb, "As you swo so shall you reap," is more pronounced than ever. Being actual producing farmers and gardeners, we know your needs in seeds and understand your wants, your trials and your troubles, so please don't hesitate to inquire for any information not given in this book. It's yours for the asking and it's free whether you buy our seed or not, although we think you will buy our seeds now that you know how carefully they are grown, for there's none better at any price and few as good.

The Trial Grounds Tell the Truth

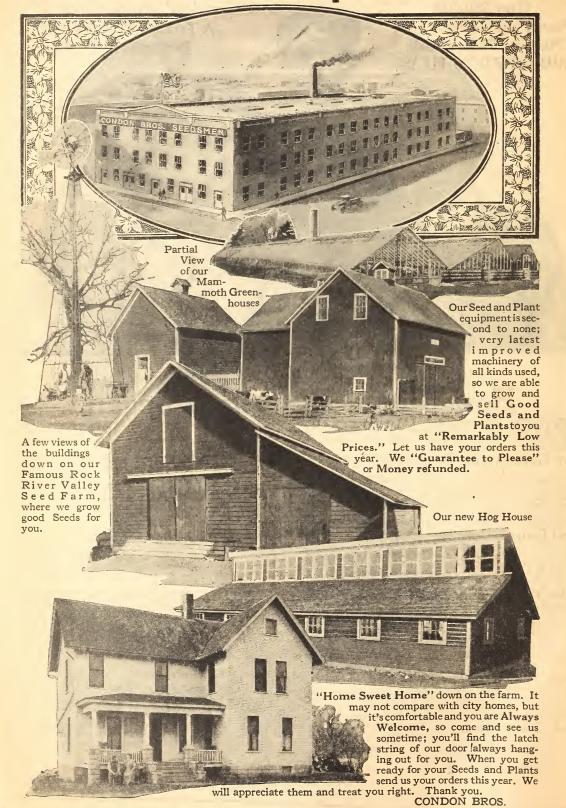

In going through our list you may not find as many new names as you find in some catalogues, for we don't believe in so many new things unless absolutely better than the standard varieties and our trials and experiments convince us that the old reliable strains that are known to gardeners and farmers that have proved true are better, surer and safer for you to plant than many of the so-called new named sorts, and in consequence we use a large portion of our farm to improving and perfecting types that have proven true to the preference of new sorts, except in cases where new ones are positively superior.

3rd Generation In closing, we want to introduce Leonard Condon, Jr., to the new customers, for he is the lad that will be serving you later on, and he wishes to thank his old friends for the many kind letters and orders sent last year. Trusting all to remember us this year with your valued orders, and no matter how large or how small they may be, you will get quick service, honest seeds, and a big lot of extras free for trial purposes.

Be friendly—write occasionally. (Tell your neighbor about us.)

CONDON'S 1928 GREETING and MOTTO

Honesty and a Square Deal to All

Your Money Back If Not Satisfied With Goods Upon Arrival

Everything Guaranteed to Grow or Replaced FREE OF CHARGE

Dear Customers and Friends:—

Here is your Free Copy of our 1928 Seed and Plant Catalog. It is Bigger and Better than ever and the prices are very reasonable. This book contains all the latest improved varieties of Garden and Flower Seed. The most complete list of Spring Bulbs, Shrubs and Plants, besides "Everything in Fruits for the Home Planter or Market Grower." All varieties listed in this catalog represent the very finest in their respective classes. They have all been carefully bred and selected for many years to produce the largest, most profitable crops; and we recommend them to you with confidence that a trial will make you a permanent customer.

Annually we serve more than a quarter of second the second contains a superior of second contains a second contains a quarter of second contains a second contains a quarter of second contains a superior of second contains a quarter of second contains and contains a quarter of second contains and contains a quarter of second contains a quarter of second contains a quarter of second contains and contains a quarter of second contains and second contains a quarter of second contains

Annually we serve more than a quarter of a million planters, some of course only buy a dollar's worth while others who grow for market buy annually of us as much as a thousand dollars' worth of Garden Seeds, and the fact that they come back to us every year for their Seeds (from which they rooduce their living) is the best recommend we can offer new customers that our Seeds and Plants will please you, and the fact that We Guarantee Them to Grow or Replace Them is positive evidence that we know they will please you. No matter where you live if any extensive gardening or farm-

ing is done we can refer you to satisfied customers of long standing. Please order as early as possible and remember we want to hear from every person who gets this Catalog with at least a small order. We know we can please you and surely gou'll find something in this Big Book that you can use. Write us if you need further information about growing any crop.

Let me suggest that you and your family in the quiet of your own home with no one to disturb you look through this book from cover to cover, one of the family checking in the catalog the items you need and the other writing the order on the special blank enclosed, after which add it up, slip it and your remittance in the self-addressed envelope and in 24 hours' time after reaching us it will be correctly filled with the Highest Quality Seeds and Plants and be on the way back to you.

Come and see us some time. We'd be mighty glad to show you all through the seed house and around the farm—it would be a day well spent. If you can't come, write us anyway, whether you order or not, maybe we can help you. Our advice is absolutely free for the asking.

Yours very sincerely,

Condon Bros Seedomen

HOW TO ORDER

Use enclosed order sheet and envelope if possible; if not, any kind of your Post Office, County and State, your rural Route, Box or Street Number. Be sure to state just how you wish order shipped, and remember if you order part from Postpaid Prices in body of Catalog and part from Wholesale Farm Seed List or from pages 188 to 192 which are not postpaid prices we will ship All Not Prepaid by Express or Freight unless instructed differently, as the charges would not be increased any. For this privilege we add extras to well satisfy our customers.

Some dealers offer one-year-old roots at lower prices, but it always pays to plant 2-yr.-old. They produce a crop the following spring and are used always by the Big Market Growers.

Don't put it off any longer. Our free culture Leaflet

Condon's Delicious **ASPARAGUS**

Most Profitable Vegetable for Market Gardeners and Home Use. Everybody receiving this catalog who owns or has a lease on any land should plant at least a hundred roots of this delicious vegetable. It yields the first returns in the spring when vegetables are expensive and so highly relished. \$500.00 per Acre Profit is a common yield. Perfectly hardy and when once established lasts for years. For immediate returns we recommend purchasing our two-year-old thrifty roots setting in the spring and the following spring you can market a good crop and bigger ones each succeeding year. Where one needs several thousand roots and does not feel like investing in so many at once, it is sometimes advisable to purchase part roots and part seed, sowing the seed in drills in early spring and in two years time you will have thousands of roots at a very low cost. By all means start your bed this year. furnished with every order gives you full instruc-tions how to grow Asparagus profitably.

202 Mary Washington

By far the best strain and the Most Vigorous of the Famous Washington Asparagus

Washington Asparagus
There are several strains of Asparagus originated by Prof. Norton, of the U. S. Department of Agriculture. The original strain was called Washington, another selection Martha Washington, and another Mary Washington. The Mary is considered the best strain, as the shoots are larger and grow more rapidly than the other kinds. This variety is so vigorous that seedlings grow considerably larger the first year and can easily be distinguished when growing by the side of other varieties by their taller growth. The stalks are very thick and grow unusually tall without branching. The color is deep green with purple tips. This is decidedly the best variety for either the home garden or commercial planting. Pkt., 10 cts.; oz., 22 cts.; ½ lb., 60 cts.; ½ lb., \$1.10; lb., \$2.00; postpaid. \$2.00; postpaid.

Bonvallet's Giant 203

"A Mighty Good Sort"

With the single exception of Mary Washington it is superior in every way to all others, being larger, earlier, quicker in growth, more continuous in bearing and more uniform in size. The stalks average about an inch in diameter, the usual bunch of 14 shoots is 12½ inches in circumference, and weighs about 2 pounds. It is delicious in flavor, extremely tender, and equally well adapted to all sections of the country. It is also less susceptible to disease, having yielded abundant crops where all other varieties have entirely succumbed. Packet, 10 cts.; ounce, 16 cts.; ½ lb., 42 cts.; ½ lb., 65 cts.; lb., \$1.00; postpaid.

Palmetto

A very early maturing and prolific variety, producing an abundance of very large, deep green shoots of good quality. Packet, 10 cts.; ounce, 14 cts.; 4 lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

Conover's Colossal 205

The largest and most extensively used green variety. Shoots bright green, sometimes showing a purple tinge at the top. Quality very tender. Abundant yielder. Packet, 10 ets.; ounce, 14 ets.; 1/4 lb., 25 ets.; 1/2 lb., 40 ets.; lb., 75 ets., postpaid.

Columbian Mammoth White

An exceptionally large sized variety of superior quality, tenderness and flavor. Color, clear white until four to six inches above the ground. Packet, 10 cts.; ounce, 14 cts.; ¼ lb., 27 cts.; ½ lb., 42 10 cts.; ounce, 14 cts.; ½ cts.; lb., 78 cts., postpaid.

Free Culture Leaslet sent with all Asparagus Root Orders. Tells how to grow them.

CONDON'S Northern Grown Seed BEANS

"Direct from the Grower to the Sower" **Dwarf Green Podded Varieties**

227 CONDON'S "SURE CROP" STRINGLESS

Long Podded Everbearing Variety—absolutely stringless when young. Very early, excellent quality, delicious flavor, big yielder. Ready to pick in 35 to 40 days. This extra early variety, although comparatively new, has been widely distributed, and we have yet to hear anything but praise about its fine quality and other merits; it is an ideal Snap Bean, producing a fine crop of round, straight, solid, fleshy pods averaging 61/2 inches long, wonderfully tender and brittle, without a trace of tough interlining, and having no string when broken, excepting when the pods are quite old. The flavor is most delicious, while the delicate green color of the pods The plants are of robust, compact habit, unexcelled in bearing qualities, maturing the crop very regularly. It is extra early, the pods being fit to pick three to four days before other varieties of equal size. Packet, 10 cts.; ½ lb., 25 cts.; lb., 45 cts.; 2 lbs., 85 cts.; postpaid.

223 Black Seeded 'Valentine "The Great Southern Shipper"

This Bean possesses all the merits of the Red Valentine, and in addition the pod is fully one-third longer, perfectly round and straight, and of a beautiful green color. It is equally as hardy in every respect as the Refugee, while the Beans are produced in enormous quantities. Suited for both early and late planting; its great hardiness withstands light frost. Market gardeners find the Black Valentine a profitable sort to grow, as the pods are of handsome appearance and good quality. For any purpose this Bean will be found exceedingly valuable. Ready to pick in 42 days. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 60 cts.; postpaid. ets.; postpaid.

227 Condon's "Sure Crop" Stringless

223

Black Seeded Valentine

237 Longfellow or French Stringless

38 to 40 days. Attractive Long Green Round Pods of Excellent Quality

This perfectly round, green podded bean is tender and prolific, and is one of the best varieties for the home garden. The pods are of fine quality, nearly stringless and exceedingly handsome. In production, very prolific; exhibits a profusion of highly beautiful, rich green pods 7 to 8 inches long, straight and round. When cooked the flavor is exquisitely delicious. The plant grows 14 to 16 inches high, bearing edible pods in 38 days. Seed purplish pink, mottled pale ochre red. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 60 cts., postnaid. postpaid.

248 Tennessee Green Pod

32 days. The Earliest and Largest Podded Dwarf Sort

This early snap bean is very popular in some sections of the south and where known in other parts of the country is considered of exceptional merit. The plants are large, somewhat spreading and prolific. The pods are very long, often six to seven inches, flat, irregular in shape, dark green and of exceptionally fine flavor. It is a hardy, vigorous mid-season sort, very productive. Fit to pick for the table in 32 days. Seed of medium size, oval, flat, yellowish brown in color. Packet, 10 cts.; ½ lb., 20 cts.; lb., 38 cts.; 2 lbs., 65 cts., postpaid.

Jennessee Green Pod

BEANS—Dwarf Green

Podded Varieties-Continued

228 Giant Stringless Green Pod

Fully as Good as Burpee's Stringless and 25 Per Cent Bigger Yielder.

Seven to ten days later, with round, slender pods, fully one-third longer. Plant very robust, strong grower, excellent for canning, for market or home consumption. We recommend it as one of the very best for all purposes as the quality is excellent and it yields enormous crops. Plant every two weeks for succession of crop. Pods brittle and stringless at all times. (See photograph.) Packet, 10 cts.; ½ lb., 25 cts.; lb., 45 cts.; 2 lbs., 80 cts.; postpaid.

224 "Bountiful"

Flat, Green-Podded Bush Bean A prolific and continuous bearer. Practically stringless, very tender.

A green pod Bush Bean, which comes into bearing very early and continues throughout the season. Pods beautiful rich green, very thick, broad, long and uniform; meaty, tender, fine quality; absolutely stringless. Good shell Bean for winter use. A splendid market variety. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; post-naid. naid.

225 Burpee's Stringless Green Pod

Round podded early stringless sort. Very tender and delicious flavor.
One of the best Early Stringless Round Podded Green Snap Beans for market or home use. Extremely early, very productive, unusually hardy, handsome appearance, entirely stringless, finest quality, dwarf bushy variety, bearing immense quantities of long, thick fleshed round pods. Excellent for spring, summer or fall planting. Our seed is of the true strain; originator's stock. (See photograph.) Packet, 10 cts.; ½ lb., 25 cts.; lb., 45 cts.; 2 lbs., 80 cts.; postpaid.

230 Long Yellow 6 Weeks A Standard Variety

Vines large, vigorous, branching, productive, with large leaves and lilac blossoms; pods long, straight, narrow, handsome; Beans long kidneyshaped, color yellowish-drab. Very hardy and extra early. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 60 cts.; postpaid. Burpee's Stringless

Execlient Shipper or Canner

Our strain is extra fine, of true bush growth, fifteen inches in height, branching freely. The pods are nearly round, light green, five inches long, tapering to a slender point; fleshy, brittle and mild in flavor, with slight strings. Rather later than the other green-podded sorts, but extremely prolific. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 60 cts.; postpaid.

Common Sense Culture Directions printed on all packages

Green Pod

BEANS 226 Condon's Improved Earliest Red Valentine

226 Condon's Imp. Earliest Red Valentine

"America's Standard Green Podded Dwarf Snap Bean"

This grand variety is a great improvement over the original Red Valentine, which it has now entirely supplanted, and is very much earlier; often ready to pick in 45 days from planting. The healthy, vigorous plants are usually hardy, successfully withstanding early frosts; it may therefore be planted very early. This with its quick development, makes it the earliest large-podded variety; and on this account it is extensively grown by truckers over wide sections of the country, though it is equally desirable for home gardens.

It will always yield a large crop of handsome long, round, fleshy pods, rich green in color and unsurpassed tenderness when gathered young, when it is practically stringless. It is the Standard Snap Bean, not only for the earliest but for successive plantings, bearing up to frost. See cut. Packet, 10 cts.; ½ lb., 18 cts.; lb., 34 cts.; 2 lbs., 65 cts.; postpaid.

Beans for Dry Shelling and Baking

These Are Grown Exclusively to Use as Shell Beans, Either Green or Dried for Winter

234 White Marrow

Vines slender, spreading, with short runners and small leaves; very prolific; pods broad, green, changing to yellow; seed large, ovoid, clear white; cooking very dry and mealy. Packet, 10 cts.; ½ lbs., 18 cts.; lb., 32 cts.; 2 lbs., 58 cts.; postpaid.

233 Red Kidney

The good, old-fashioned baking bean. Our stock is extra select Northern grown. Packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 58 cts.; postpaid.

236 Royal Dwarf Kidney

Royal Dwarf White Kidney

The plants of this late variety, also called White Kidney, are upright, very large, branching, with large, broad leaves. The pods are coarse, dark green and about six inches long. Seed large, white, kidney shaped, slightly flattened and of excellent quality, for family use either green shelled or dry. Packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 58 cts.; postpaid.

231 Dwarf Horticultural or Cranberry

Vines very productive, compact, upright, with large leaves. Pods medium in length, broad and thick, curved, with splashes of bright red on a yellowish ground. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

You will increase your yield and improve the quality by inoculating seed before planting. Garden Size Bacteria No. 775 for Peas, Sweet Peas and Beans. Sufficient quantity to treat 5 lbs. of the above items. Same Bacteria for all three. Price, 20 cts.; postpaid.

or Michigan Robust

The Greatest Money Maker of All. \$100.00 per Acre Profit Not Uncommon

Our Improved Strain of White Navy Beans are second to none. All northern grown from re-selected true seed, carefully milled and hand picked; very uniform size seed that will plant evenly and reproduce a quality of Beans that will sell always at good prices. Plant at least enough for your own use next winter. Packet, 7 cts.; ½ lb., 15 cts.; lb., 27 ets.; 2 lbs., 50 cts.; postpaid.

232 Improved White Navy

Please order by number as well as names. It will help us to serve you quicker.

58 Burger's Stringless Green Pod Pole Bean 263 Mammoth Podded Horticultural or Speckled Cranberry

The mammoth pods are striped and splashed with brilliant crimson. The Beans are of immense size and of the finest quality, used either green or dry. They are by many preferred to Limas. Best suited for cool climate. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

265 White Dutch Caseknife

A Good Corn Hill Bean
Vines moderately vigorous,
climbing well, but twining more
loosely than some, and so may
be used for corn hill bean of
medium season. Pods become
creamy white as they mature.
Of excellent quality, whether
used green or dry. Packet, 10
cts.; ½ lb., 22 cts.; lb., 40 cts.;
2 lbs., 70 cts.; postpaid.

POLE BEANS

260 Famous Kentucky Wonder or Old Homestead

The Old Reliable Standard Green Pod Pole Bean

Very early and enormously productive, the long green pods hanging in clusters from top to bottom of pole; entirely stringless. Pods of a silvery green color. Packet, 10 cts.; ½ lb., 18 cts.; lb., 34 cts.; 2 lbs., 65 cts.; postpaid.

258 Burger's Giant Green Podded Stringless Pole

White Seeded Kentucky Wonder or St. Louis Perfection

The best Green Pod Pole Bean for the North. The vines are not very long, and can be grown on brush instead of on a pole. The pods are borne in clusters and average 6 to 8 inches in length; are very uniformly straight, and of dark green color. They are absolutely stringless, very meaty, tender, and sweet in flavor. The dry beans are small and white, being good for baking after the pods have become too ripe. Equally desirable for the market and for the home gardens. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

259 Golden Cluster Wax

he Earliest Grandest Yellow-Podded Pole Bean in Cultivation. Well Re-pays the Trouble of Procuring

pays the Trouble of Procuring
Poles
We know of no bean that will please
you more than this remarkable new sort.
We have grown pods from this variety
10 inches long, and a most beautiful
golden waxy color, and where they have
been exposed in market have readily
brought a better price than any other
sort. Pods are produced in clusters of
from 4 to 6 the entire length of the vine.
While this variety is nearly as early as
any of the Dwarf Beans, it will continue
to produce pods until cut down by frost.
Packet, 10 cts.; ½ lb., 21 cts.; lb., 39 cts.;
2 lbs., 70 cts.; postpaid.

264 Red Speckled Cut Short or Corn Hill

A very popular variety for planting amongst corn. It will give a good crop without the use of poles. Pods short, fleshy and of fine quality. Packet, 10 cts.; ½ lb., 18 cts.; lb., 34 cts.; 2 lbs., 65 cts.; postpaid.

260 Kentucky Wonder

262 Kentucky Wonder Wax The Best Pole Wax Beans for Northern Planting

It is similar in habic of growth to "Kentucky Wonder Green Pod," and bears as early, or when about as high as the average bush bean. Pods are beautiful golden yellow, and so fleshy that often the thickness surpasses the width; make delicious eating. A heavy yielder and bears a long season. Packet, 10 cts.; ½ 1b., 25 cts.; 1b., 45 cts.; 2 lbs., 80 cts.; postprid cts.; postpaid.

261 Lazy Wife

Enormously Productive. Excellent Quality
The pods are produced in great abundance, and measure 6 inches in length. They are broad and thick, fleshy and entirely stringless. The pods retain their rich, tender and stringless qualities until nearly ripe, and at all stages are peculiarly luscious. Each pod contains from 6 to 8 white beans, which make excellent winter shell beans. Packet, 10 cts.; ½ 1b., 25 cts.; 1b., 45 cts.; 2 lbs., 80 cts.; nostnaid. postpaid.

BEANS—Dwarf Yellow Podded or Wax (Continued)

242 CONDON'S Rust-Proof Golden Wax

One of the Finest Wax Beans in Cultivation; Enormous Yielder; of Robust Growth; Handsome Yellow Stringless Flat Pods of Unsurpassed Quality; The Standard Flat Wax-Podded Variety

Although this is not the earliest Dwarf Wax Bean, yet it is so sure to produce heavy crops of large, attractive pods, no matter whether sown early or late, that it has found a very high place in the estimation of both home and market growers. The pods are exceedingly handsome, being of large size, very thick, and unusually fleshy. The quality is tender, brittle and entirely without strings or fibers at all stages until maturity, while the color is rich golden-yellow. There is no strain of Golden Wax that will excel the stock we offer. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

241 CONDON'S Prolific or Improved Black Wax

Best of All Second Early Round Podded Yellow Stringless Wax for Market or Home Use

This improved strain of Black Wax we offer under this name is exceptionally productive, very hardy, reliable and of the best quality. It is very extensively used for snaps for the home garden and market. The plants are medium sized, erect in growth, with small foliage, very vigorous, early intermediate in season with longer bearing period than most sorts. The pods are of medium length, four and one-fourth to four and one-half inches, borne well up from the ground, curved, cylindrical and fleshy. They are of a clear, light golden yellow color and remain a long time in condition for use as snaps. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

243 Currie's Rust-Proof Black Wax

A Great Favorite with Southern Truckers — Extremely Early, Hardy, Robust Grower

While this is a standard market garden sort, it gives excellent satisfaction in the home garden. The vine is a very vigorous grower and about the hardiest of the wax sorts. A very early variety, bearing an abundance of handsome yellow pods of excellent quality and delicious flavor. The pods are longer than most varieties, of oval shape, and as its name indicates, practically rustproof. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

241 Condon's Prolific Black Wax

BEANS-239 CONDON'S Earliest Market

Very robust, bushy plant bearing enormous crops of handsome flat golden yellow pods 6 to 7 inches long. Without doubt this bean is the hardiest of all wax beans, where the results was beans, the content of the property and will risk and the property and the property

consequently may be planted very early and will yield an abundant crop far ahead of any known sort. Quality is delicious, pods long, thick and meaty, and absolutely

stringless For FIRST CROP, either for home or market, we recommend this as the BEST and BIGGEST MONEY-MAKER. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

244 Round Pod Kidney Brittle Wax

Extra Early-Superb Quality

A bean of superb quality, extreme earliness and surprising productiveness. The pods are nearly straight and often attain a length of 6 inches. Are very tender, entirely stringless and very fleshy. The plants are of vigorous growth, with large foliage, and are completely loaded with the handsome pods. Packet, 10 cts.; ½ lb., 25 cts.; lb., 45 cts.; 2 lbs., 80 cts., postpaid.

246 Wardwell's Kidney Wax

"A Great Favorite With Southern Truckers"

It is a very early variety, ripening only a little later than Golden Wax and yields a larger crop. Pods, 6½ to 7 inches long, straight, flat, waxy-yellow, brittle and stringless. Desirable for every climate. Can be grown with great profit in South for early shipment North. They always command a ready sale in every market. Packet, 10 ets.; ½ lb., 25 ets.; lb., 45 cts.; 2 lbs., 80 cts., postpaid.

238 Pencil Pod Black Wax The Earliest and Best Round Pod Stringless

We consider this the best round pod wax bean. The pods are 6 to 7 inches long, straight, as round as a pencil. Clear yellow, very brittle, stringless and of the finest quality. Matures early and the plant is vigorous and productive. The seed is black. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

240 Davis Kidney Wax

The Great Shipping Bean Maturing in 35 Days

Vines vigorous and very prolific, bearing handsome yellow waxy white pods 7 to 8 inches long. This is an excellent shipping Bean, also very desirable canning sort. When young the pods are crisp and tender. The dry Beans are excellent for baking. Packet, 10 ets.; ½ lb., 25 ets.; lb., 45 ets.; 2 lbs., 80 cts., postpaid.

Condon's Improved Davis' White Wax Market Gardeners' Special Prices, pages 188 to 192

Two Wonderful Beans That Everybody Should Plant

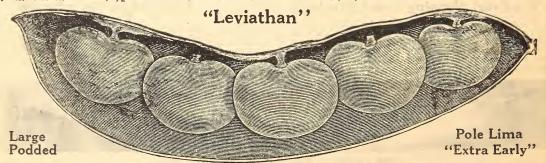

This newest and best Bush Lima represents the highest achievement in bean breeding and we offer our patrons, in our Improved Strain of Fordhooks, a Bush Lima that has attained the aeme of perfection, surpassing any other strain or type on the market. It is the best possible Bush Lima Bean, possessing every quality so long known and esteemed in the older pole varieties, and can be grown as easily as any Snap Bean. It is the earliest of the large bush sorts, and may therefore be had on the table weeks ahead of the old pole varieties. The strong, rugged plants of true bush form, 1 ½ feet in height, are of healthy, sturdy, upright growth—requiring neither poles nor stakes—and bear, from July until frost, almost unbelievable quantities of 5 to 6 inch pods, each containing usually four large, thick beans averaging as large as those of the large pole Limas, and whether used green or cured, they are of superb quality—tender, rich and buttery, the true lima flavor. Market gardeners will find this one of their most profitable crops. Packet, 10 cts.; ½ lb., 27 cts.; lb., 50 cts.; 2 lbs., 90 cts., postpaid.

257 CONDON'S Extra Early "Leviathan" Pole Lima

This is the Earliest Large White Seeded Pole Lima in Cultivation. Especially suited to Northern States where growing season is short.

The plant is strong and takes to the poles more readily than any other sort. It is fully a week earlier than any other pole variety, therefore can be grown successfully where other sorts would be caught by frosts of early autumn. Moreover, it is a prodigious cropper, producing its pods in large clusters from base to top of pole, frequently from 5 to 10 together. These are well filled with large, fleshy Beans of excellent quality, delicate, pale green in color, and possessing in a superlative degree that rich, buttery flavor so highly esteemed by all. Packet, 10 cts.; 1/2 lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

The Best LIMA or BUTTER BEANS

249 King of the Garden Pole Lima

Giant Podded—Biggest Yielder of All and Finest Quality—Our Seed Re-selected

A strong grower and uniformly large podded. The pods frequently contain 5 to 6 very large beans. Beans of excellent quality, easily shelled; of large size and handsome appearance. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

251 Seibert's Early Pole Lima

Enriest of All Pole Limas

In earliness, ease of shelling, size, beauty and quality of the green
beans, this variety leads all other early limas for either the home
garden or market. The vines are vigorous and remarkably productive. The pods are medium green, large, flat, about five inches
long, moderately curved. The green shell beans are very large, very
tender and of finest quality. This standard early pole lima was introduced in 1895. Seed ovoid, flat with slight greenish tinge. Packet,
i O cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

Vine tall growing, vigorous, but slender; leaves medium sized, smooth, light green; pods borne in clusters, long, broad, very thin, dark green; seed very large, flat, greenish white. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

BUSH LIMAS

252 Burpee's Improved Bush Lima

Very Earliest Large Seeded Bush Limas

The plants are vigorous and productive. The pods are medium green, very large, about five inches long, thick and usually contain four beans, which are unusually thick, of largest size and of excellent quality. Seed very large, thick and usually shows a greenish white tinge which is generally considered an indication of superior quality. One of The plants are vigoran indication of superior quality. One of the best and most extensively used bush limas for the market as well as home garden. Packet, 10 cts.; ½ lb., 24 cts.; lb., 42 cts.; 2 lbs., 80 cts.; postnaid.

252 Burpee's Improved Bush Lima

253 Burpee's Bush Lima-Large Seeded

A bush form of the large white Lima, growing about 20 inches high, the pods and Beans are nearly the same size as the latter. While not as early as the "Henderson" its large size commends it to many. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts.; postpaid.

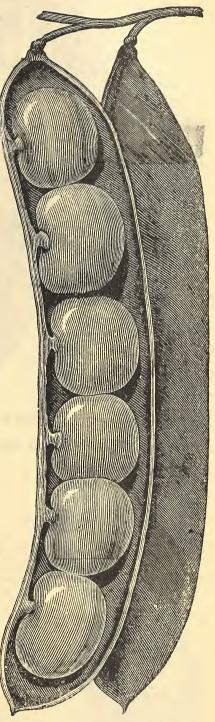

254 Dreer's Bush Lima

A bush form of Dreer's Pole Lima. Beans thick, sweet and succulent, growing close together in the pods. Growth vigorous, about 18 inches high, with abundant foliage. Grows well even in dry season. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts.; postpaid.

256 Henderson's Bush Lima—Seeded

Valuable variety on account of its earliness and wonderful productiveness, continuing to grow and set pods until stopped by frosts. Its popularity increases every year. Rich, buttery Limas—the true flavor—even better. Vines are without runners, small, bright green and Lima-like; flowers small, yellowish white, borne in clusters and often above the foliage. Pods short, flat and contain from three to five beans, which are of delicious quality. Packet, 10 cts.; ½ lb., 21 cts.; lb., 37 cts.; 2 lbs., 65 cts.; postpaid.

249 King of the Garden Pole Lima

Please order by number as well as names. It will help us to serve you quicker.

CONDON'S "Sure Crop" Table BEETS

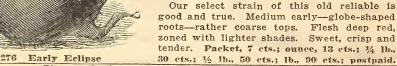

The color is a rich, dark red, and nearly globe shape. It is free from side roots, every beet being as smooth as a whistle. When cooked, it still retains that rich, blood red color; is very sweet, crisp and ten-der. For a First Extra Early forcing variety or for early outdoor planting to bunch and sell for greens, it's got 'em all beat a mile. For main crop, "Condon's Royal Blood" is better. A few years ago we distributed for trial free several thousand packages of this Extra Early Variety so when we had seed enough to list it generally thousands of market gardeners. market gardeners and home planters would have no other. Our comparative Trial Ground Test this year again proved it be-yond a doubt the earliest of all turnip-shaped beets and the greatest money-maker in the list. Try it. Packet, 10 cts.; ounce, 15 cts.; 1/4 lb., 40 cts.; 1/2 lb., 70 cts.; lb., \$1.25; postpaid.

276 Early Eclipse

An early beet, especially desirable for the home garden. Tops small. Root bright deep red, smooth round or slightly top-shaped, with a small tap and small collar. Flesh bright red, zoned with pinkish white, very sweet, crisp and tender, especially when young. Packet, 6 cts.; ounce, 10 cts.; 14 lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts.; postpaid.

275 Improved Early **Blood Turnip**

Standard Early Variety

Please order by number as well as Names. It will help us to serve you quicker

267 Bastin's Early Blood Turnip

An early, bright red turnip-shaped beet of very good quality. Tops medium sized; leaves bright green. Root thick, slightly top-shaped, medium sized tap. Flesh light purplish red, zoned almost white; crisp and tender. Packet, 6 cts.; ounce, 10 cts.; 1/4 lb., 25 cts.; 1/2 lb., 40 cts.; lb., 75 cts.; postpaid.

Early Blood Turnip, Improved

A Wonderful Cropper for

269 BEET-CONDON'S ROYAL BLOOD TURNIP

The World's Greatest Main Crop Variety Introduced by us in 1912 and now used annually by 75,000 Satisfied Customers

annually by 75,000 Satisfied Customers all over the country. It is used most exclusively by the large planters who grow for market as well as home gardens. Many of our customers plant as much as 15 to 20 acres of it annually.

Tops small, upright growth. Leaves dark green, shaded with red. Root medium sized, globular, or nearly round, very smooth and of dark bloodered color. Flesh is deep vermilion red, zoned with a lighter shade of the same color. Careful comparisons with all the prominent varieties on the market in this country and in Europe prove that Condon's Royal Blood Beet is the most uniform in shape and size, and the most attractive in color. It is and the most attractive in color. It is unsurpassed in quality. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; postpaid.

278 Improved Long Dark Smooth Blood

This is the best long, red beet on the market and a great favorite in the country, as it is of unexcelled quality, both as a table beet and for stock feeding. Packet, 6 cts.; ounce, 14 cts.; 14 lb., 25 cts.; 1/2 lb., 45 cts.; lb., 85 cts.; postpaid.

273 Dewing's Blood Turnip
Roots smooth, handsome, good size, tender and sweet. A favorite with market men. The seed we offer is grown from selected beets and is unexcelled by any in the country. Packet, 6 cts.; ounce, 12 cts.; 14 lb., 22 cts.; 12 lb., 40 cts.; lb., 75 cts.; postpaid.

Edmand's Early Blood Turnip

Tops short and rather spreading; ribs and leaf stalks dark red; blade of leaf bright green, often with wavy edge. Root nearly round or slightly flattened; exterior color dark red, interior color purplish red with little zoning; crisp, tender, sweet, and an excellent keeper. Packet. 7 cts.; ounce, 13 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts.; postpaid.

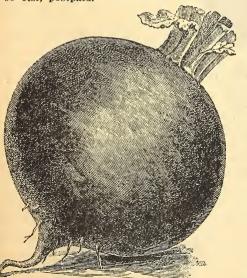

The root is deep red, very symmetrical, two or three times as long as thick, and always smooth and handsome. The flesh is rich, very dark red, sweet, crisp and tender, never becoming woody even in the portions above the ground. It is a late variety and particularly valuable to store for winter use. Packet, 6 cts.; ounce, 13 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; lb., 90 cts; postpaid.

270 Extra Early Egyptian Blood Turnip

The strain we offer you of this grand beet has been bred to perfection by our French grower, who enjoys a handsome trade on it by the most critical European gardeners. You will find the quality and type far superior to that offered by many dealers. The best variety for forcing, and excellent for first early crop out of doors, being very early, with small tops. Leaves dark green, shaded and veined with dark red. Root very dark red, moderately thick, a little rounded on top, distinctly flat on bottom, and about 2 inches in diameter when mature. Flesh dark purplish red, zoned lighter shade; firm, crisp and tender. Packet, 7 cts.; ounce, 13 cts.; ½ lb., 47 cts.; lb., 90 cts.; postpaid.

Early Wonder

A selection from Crosby's Egyptian but a few days later. The small-top roots are nearly globe shaped and uniform in size. The skin is a fine deep red and the flesh is also a rich dark color, with very little zoning. Packet 10 cts.; oz., 15 cts.; 14 lb., 40 cts.; ½ lb., 70 cts.; lb., \$1.25; postpaid.

Edmand's Early Blood Turnip

CONDON'S "Sure Crop" BEETS

272 Crosby's Egyptian "Extra Selected Strain"

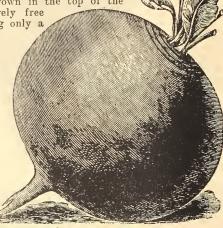

The name of this variety is misleading, as it resembles the Egyptian only in its extreme earliness. Tops small. The roots are nearly round, or slightly flattened, and very smooth. Exterior color of root bright red. Flesh bright vermilion-red, zoned with a lighter shade; very sweet, tender and of excellent quality. One of the best for early planting outdoors. It becomes fit for use sooner than any other variety, but it is not as well suited as the Egyptian for forcing in hotbeds or for transplanting. Our stock is exceptionally uniform in shape and color. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; postpaid.

271 Crimson Globe Excellent Table and Market Beet

Of fine shape, very small tap-root, deep crimson flesh of fine grain, surprisingly sweet flavor and unsurpassed quality. The foliage is small—leaves all grow from a very small crown in the top of the bulb. The beets are entirely free from fibrous rootlets, having only a

buth. The beets are en from fibrous rootlets, hav slender tap-root. This beet is extensively planted for second early and main crop purposes, it is a splendid mid-season variety. Does well here and in the South. No up-to-date grower can afford to be without this most excellent sort. Packet, 8 cts.; ounce, 15 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; post-paid.

274 Detroit Dark Red

271 Crimson Globe

274 Detroit Dark Red Main Cropper

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian, and greatly passes that variety in flavor. The color is rich, dark red, and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop, or for use in winter, as it is a good keeper. It cooks sweet, tender and crisp, and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing.

Packet, 8 cts.; ounce, 15

Packet, 8 cts.; ounce, 15 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10; postpaid.

Swiss Chard Lucullus

SWISS CHARD for Greens

The Cut and Come Again Spinach Beet

Provides "Greens" from Early Spring Until Frost
The outside leaves of Swiss Chard are used as "boiling
greens" and are excellent for this purpose. They closely resemble spinach in flavor, but are declared by connoisseurs to
be even finer. The large white stalks are used like asparagus; they are boiled and served in melted butter or milk
dressing and are fully as delicious as asparagus. Swiss Chard
grows well even during hot weather when spinach fails.

ucullus or Silver Ribbed

A strong growing Swiss Chard with extra large leaves which are thick and heavily crumpled. It yields an enormous amount of greens, and has thick white stalks. The most popular variety so we have discontinued growing other varieties. Packet, 7 cts.; ounce, 15 cts.; ½ lb., 38 cts.; ½ lb., 65 cts.; lb., \$1.25; nostpaid. lb., \$1.25; postpaid.

CONDON'S World Beating Mangel

Any land that will grow a good crop of Corn will produce a good crop of Mangels or Sugar Beets, which are surer crops than any other root. Sow 6 to 8 lbs. per acre.

Beets for winter feed rich feed for poultry. An Acre of Roots will Winter Your Stock. Relished by All Stock. Keeps Animals Healthy. As Digestible as Grain. Tonic. Takes the Place of Silo. Roots as good as Grain Pound for Pound without Water. Saves One-Half Grain Feed without Reducing Milk Yield.

CONDON'S Enormous

The Largest Yielding Highest Feeding Value of any Mangel we Know of. Grows well above the ground, easily harvested, very nutritious. In color is a rich cardinal red, very cylindrical in shape. Flesh is white, firm and very sweet. Feed cows 25 to 50 pounds a day, depending on taste. Average yield 25 to 30 ton per acre. Ounce, 10 cts.; 1/4 lb., 30 cts.; ½ lb., 55 cts.; 1 lb., \$1.00; 5 lbs., \$4.75; 10 lbs., \$9.00, postpaid.

CONDON'S World Beating Stock

MANGELS and SUGAR BEETS

284 Giant Feeding Sugar Beet, or Half Sugar Mangel

This magnificent Sugar Beet, while giving nearly as large a yield of easily grown and harvested roots as a crop of Mangels, supplies a food of very much higher nutritive value, the roots for feeding purposes being really more valuable, pound for pound, than those of the very best strains of Sugar Beet, and the yield under equally favorable conditions being more than double. The roots grow partly out of the ground, and because of this and their shape, the crop can be harvested and stored at less expense than any other root crop. We are certain that every one who plants this variety and grows it with care will be much pleased with the crop. Every farmer should try it. Ounce, 10 cts.; ½ lb., 40 cts.; lb., 70 cts.; postpaid.

285 Klein Wanzleben Sugar Beet

(For Sugar Making)

This variety yields 14 to 18 per cent of sugar and is considered the best for sugar making, both in Europe and America. A heavy yielder. Ounce, 8 cts.; 1/4 lb., 19 cts.; 1/2 lb., 35 cts.; lb., 60 cts.; postpaid.

286 Vilmorin's Improved White Sugar

Of medium size and brought by careful selection to the highest perfection, both in shape and color of roots. Greatly esteemed by sugar manufacturers, and one of the finest for stock feeding, owing to the high percentage of sugar. Ounce, 8 cts.; 1/4 lb., 19 cts.; 1/2 lb., 35 cts.; lb., 60 cts. postpaid.

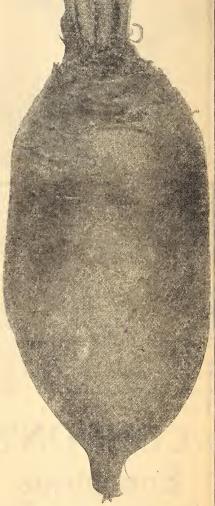

290 Improved Mammoth Long Red Mangel

Our stock is a great improvement on the old variety. The roots are very large, uniformly straight and well formed. Color deep red, roots solid, tops small. Roots attain a large size. We received several reports last season of Mangels weighing 20 to 23 pounds each. Produces an immense bulk and tonnage. Ounce, 8 cts.; ½ lb., 19 cts.; ½ lb., 35 cts.; lb., 60 cts.; postpaid.

289 Improved Golden Tankard Mangel

The Best Yellow Mangel Grown
—Dairymen's Friend

It combines apparently all the fine points possible to condense into a Mangel. The color is a deep rich yellow. The flesh is firm and solid and a rich golden yellow in color. On account of its shape, enormous crops are grown, and it is easily lifted from the ground. Ounce, 8 cts.; ½ 1b., 19 cts.; ½ 1b., 35 cts.; 1b., 60 cts.; postpaid.

284 Giant Feeding Sugar Beet, or Half Sugar Mangel

290 Mangel Mammoth Long Red

CONDON'S "Sure Crop" CAULIFLOWER

Henderson's True Early Snowball

334 Extra Early Favorite

Early dwarf variety. Heads are solid, but are not so large nor sure-heading as the Erfurt type. Packet, 10 cts.; ½ ounce, 75 cts.; ounce, \$1.35; ¼ lb., \$4.25; postpaid.

333 Extra Early Dwarf

A remarkably sure heading Cauliflower. Of dwarf habit with short outside leaves. The heads when ready for market are of medium to large size, curd white, exceptionally deep and of finest quality. It will give excellent results either in the home garden or for market use.

Packet, 10 cts.; ½ ounce, \$1.10;
ounce, \$2.00; ¼ lb., \$7.25; ½ lb., 337 New Dry Weather
\$13.00; lb., \$23.00; postpaid.

NOTICE Picture to Right

5 acre field of Condon's Select Strain of Early Snowball Cauliflower that made our customer over \$500.00 per acre profit. Grown on Muck Land. Mr. Condon is seen inspecting the field. You can do as well-Try it.

Especially Adapted to Resist
Drought. Reaches Perfection When Ordinary Sorts Fail

This new strain originated in Denmark, but has been fully tested in America, producing large, soild, pure white head, maturing a little later than Early Snowball. It is in all respects a first-class Cauliflower, and is especially adapted to dry situation and to resist droughts. Like all other Cauliflowers, it requires manure and culture; but it will succeed with less rainfall than any other variety.

Packet, 12 cts.; ½ ounce, \$1.10; ounce, \$2.00; ¼ 1b., \$7.25; ½ 1b., \$13.00; 1b., \$24.00; postpaid.

336 Henderson's Genuine True Early Snowball

It Heads Where Others Fail

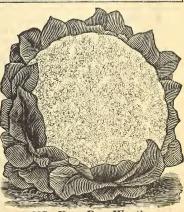

It Heads Where Others Fail
Unquestionably the earliest maturing strain of the true, short-leaved snowball type of Cauliflower. It is admirably adapted for forcing or wintering over for early crop and is the most popular sort for these purposes, also one of the best sorts for late summer and fall crops. Early Snowball is, moreover, a most desirable sort for the home garden. The plants are compact, with few short, outside leaves and are well suited for close planting. The heads are of medium to large size, solid, compact, round, very white and curd-like and are developed earlier than those of any other sort.

The seed we offer you is of the highest possible quality "Grown in Denmark," the country from which it was first introduced. The strain we offer is the result of thirty years breeding and perfecting by the most honorable and responsible grower in Denmark. Packet, 15 cts.; ¼ ounce, 65 cts.; ½ ounce, \$1.20; ounce, \$2.25; 44 lb., \$7.50; ½ lb., \$14.00; lb., \$25.00; postpaid.

335 Early Dwarf Paris

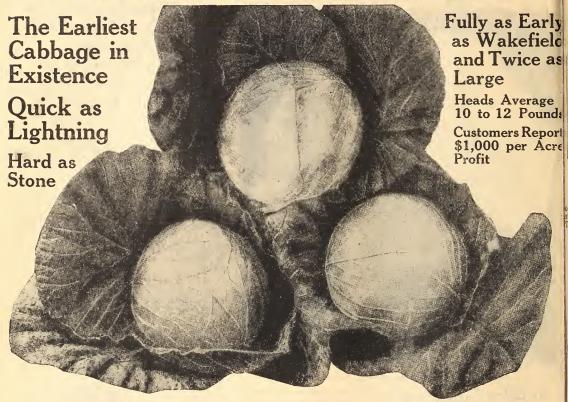

While less expensive, this will give quite good results in suitable localities. Packet, 8 cts.; ½ oz., 45 cts.; oz., 75 cts.; ¼ lb., \$2.50; postpaid.

301 CONDON'S Cannon Ball CABBAGE

301 Condon's "Cannon Ball"

Introduced by us in 1913, and now used annually by 50,000 satisfied customers

Read What They Say:

WE HAVE HUNDREDS LIKE THIS

"The 'Cannon Ball' Cabbage I got from you last spring produced the finest early cabbage in Rock Island county."

-FRANK SUMAN, 1607 7th Ave., Moline, Ill.

READY FOR MARKET 65 DAYS AFTER SETTING PLANTS BEYOND QUESTION THE BEST

301 Condon's Cannon Ball represents the highest achievement in Cabbage breeding, and is the best extra early round headed Cabbage we have ever grown or seen. In uniformity to type and evenness in early maturing it is a marvel. Every row and every head in a row look nearly alike as if all had been turned out of a mold. Its evenness in maturing has proved it a great favorite with all Cabbage growers as they appreciate the great importance of being able to clear off the ground at one cutting, especially where room is required for a second crop. The plants are of compact, stocky growth, producing large, solid, ball-shaped heads, which average about ten pounds in weight, and are of the very finest quality, smooth with fine veins and small core. Cannon Ball Cabbage is fully as early as the Wakefield types. Will yield a greater crop per acre than other Cabbage of which we know. For both private gardens and marketing this is the One Best Early Cabbage and the Greatest Money Waker of all. Its remarkably fine marketing this is the One Best Early Cabbage and the Greatest Money Maker of all. Its remarkably fine quality and tenderness, whether cooked or sliced for slaw or salad wins friends wherever tried, while for marketing its handsome salable appearance and uniformity in maturing the crop has caused it to be in great demand. Last year we sold out our entire supply and received hundreds of unsolicited testimonials from customers from all over the country, from Maine to California and from Canada to the Gulf of Mexico. Send your orders early for some of this grand Cabbage. Packet, 10 cts.; Ounce, 35 cts.; 1/4 lb., \$1.25; 1/2 1b., \$2.30; 1b., \$3.95, postpaid.

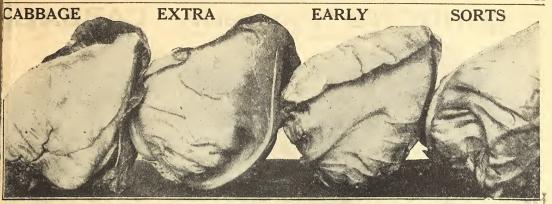

309 Extra Early Winningstadt

A very fine header and will grow a hard head under circumstances where most sorts would fail. Plant very compact, with short, thick leaves. Heads regular, conical and very hard. Packet, 8 cts.; ounce, 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.35; lb., \$2.50; postpaid.

308 Extra Early Express

Good sized pointed or oval heads frequently weighing 10 pounds. Extra early, compact, solid and of fine flavor. Packet, 8 cts.; ounce, 25 cts.; ¼ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; postpaid.

Please order by number as well as Names. It will help us to serve you quicker.

307 Condon's Selected Extra Early Jersey Wakefield "THE BIG MONEY-MAKING FIRST EARLY OBLONG HEADED CABBAGE"

The photograph above represents an identical sample of the product of our select seed of this grand a standby. Note the uniformity of heads. We have bred it for years and feel safe in saying our train today is vastly superior to the old parent stock. The heads are uniformly hard and solid. They are pyramidal in form, generally pointed at the end, with but few outside leaves. The outer leaves are usually thick and heavy, and it is thereby enabled to stand more cold weather than any other sort without injury when carried through the winter, either in the open ground in the South or in cold frames in the North. Packet, 10 cts.; 0z., 25 cts.; ½ lb., 70 cts.; ½ lb., \$1.30; lb., \$2.50; postpaid.

320 The Golden Acre

Latest introduction from Denmark. A Big Money Maker for Gardeners and Home Planters.

A very small round head, Extra Early Variety, maturing 5 lb. heads in 80 days from time of sowing. Very uniform in size and growth, dwarf, compact head with small leaves, short stem laying close to ground allowing close planting. Heads are very firm and solid with white flesh of excellent quality. This New Wonderful Cabbage matures a full uniform crop that can all be marketed at one cutting at a time when Cabbage is selling at very high prices. Our seed is direct from the originator in Denmark and can be relied upon as the Genuine Golden Acre. Packet, 10 cts.; ½ oz., 25 cts.; oz., 45 cts.; ¼ lb., \$1.50; ½ lb., \$2.90; lb., \$5.65; postpaid.

Copenhagen Market

299 Charleston Wakefield

The New Golden Acre

A third larger than Jersey Wake-eld, about a week later and much eavier cropper. Packet, 10 cts.; oz., 5 cts.; ½ lb., 70 cts.; ½ lb., \$1.30; lb., 2.45; postpaid.

Glory of Enkhuizen

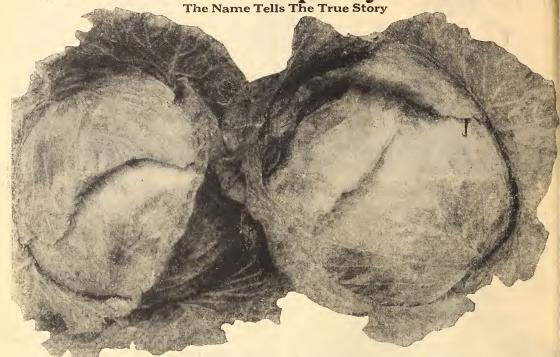

The heads are of medium size, lobe shaped, handsome, with few uter leaves and just right for narket; very productive and exellent in quality; surpassing in avor most of the other varieties. Packet, 7 cts.; oz., 25 cts.; ¼ lb., 5 cts.; ½ lb., \$1.40; lb., \$2.50; postpaid.

03 Copenhagen Market

New Variety Very Popular with Market Gardeners

Market Gardeners
The heads average about ten pounds each weight, are hard and solid with small core. The quality is extra fine and sweet. It matures as early as the Wakefields and will yield more to the care in weight. It is a short stemmed variety, the heads nearly esting on the ground. The leaves are light green, rather mall, and tightly folded, making it possible to set them close or open the field. Packet, 10 cts.; 0z., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.35; lb., \$2.50; postpaid.

302 CONDON'S "Prosperity" CABBAGE

Very Earliest, Largest and Best Flat Headed Cabbage Is What Our Customers Say "America's" Favorite for a second early variety—over a hundred thousand satisfied planters testify it to be the very finest quality, best yielder and biggest Money Maker of

all the early flat headed varieties. Try it yourself this year.

Prosperity is yours if you plant an acreage of this grand cabbage. Very EARLIEST, LARGEST and BEST FLAT HEADED CABBAGE we have ever seen. It forms large flat heads, solid as marble, weighing 16 to 20 pounds each. The most popular of all Summer Cabbage. Truly this might be termed THE ALL YEAF AROUND CABBAGE. Condon's Prosperity is a dwarf, compact grower with few outer leaves, allowing very close planting, a sure header, very uniform in growth, beautiful appearance, free from coarse leaves and far superior in quality to the Big Winter varieties. For boiling, slaw, sauerkraut, etc., it is un surpassed, being crisp, tender and sweet, flavor unexcelled, color beautiful creamy white that com mands the buyer's attention wherever offered. Whether you grow a dozen heads or a dozen acres for market and regardless of where—North, East, South or West—Condon's Prosperity is the one to Plant for Quantity and Quality as a second early Money Maker. Packet, 15 cts.; ½ oz., 35 cts.; oz., 60 cts.; ¼ lb. \$2.00; ½ lb., \$3.50; lb., \$6.00, postpaid.

Condon's Frost Proof Cabbage Plants

To get the advantage of these frost-proof Cabbage Plants they must be planted a month or six weeks earlier than you would plant home-grown plants.

Our Cabbage Plants are grown in the South from the best "Pure Bred" seed and are shipped direct from our growing station by mail or express. We cannot supply after May 1st.

The plants will be somewhat wilted and have a hard, stunted appearance, which will be disappointing to persons who have never used these plants before. Regardless of appearance, they will produce the results.

Can supply only the following varieties of frost-proof Cabbage Plants: Shipping weight about 25 lbs. per 1,000 plants. No plants shipped C. O. D. No orders filled for less than 100 of a variety.

CONDON'S "Sure Crop" CABBAGE 306 CONDON'S New Early Dwarf Flat Dutch

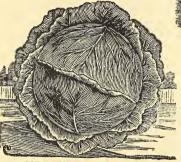

It is at least one-third larger than this popular variety, and therefore much more profitable to the market gardener, who has in this Winter Cabbage. Seed of All-Head sown in July and plants set out about the middle of August will bring heads large and solid, which are sure to stand the winter well. Packet, 7 cts.; ounce, 22 cts.; ½ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; postpaid.

298 Burpee's Prize Surehead

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear of using words of praise too high for its merits. It forms large, hard, solid, flattened heads, uniform in shape and color, and of handsome appearance. It has a very short stem, and is a compact grower. It is as natural for this cabbage to form a head as to form leaves, and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain, for it represents the best principles of seed culture applied. Packet, 7 ets.; ounce, 22 ets.; ¼ lb., 75 ets.; ½ 2..., \$1.35; lb., \$2.50; postpaid.

Burpee's Prize Surchead

297 All-Head Early

310 Gregory's All Seasons

An excellent second early cabbage, producing large, solid heads of uniform shape, flattened on top as shown in the illustration. Fully developed heads frequently measure 10 to 12 inches across, and weigh 12 to 15 lbs. each. It is also fine grained and of dainty flavor. It succeeds everywhere. Some of the largest Cabbage raisers in this country, who grow especially for kraut factories, use our An excellent second in this country, who grow especially for kraut factories, use our special strain of All Seasons, and claim it far superior to all other varieties for kraut purposes. Packet, 7 cts.; ounce, 22 cts.; ½ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; post-paid. A Good Reliable Cabbage

For Uniformity of Heads, for Tonnage and Earliness combined, our Select Strain of this Won-Select Strain of this Wonderful Cabbage has no equal. Average heads 16 to 25 lbs. each, excellent quality, a lways commanding the highest market prices. Yields as high as twenty tons per acre. You can't beat this anywhere on earth. Try it. Packet, 8 cts.; ounce, 23 cts.; ½ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; postpaid.

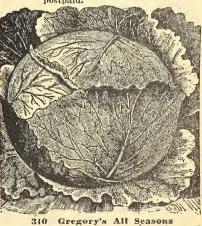

Henderson's Early

312 Henderson's Early Summer

Standard Mid-Summer Variety

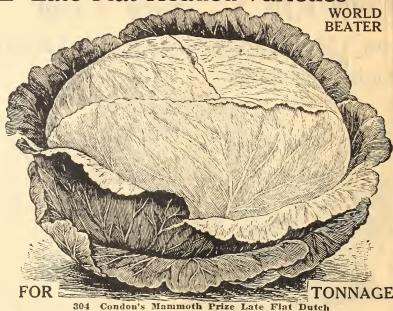

This variety is deservedly popular with the market gardeners. It forms large, solid, round, flattened compact heads of excellent quality. The heads average more than double the size of the Jerssy Wolf delignment. Wakefield, while it matures only ten to twelve days later. Packet, 7 cts.; ounce, 22 cts.; ¼ lb., 75 cts.; ½ lb., \$1.35; lb., \$2.50; postpaid.

CABBAGE-Late Flat Headed Varieties

304 CONDON'S Mammoth Prize Late Flat Dutch

This cabbage is as widely grown as any other in the whole country. Continued care and critical selection have secured a country. Continued care and critical selection have secured a perfectly true stock of seed. The heads of our Prize Flat Dutch are very large, heavy, solid, flat on top, and of a bluish-green color. Our strain is a low growing variety, with short stem and comparatively few outer leaves. The quality is fine and the flayor excellent, the heads being white when cut and the inside leaves crisp and tender. Our seed has always been American grown, coming from the celeprated Long Island districts, and whoever purchases Prize Flat Dutch may be assured of getting the best. It is everywhere a navorite market variety. It matures slightly earlier than Drumbend; perhaps three to five days sconer. Prize Flat Dutch is comparatively free from a disposition of the most paratively free from a disposition to burst, and is one of the most reliable winter keepers. Packet, 13 cts.; ounce, 27 cts.; ½ lb., \$2.75; ostpaid.

Wisconsin No. 8

319 Wisconsin No. 8

A "Yellow" Resistant Strain of Hollandar

Developed out of Hollander under the direction of Dr. L. R. Jones of the University of Wisconsin, At Racine, Wisconsin, where for several years many of the commercial crops of cabbage were badly infected or entirely destroyed by the disease called the yellows, this strain has proven to be practically immune from attack. Packet, 15 cts.; ½ 0z., 25 cts.; 0z., 40 cts.; ¼ lb., \$1.25: ½ lb., \$2.40; lb., \$4.50; postpaid.

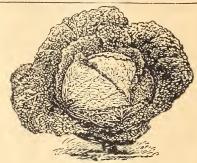

One of the finest red cabbages on the market. Heads average over 10 pounds each, and are always of rich color. Try it, Packet, 10 ets.; oz., 25 cts.; 1/4 lb., 75 cts.; 1/2 lb., \$1.35; lb., \$2.50; postpaid.

318 Dutch Winter or Hollander

As a winter keeper and for spring market this cabbage can hardly be excelled. In many cabbage growing sections it is the leading winter sort. Very hardly; heads are medium size, averaging about eight pounds, very solid, round, of white color, quality the very best. Packet, 7 cts.; 02., 25 cts.; 1/2 lb., of white color, quality the very best. Packet, 7 75 cts.; 1/2 lb., \$1.35; lb., \$2.50; postpaid.

Dutch Winter or Hollander

313 Improved American Savoy

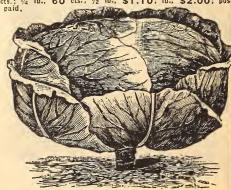

313 Improved American Savov

Very Valuable Variety

Adapted for private use. Grown in fall and allowed to be touched by frost; it is one of the most delicious of al vegetables. Packet, 7 cts.; 02., 22 cts.; ½ lb., 75 cts. ½ lb., \$1.35; lb., \$2.50; postpaid.

314 Large Late Drumhead

makes a large, round, firm head, uniform in shape and color, which seldom bursts or rots. It is a standard sof for winter keeping and sells readily in the winter and sprin markets. One of the most profitable varieties to grow, and will give unbounded satisfaction. Packet, 7 cts.; 02., 2(cts.; ½ lb., 60 cts.; ½ lb., \$1.10; lb., \$2.00; post

CONDON'S "Sure Crop" CABBAGE

Danish Grown Varieties

305 Condon's True Genuine Danish Ball Head

Direct from the Grower Market Gardeners Can Rely on This Strain

This celebrated Cabbage is now recognized the world over as the Hardest Headed, Longest Keeper, Best Shipping and Biggest Money Maker of all winter varieties. It is now grown almost exclusively in the large Cabbage growing sections north of the Ohio River. It is not especially suited to the south, but for northern states and in cold climates it beats all other varieties a mile. It is a strong, vigorous grower, producing large, round, compact heads, almost as hard as lead, weighing when trimmed, one-third more than any other sort of equal size (excepting Cannon Ball). Flesh is pure white, sweet, crisp and tender. Our strain of this excellent variety is highly bred to resist such diseases as "Yellows" and "Black Rot" and from our repeated trials as well as from the experience of our many customers purchasing this seed annually we are convinced Our Strain Surpasses in even growth and heading, as well as in uniform size and solidity of heads, any other strain we have ever seen of the so-called "Hollander Cabbage." Packet, 10 cts.; ounce, 32 cts.; ½ lb., 90 cts.; ½ lb., \$1.65; lb., \$3.00; postpaid.

316 New Danish "Round Head"

A few days earlier, shorter stemmed type of the famous Danish "Ball Head." Packet, 10 cts.; ounce, 32 cts.; ¼ lb., 90 cts.; ½ lb., \$1.65; lb., \$3.00; postpaid.

300 Chinese Celery Cabbage "Wong Bok" Very Earliest Dwarf Sure Header

A new vegetable introduced into this country from China. Its appearance is attractive, resembling Cos lettuce in shape. When bleached it is almost clean white, and is very crisp. It has a mild cabbage flavor and can be eaten raw or cooked like cabbage or spinach. Grows very quickly and is more easily grown than ordinary cabbage. We offer only imported Chinese grown seed, which is reliable for good bunching heads. Packet, 10 cts.; ounce, 35 cts.; ½ lb., \$1.05; ½ lb. \$1.90; lb. \$2.50; nostpaid. lb., \$1.90; lb., \$3.50; postpaid.

CARROTS 321 CONDON'S Select Danvers

For Critical Market Gardeners and Private Planters-The Earliest and Sweetest of All Table Carrots Used Annually by the Largest Planters

Read What They Say—

"I have grown and marketed Carrots for 40 years, but I never had any that were as tender and sweet and sell so readily as your Private Strain of Select Danvers."

My entire crop of Condon's Select Danvers Carrots averaged over 600 bushels per acre this year and every one a marketable size. That's going some, don't you think? Book me for 50 pounds more of this same high quality seed for next year.

C. O. HARNESS.

Danvers carrots have been the standard for over fifty years and we need not try to offer any proofs as to their popularity. Carrot-breeding is in about the same class as stock-breeding, and if same is not kept true, will deteriorate very quickly. We have endeavored to do more than keep the old parent sort true, and have actually bred up the quality of Danvers Carrot to such perfection that the old parent sort would be ashamed of itself. To distinguish our sort from others, we have termed our strain Condon's Select Danvers. Same has been bred for quality and for yield and on a given acreage it will produce a larger crop of marketable roots than any other kind. The roots are of a rich orange color, and about 6 inches long, with blunt point; adapted to all classes of soil. Packet, 10 cts.; ounce, 17 cts.; 1/4 lb., 37 cts.; 1/2 lb., 65 cts.; lb., \$1.25; postpaid.

326 Ox-Heart or Guerande

An Excellent Sort For Shallow Soils-

Very Fine Quality—Thick Shoulder
Grows 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend for the home garden as well as to all market gardeners. Packet, 10 cts.; ounce, 16 cts.; ½ lb., 34 cts.; ½ lb., \$5. cts.; lb., \$1.00; postpaid.

You can make \$500.00 an acre this year growing carrots

> Try It

Whether you grow for market to sh by the carload or for private home colsumption, this is the ONE BEST CAL ROT to plant. "SWEET and JUICY!

CONDON'S Selected Strains of Table CARROTS

325 New Early Chantenay or Model

"Ready For Market 60 Days From Sowing"

A very fine variety for bunching. This is a very choice strain, producing thick roots of the finest quality. Will average three inches in diameter at the shoulder, gently tapering hroughout the broad stump-root, and measuring five inches n length. Flesh tender, fine grained, free from hard core, and of a deep golden orange! An excellent variety to grow or winter use, as they can be harvested easily and are immensely productive. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 70 cts.; lb., \$1.25; postpaid.

A well-known sort; roots long, thickest near the crown, apering regularly to a point; color deep orange. It is a good teeper of fine quality for winter use. Packet, 7 cts.; ounce, 14 cts.; ¼ 1b., 25 cts.; ½ 1b., 45 cts.; 1b., 85 cts.; postpaid. A Universal

23 Half Long Danvers

Standard Grown largely on account of its great productiveness and adaptability to all classes of soil. It is a desirable second early carrot for the home garden and is also suitable for field culture. The tops are of medium size. The mature roots are of medium ength, six to eight inches long, tapering uniformly to a blunt point. The flesh is deep orange, tender and of good quality. Alhough the roots of this variety at maturity are comparatively short, they often produce as large a bulk as the longer field corts and are more easily harvested. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 34 cts.; ½ lb., 55 cts.; lb., \$1.00; postpaid.

222 Early Scarlet Horn

One of the earliest varieties in cultivation, and very desirable or forcing. Tops very small. Roots nearly round and of redish orange color. When fully matured, about 2 inches long, but should be used before fully grown, while young and tender. Packet, 10 cts.; ounce, 16 cts.; 1/4 lb., 34 cts.; 1/2 lb., 55 cts.; lb., tt 00: restraid. 1.00; postpaid.

327 Condon's Early Coreless Absolutely Free From Heart or Core

This comparatively new variety is by far the earliest of its type, but its earliness does not affect in any way its size or quality. It is a half-long, cylindrical, blunt-pointed variety, with a very small tap-root and small, fine top. The shape and size are extremely uniform, averaging 6 to 7 inches in length and 11/2 inches in diameter, clean-skinned, smooth, and easily pulled. The flesh is very fine-grained, absolutely without any woody heart or core, and entirely free from stringiness and coarseness. The red-orange flesh is of the finest flavor. Packet, 10 cts.; ounce, 18 cts.; 1/4 lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1.50; postpaid.

NOTICE

Foxboro, Mass., July 22, 1927.

Foxboro, Mass., July 22, 102...

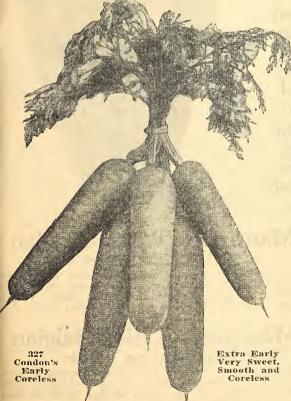

Condon Bros., Rockford, Ill.

Dear Sirs: Last spring I ordered twenty (20) quarts of Notts Excelsior Pea Seed. Sixteen of the quarts I planted in 875 feet of drill. I was told or read it somewhere that a bushel to a hundred feet was a fair yield. I have picked slightly over thirteen (13) bushels. I am very well pleased with the result of this seed as well as all other seed that I received from your house.

Sincerely yours,

Arthur W. Kallom.

STOCK CARROTS for Cattle Feeding

Greatest Horse and Cattle Food. Wonderfully Productive; 15 to 25 tons per acre. One acre equal to 2 acres of corn. Sow 2 lbs. of seed per acre on any ordinary soil.

329 Condon's Prize Winner

This is the heaviest cropping carrot grown, yielding more tons to the acre than any other sort. The flesh is white, solid, crisp and very sweet; the roots are short and very heavy at the shoulder, which allows them to be harvested very easily. They do not break easily in pulling or storing, owing to their solidity and shape. This is not a carrot for gardeners, but is for farmers and cattle men. The roots frequently measure 12 to 25 inches in circumference, and 15 to 25 tons is not an uncommon yield. A few of these carrots should be grown by everyone, even if they only have one cow. Packet, 10 cts.; ounce, 16 cts.; ½ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00; postpaid.

331 Mammoth Yellow Belgian

2 lbs. of Carrot Seed will sow one acre Sufficient to produce on good soil 25 Tons of Carrots Equal in feeding value to 300 Bushels Oats

330 Mammoth White Belgian

A Standard Early Sort

A variety with long slender root, about one-third of which grow above the surface of the ground, thus making it easy to pull. I is very productive, highly nutritious and a good keeper. Packet 5 cts.; ounce, 10 cts.; 1/4 lb., 20 cts.; 1/2 lb., 35 cts.; lb., 60 cts. postpaid.

331 Mammoth Yellow Belgian Best Long-Keeping Yellow

This sort is very similar to the White Belgian except in color Its strong point is its keeping quality, making it of special value for late feeding. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 20 cts. ½ lb., 35 cts.; lb., 60 cts.; postpaid.

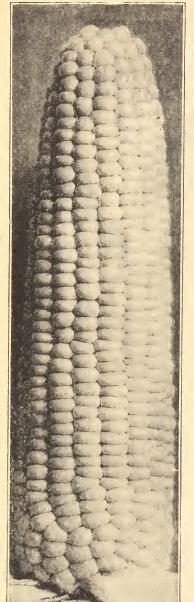

Tell your friends about us. We would do as much for you.

20 CONDON'S "Silver Queen" or White Bantam SWEET CORN

620 Condon's Silver Queen or White Bantam

Since the Pilgrims settled Massachusetts, Sweet Corn has been one of the most relished vegetables. In early days our forefathers used the old-fashioned Indian Corn, picking same just as it came into the nilk, and termed it Roasting Ears. Ever since, man has striven to produce a better quality suited to the dvanced tastes and requirements of the time. By crossing the various types, wonderful improvements ave been made, until one would think we had reached our zenith; especially after tasting those delicious types of Henderson's Golden Rod and Burpee's Golden Bantam. True, these grand types were far superior to any previously introduced, "but the color was against them." Once again Nature proved a woncer, for we found in our field of Golden Bantam several ears containing a few white grains. These were elected, planted by themselves, and today we have a distinct type of WHITE BANTAM, known as our ILVER QUEEN. Think of it, a WHITE BANTAM CORN, which contains all of the sweet lusciousness of the yellow sort, and yet invitingly silver white in color. Truly, this grand new variety should reign apprene in every garden. Do not associate it with any other kind; it is alone in its class, the SILVER UEEN. In habit of growth it excels all other early varieties, being stocky and exceptionally vigorous. The uality is most superior, very excellent and surpassingly sweet. Ears 6 to 7 inches long, frequently earing four and five good ears from a single stalk. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 5 cts.; postpaid. 5 cts.; postpaid.

SWEET CORN 617 CONDON'S Early

Columbia-Market Gardeners Big Money Maker for a Second Early Variety

Only few days later than the extra early sorts and nearly twice as large. Selection from the famous early champion, and today our stock of Columbia so surpasses the old parent there is no comparison Condon's Early Columbia is an acquisition of rare value. This nev and valuable variety of Sweet or Sugar Corn has eclipsed all othe sorts. It is as early as the Cory and nearly twice as large, being 12-rowed and of great length. The color is a beautiful creamy white In quality, sweetness and flavor it is superior to any second early sort known and a very heavy yielder. Early Columbia Corn is the best and largest early sweet corn ever offered. Packet, 10 cts.; ½ 1b 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

618 CONDON'S Golden Sunburst

The sweetest, largest and best of all yellow Sweet Corn is what our customers say. Our own origination. This is the celebrated corn we distributed for trial a few years ago that everybody praised so highly. Better to-

day than ever. Try it.

Cross between Burpee's Golden Bantam, Country Gentleman and Evergreen, retaining the color of Golden Bantam and its delicious flavor, combined with the other two, and the sturdy yielding qualities of the Evergreen. This is truly a remarkably fine sort, and is destined to become a great favorite in every market. Don't miss this. It's certainly a good thing, and we want you to try it. Packet, 10 cts.; 1/2 lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts.; postpaid.

624 Early Minnesota The Old Reliable

A standard variety. Has held its position in the list for a long period of years as a dependable sort. The ears are of good size and well flavored. Valuable for either private or market use. Eight to ten rowed; excellent quality; large white grain and extremely productive. Packet, 10 cts.; ½ lb., 17 cts.; lb., 30 cts.; 2 lbs., 55 cts.; postpaid.

627 Howling Mob

Condon's Early Columbia

617 Condon's Early Columbia

When this new sweet corn was first introduced at market by the originator, it became so popular that crowds gathered about his stand. Really, a mob howled for this delicious corn, and so it was named Howling Mob.

Howling Mob is one of the best flavored and most tender of all second-early white sweet corns. It matures right after Golden Bantam and makes a perfect succession to this fine variety. Ears of Howling Mob measure from 7 to 9 inches in length and they are closely set with 12 or 14 rows of large, pearly white grains Packet 10 cts. 1 large Packet 10 cts.; 1/2 lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.; postpaid.

627 Howling Mob Sweet Corn

Condon's Golde Sunburst

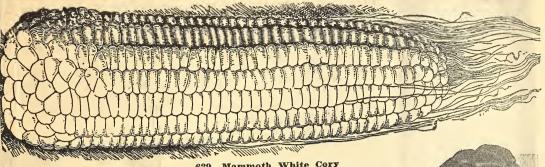

NOTICE OrangeCenter.Fla.

I received a sample of your Golden Sunburst Sweet Corn and it was the best corn we ever ate and I want more of it. I used to live in Northern Lowa. so I know and I want more of it. I used to live in Northern Iowa, so I know good corn. Yours very truly,

W. Flathers

Please order by number as well as Names. It will help us to serve you quicker.

CONDON'S "Superior" SWEET OR SUGAR CORN

Mammoth White Cory

629 Mammoth White Cory

Considered one of the best early sweet corns. It produces stalks about four feet high, each generally bearing two large, finely shaped ears which become fit for use in about 72 days. Six to seven inches long, very symmetrical and handsome, seldom with any opening between the rows at the base. Grain large, broad, very white and of remarkably good quality. Packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts.; nostnaid. cts.; postpaid.

623 Early Crosby 2nd Early—12 Rowed

A most excellent early variety of fine quality. The ears are five and one-half to six and one-half inches long. Twelve rowed or more, with short nearly square grains which are very white, sweet and tender. Packet, 10 cts.; ½ lb., 17 cts.; lb., 30 and tender. Packet, 10 cts. cts.; 2 lbs., 55 cts.; postpaid.

616 Burpee's Golden Bantam-Improved

America's Favorite Yellow Corn

America's Favorite Yellow Corn

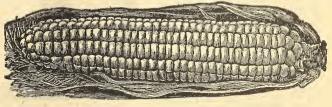

Earliest of all Yellow Sweet Corns. Golden Bantam is becoming each year more firmly fixed in popular favor because of its extreme early character, vigorous growth and surpassingly delicious flavor. We have had hundreds of most enthusiastic letters from customers, giving it the highest praise as the finest extra-early Sweet Corn they have ever grown. Although the dry grain is entirely free from any flinty glaze, it is exceptionally hard and firm, hence can be planted earlier than any other true Sweet Corn. The stalks are dwarf and sturdy in habit, growing to a height of 4 feet; they bear 2 and 3 good ears, which are set well above the ground. The ears, 5 to 7 inches in length, have 8 rows of broad yellow grains, extending to the extreme rounded tip. Many market gardeners report that they find Golden Bantam their most profitable variety throughout the season (from successive plantings) as soon as customers get acquainted with its splendid flavor and distinct color. Our home grown seed is a decided improvement over much that is offered. Packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts.; postpaid.

616 Burpee's Golden Bantam Improved

630 Peep O'Day

One of the earliest of Sweet Corns. Grows about 3½ feet high. Bears nearly always two ears on the stalks. Kernels of good white color. Our seed is raised in the North to insure earliness. in the North to insure earliness. Packet, 10 cts.; ½ lb., 20 cts.; lb., 30 cts.; 2 lbs., 65 cts.; postpaid.

Country Gentlemen Sweet Corn

626 Condon's Early White Evergreen

Earliest of All Evergreens
Has ears fully as large as
those of the regular Stowell's
and is about five days earlier,
while the grains remain tender
for a longer period. Its most
valuable feature, however, is
the extreme paper whiteness of
the grains, which makes not
only a more attractive ear
when served on the table, but
is most important for the canner. It retains its whiteness
when put up in cans as distinct
from the yellowish tinge of the
still popular original Stowell's
Evergreen. Packet, 10 cts.; ½
lb., 18 cts.; lb., 32 cts.; 2 lbs.,
60 cts., postpaid.

Sweet Corn 621 Country Gentlemen

70 Day Corn, an Improvement on the Old Favorite Shoe Peg Sweet Corn Used Extensively by Canners for Their Best and Highest Priced Canned Corn

Is a late main crop variety, which should find a place with every grower for home or market. The ears which are 7 to 9 inches long are borne on stalki 6 to 7 feet high. Unlike other sorts the grain is small and rather round and crowded together on the cob, instead of forming in defined rows. Deliciously tender and sweet this corn is regarded by many as the highest quality of all White Sweet corns. Condon's strain has been especially selected for small deep kernels and high sugar content and represents the highest bred type Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.; postpaid.

622 Early Adams

Earliest Corn in Cultivation
Very early, and used extensively for a first-early table corn in the South. Stalks about 4 feet high, with small tassel, very few leaves, and without suckers. Ear short, very full, often nearly as thick as it is long, well covered with coarse husks; kernels white, smooth. An extremely hardy variety which can be grown closer together than most sorts. Packet, 5 cts.; ½ lb., 15 cts.; lb., 25 cts.; 2 lbs., 42 cts., postpaid. paid.

614 Black Mexican

70 days. Considered the Sweetest of All
Grains when first perfected are pure white, and are then at their best for table use. Very tender and sweet; bluish black when ripe, but when cooked, grains are white with a bluish tinge. Fit to eat in 70 days. One of the best for home use. Packet, 10 cts.; ½ lb., 20 cts.; 1b., 35 cts.; 2 lbs., 65 cts.; postpaid. 65 ets.; postpaid.

628 Mammoth Late Sugar

This tall growing sugar corn is one of the very sweetest known. It matures a little later than Stowell's Evergreen, and is large in both stalk and ear. In quality it is delicious, being sweet and tender. The ears remain long in the green state, and it is particularly good for canning purposes. An excellent late sort for the garden. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

CONDON BROS.

Seedsmen

Rock River Valley Seed Farm ROCKFORD, ILLINOIS

SWEET or SUGAR CORN

619 CONDON'S

"Private Strain"

White
Evergreen

The Finest Large Eared Sugar Corn in Existence

Sweet as Honey

Enormously productive, averaging 3 to 5 fine Big Ears from a single stalk. Ears 8 to 10 inches long, 16 to 18 rows on the cob. Every ear runs uniform, well rounded out both on the tip and the butt. The ears are compactly filled with long, plump, purity white kernels, lusciously tender and sweet. Another great feature is the length of time the ears remain "in the milk," the thick husk giving it splendid protection, making it marketable for a longer period of time than any other known sort. In color it is the most perfect Purity White grain corn you ever saw, making it the most attractive ear when served on the table and the most valuable variety for canning, retaining when canned that distinct purity whiteness which makes a big demand for it at good prices even when the markets are loaded with other varieties. DON'T FAIL TO PLANT SOME OF IT. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.; postpaid.

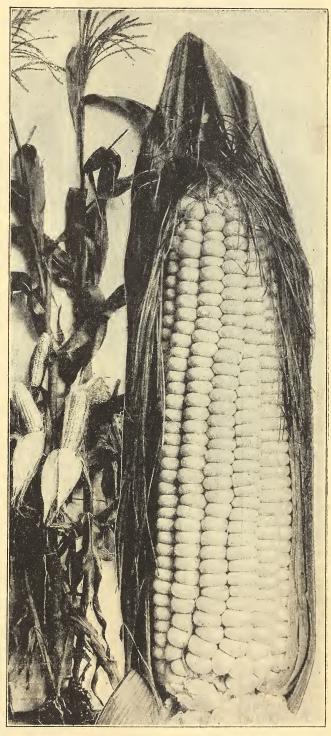

531 Stowell's Evergreen

The Standard Main Crop Variety

Late maturing sort, producing strong and vigorous stalks, 7 to 8 feet high; produces ears 8 inches long with 16 or more rows of the finest sugary grains. This variety has gained and maintained a reputation for productiveness, fine rich flavor, sweetness and deep set tender white grains. Packet, 10 cts.; ½ lb., 18 cts.; lb., 32 cts.; 2 lbs., 60 cts.; postpaid.

NOTICE—Every man or woman who keeps one or a hundred cows should plant a few acres of Evergreen Sweet Corn to cut for fall feed.

GREATEST OF ALL MILK PRODUCERS

619 CONDON'S PRIVATE STRAIN WHITE EVERGREEN

341 CONDON'S Golden Self Blanching CELERY

A-No. 1 Extra Select Strain for Large Market Growers and Critical Planters

Without doubt the very finest celery in cultivation and the Biggest Money Maker. Stalks Thick, Crisp and Brittle. No Hollow Centers. Blanches itself to a Beautiful Golden Yellow. We supply it annually to the largest and most critical planters in America and this is what they say about it.

Dear Sir: Newark, N. Y., Sept. 20.

I am writing in regard to the Celery Seed I purchased from you. It has proven one of the best of seeds. So much of the Celery planted here has turned out to be the Green Celery. I can use another pound of Condon's Golden Self Blanching Celery Seed and would like to know if you will send me 1 lb. for the same price as last year. If so send me 1 lb. of Condon's Golder Self Blanching Celery Seed as soon as you car by Parcel Post, C. O. D., and oblige

James H. Van Derbilt, R. F. D. No. 3.

The plants are of medium size, compact and stocky, with yellowish green foliage. As they mature the inner stems and leaves turn beautifu golden yellow so that blanching is effected at a minimum expenditure of time and labor. It handsome color, crispness, tenderness, freedon from stringiness, and fine nutty flavor have established it as a superior first early sort. Equally desirable for muck or upland farms. Try it Packet, 12 cts.; ounce, 60 cts.; 1/4 lb., \$1.80; 1/2 lb., \$3.25; lb., \$6.00; postpaid.

341 Condon's Golden Self-Blanching Celery

Golden Plume.

Please order by number as well as Names. It will help us to serve you quicker.

CONDON'S "Sure Crop" CELERY

348 Henderson's Easy Blanching

343 Giant Pascal

The Largest Ribbed Celery

This is a green-leaved variety developed from the Golden Yelow Self-Blanching, and we recommend it as being of the best quality for fall and early winter use. It blanches to a beautiful rellowish white color; is very solid and crisp and of a fine nutty diavor. Packet, 10 ets.; ounce, 30 ets.; ¼ lb., \$1.65; lb., \$3.00, postpaid.

340 Columbia

Second Early Winter Sort

An early-maturing sort unsurbassed in shape and quality. The blant is of medium height, but very stocky and heavy. The stalks are thick, almost round, tesembling in shape those of liant Pascal; the color has in it nore of the rich yellow tint of olden Yellow Self-Blanching, which variety it resembles very much in appearance when rimmed and bunched for the narket. Packet, 10 cts.; ounce, 0 cts.; ½ lb., \$1.50; ½ lb., \$2.75; b., \$5.00, postpaid. An early-maturing sort unsur348 Henderson's Easy Blanching Celery

Originators True Stock. Absolutely New Distinct Sort

The Easiest and Quickest to Blanch The Earliest and the Latest in One Row

A valuable celery of recent introduction and is now extensively grown by the most progressive celery growers throughout the United States. The stalks are stocky in growth and of medium height and are the easiest and quickest to blanch and keep better in the trench than other sorts. The tender, brittle, sweet, nutty flavored stalks are attractive in appearance. Ready for the table or market in about 115 days. Grows equally well on muck or upland. Packet, 10 cts.; ounce, 50 cts.; ½ lb., \$1.75; ½ lb., \$3.25; lb., \$6.00, postpaid.

342 CONDON'S Extra Select White Plume

The Very Finest for Fall and Early Winter Use "Crisp as Ice."

Use "Crisp as Ice."

It is a truly beautiful type. No other celery naturally turns white upon reaching maturity. All others require blanching with boards or with earth. The Golden Self-Blanching naturally turns yellow, but this one turns white. Not only does the stem whiten, but the leaf itself, especially every inner leaf, assumes the attractive white color. This makes the White Plume Celery one of the most showy ornaments that can be put upon the Thanksgiving or Christmas dinner table. Packet, 10 ets.; ounce, 30 cts.; ½ lb., \$1.65; lb., \$3.00; postpaid.

Large Smooth Prague
An improved form of turnip-rooted celery, excellent for soups and stews.
Produces roots of nearly globular shape and comparatively smooth surface. Packet, 10 cts.; ounce, 30 cts.;

14 1b., 90 cts.; postpaid. 346 Turnip-Rooted Celery

Columbia Very Fine Strain

345 Kalamazoo

Extra Select Strain for Critical
Planters

We consider our Kalamazoo absolutely and without exception the very best celery grown. It is late; it is not self-blanching, but it is worth many times over all the extra trouble and labor involved in growing it. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 75 cts.; ½ lb., \$1.40; lb., \$2.50; postnaid.

347 Winter Reliance or Queen Longkeeper

This very desirable variety is considered the most attractive in color and the best in quality of any of the late-keeping sorts. The plant is dwarf. Packet, 10 cts.; ounce, 20 cts.; ½ lb., 65 cts.; ½ lb., \$1.15; lb., \$2.00, postpaid.

344 CONDON'S Improved Golden Heart

Fine, long-keeping golden dwarf celery. The heart is large, surrounded by a shapely solid stalk. Packet, 10 cts.; ounce, 20 cts.; 4 lb., 65 cts.; ½ lb., \$1.15; lb., \$2.00, postpaid.

CONDON'S "Sure Crop" CUCUMBERS

Seed Saved From Hand Selected Fruit of Uniform Type

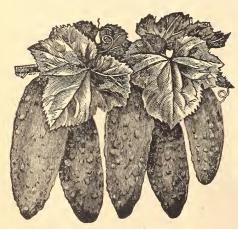

361 Condon's Early Wonder-Earliest of All

361 CONDON'S Early Wonder

Earliest, Smoothest, Greatest Yielder and the Most Crisp. The Best and Most Profitable Extra Early Slicer We Have Ever Seen. Notice Small Seed Cavity Which Tells the True Story.

As an extra early Cucumber there is no strain to equal this. It is of a most handsome shape and hole its deep green color better than any other White Spine type. Fruits grow very even in size and regular form. Color is dark clive green with lighter spines running from blossom end. It is smooth, tender an crisp. Remains green on the vine, and after picking it never turns yellow. It is very hardy, robust at free from disease. We have not seen a strain more uniform in size, color and evenness than our Earlie of All. Market gardeners and large planters who value earliness, will find this the most profitable so in cultivation. Packet, 10 cts.; ounce, 20 cts.; 1/4 lb., 50 cts.; 1/2 lb., 85 cts.; 1/5, postpaid.

371 Snow's Early Pickling

364 Extra Long White Spine

The Extra Long White Spine, or "Evergreen," as it sometimes called, is the standard and most popular of the Long White Spine varieties. In season it is early, vigorous and prolific, more blight-proof than the ordinary long sor The shape is straight; smooth, dark, shiny green in colcated to 12 inches in length, and, compared with "Davis' Pefect," is larger in diameter. The flesh is crisp, tender and superb flavor. For general market and home use it is with out a superior in this variety. The seed we offer is the result of a number of years of exhaustive trials and a sciential selection from the pick of different strains of many grower Select stock. Packet. 7 cts.; ounce, 14 cts.; ½ lb., 32 cts. ½ lb., 55 cts.; lb., \$1.00, postpaid.

371 Snow's Early Pickling

This is a selection made from the "Chicago Pickle" by veteran pickle grower, Mr. Snow, of the famous Snow Pick Farm, Rockford, Ill. The type is shorter when ripe the the Chicago Pickle and is broad at the stem end, taperin slightly to the tip. The small pickles are dark green, cy indrical and square ended. average 4 to 5 inches in leng when large enough for slicing, and are of excellent qualit but it is chiefly for producing medium-sized pickles, the this variety is so highly esteemed. If the fruits are gather as soon as large enough, the vines will continue bearin through a long season. Packet, 8 cts.; ounce, 15 cts.; ½ lb., 65 cts.; lb., \$1.15, postpaid.

Please order by number as well as Names. It will help us to serve you quicker.

CONDON'S "Sure Crop" CUCUMBERS

362 Davis Perfect Select

Original strain. As now selected, the long even fruits are of fine form, with intensely dark, rich green skin. With very few seeds, the solid white flesh of superb quality for slicing. So handsome and regular are the fruits they bring an extra price on market, often being taken for "hot-house wn." The vines are of strong growth and quite prolific.

Ar. Davis, the originator, says: "This new variety beats all others in points beauty, quality and productiveness. More fruit can be cut from it than many other we ever tried in the greenhouse, while for outdoor growing y seem to yield even better than under glass, and even experts cannot tell outdoor fruits from the hot-house product." Packet, 8 cts.; ounce, 15 cts.; 1b., 40 cts.; ½ 1b., 70 cts.; 1b., \$1.25, postpaid.

Thorburn's Everbearing

This is a unique and highly meritious pickling variety; meritorious pickling variety; meritorious cause of its quality, and unique in ability to go right on bearing, ether the ripened cucumbers are ked or not. It is enormously proctive and a general favorite. Fruits every age and also blossoms may found on a single vine and bears continues until the coming of st. A favorite for pickles. Also excellent home garden variety, ets.; ½ 1b., 55 ets.; 1b., \$5.00, post-id.

365 Green Prolific, or Boston Pickling

Boston Pickling
this is a very prolific cucumber; gely planted for pickles. The its average 4 to 6 inches in length en large enough for slicing, and of excellent quality. It is, hower, for producing medium-sized kles that this variety is so highly eemed, as it is enormously produce; and if the fruits are kept gathes a long season. Packet, 5 cts.; acc, 10 cts.; ½ lb., 30 cts.; ½ lb., cts.; lb., 90 cts., postpaid.

Condon's Extra Early Improved Long Green

Vines very vigorous and productive. The fruits are very long, often 12 inches; slender and uniformly dark green color. Furnishes some fruits early, but matures the bulk of its crop rather late. Excellent for slicing and very largely used for pickles. The fruits are often used for making sweet pickles. We offer a carefully selected strain, uniformly long, of good form and with the large warts and spines well distributed over the surface instead of being clustered at one end, as in inferior stocks. See cut. Packet, 10 cts.; ounce, 18 cts.; ¼ lb., 45 cts.; ½ lb., 75 cts.; lb., \$1.35, postpaid. postpaid.

CONDON'S

Bug Finish Gets the Cucumber Beetle

Klondike 367

medium early, white-spined cucumber of handsome, very dark green color of excellent quality for slicing. The vines are very hardy and productive, is fruits when mature are about 8 inches long, and are uniform in size and ppe. Color dark green, slightly striped at the ends. The dark green color cetained much longer and is affected less by the hot sun than any other twith which we are familiar. Its uniform size and shape and splendid or are making this variety very popular as a shipping sort. Packet, 6 ounce, 12 cts.; ¼ lb., 32 cts.; ½ lb., 56 cts.; lb., \$1.00, postpaid.

West India

Gherkin

Klondike-Medium Early West India Gherkins

A small fruited variety, very prolific, and used only for pickling as it has no slicing value. Fruits are thick and rounded in shape, ranging from 2 to 3 inches in length, and covered with spines. Makes a strong growth of slender vines, with small foliage. Prices, packet, 10 cts.; ounce, 20 cts.; ¹/₄ lb., 50 cts., postpaid.

Condon's Extra Early Improved Long Green

Common Sense Culture Directions printed on all packages

CONDON'S "Sure Crop" CUCUMBERS

546 Monarch White Rice

388 Finest Mixed Gourds

EGG PLANT

376 Black Beauty

As large as the New York Improved, but about ten days earlier. The skin is a rich, lustrous purplish black—the satin gloss and rich coloring add greatly to the beauty of these "eggs." The intensely brilliant coloring is uniform over the whole fruit. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 45 cts.; ½ lb., \$1.40; ½ lb., \$2.70; lb., \$5.00; postpaid.

378 New York Improved Spineless

This is an entirely spineless strain of the large purple-fruited, which is the well-known standard. The plants are equally as productive, fruits as large and well colored, but stems and calyx are entirely free from spine. Packet, 10 cts.; ½ cunce, 22 cts.; ounce, 35 cts.; ¼ lb., \$1.25; ½ lb., \$2.35; lb., \$4.50; postpaid.

377 CONDON'S New Colossal

It is of large size and extremely good shape, being particularly adapted to slicing, and for flavor it cannot be surpassed. It resists drought, blight and bad weather to a wonderful degree, on account of its strong, upright growth. The fruit often measures 18 to 24 inches in circumference (6 to 8 inches in diameter) and is borne well above the ground. Packet, 10 cts.; ½ ounce, 40 cts.; ounce, 75 cts.; ¼ lb., \$2.25; postpaid.

POP CORN 545 Australian Hulless

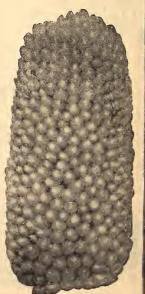

Also known in some sections as Japanese Rice, Tom Thumb, or Bumble Bee Popcorn. The Australian Hulless is a dwarf-growing corn, a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. The kernels are similar to the best strains of White Rice, only longer and slimmer and pearly white in color, but its crowning merit lies in its popping quality, fine flavor and absence of hull or shell. Most tender and delicious flavor when popped, without any hard particles, melts in your mouth. Packet, 8 ets.; ½ lb., 13 ets.; ½ lb., 20 ets.; lb., 35 ets.; postpaid.

546 Monarch White Rice

Everybody knows the old variety named White Rice. Our strain is an improvement, with large ears, and the ears are more abundantly produced. Packet, 5 cts.; 1/4 lb., 10 cts.; 1/2 lb., 18 cts.; lb., 30 cts.; postpaid.

547 Queen's Golden

This is perhaps the handsomest of all the popcorns when on the ear, surpassing all others in size and color. It pops perfectly white. A single kernel will expand to a diameter of nearly one inch. Packet, 5 cts.; 1/4 lb., 10 cts.; 1/2 lb., 18 cts.; lb., 30 cts.; postpaid.

545 Australian Hulless

Brussels Sprouts 295 New Danish Prize

A variety of cabbage producing small heads or knobs along the stem, which are cooked like cab-bage. Very popular in some markets. 295 New Danish Prize

This new variety has proven to be a decided advance on anything yet offered, being of half-dwarf, sturdy growth and producing abundant large solid dark green sprouts which are of excellent quality. Packet, 10 cts.; ounce, 35 cts.; ½ lb., \$1.70; lb., \$3.25, postpaid.

294 Half Dwarf Paris Market

This is the most popular Brussels Sprouts on the Parisian market, scarcely exceeding 2 feet in height. It is of straight habit, with a slight purplish tinge on the leaf stalks, and sometimes on the sprouts themselves when young. Packet, 10 ets.; ounce, 25 ets.; ¼ 1b., 65 ets.; ½ 1b., \$1.15; 1b., \$2.25, postpaid.

292 Dwarf Green Curled

This is hardier than Cabbage and makes excellent greens for Winter and Spring use. The leaves are as curly as Parsley, tender, and of very fine flavor. It is improved by frost. Sow the seeds in May or June, transplant in July and treat same as Cabbage. Immense quantities of this are grown in the South and shipped to Northern markets. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

COLLARDS

Borecole or Kale

293 Tall Green Scotch Curled

This variety is very hardy and is improved by a moderate frost. About thirty inches tall, with an abundance of green leaves, which are densely curled and crinkled. Stands the Winters in the Middle States without protection. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 32 cts.; ½ lb., 55 cts.; lb., \$1.00, post-paid.

351 Georgia, South-

ern, or Creole

A variety of cabbage extensively used in the South. We offer the true white or green stemmed sort so exclusively used in the South. Forms a large loose open head, or a mass of leaves on tall stems. Freezing does not injure, but rather impure, but rather impure. proves their quality.
Packet, 5 cts.; ounce, 10
cts.; ¼ 1b., 25 cts.; ½ 1b.,
45 cts.; lb., 85 cts., postpaid.

349 Chervil, Curled

Hardy annual, worthy more of general use for flavorgarnishing. Curled va-riety more beautiful than parsley. Packet, 10 cts.; ounce, 25 cts., postpaid.

353 Curled or Peppergrass Cress

This small salad is much used with lettuce to the flavor of which its warm, pungent taste makes a most agreeable addition. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

355 True Water Cress

This is quite distinct from the last, and only thrives when its roots and stems are submerged in water. It is one of the most de-

submerged in water. It is one of the most delicious of small salads, and should be planted wherever a suitable place can be found.

354 New Upland Cress

Has the highly prized flavor of Water Cress. It is so trdy as to be green nearly the whole year, and is ready r use before any other salad in Spring. Its usage tould be more general, as it is of as easy culture as sinach. It is a perennial plant CORN SALAD and dcan be grown for several years thout renewal. Packet, 8 cts.;

Stephengrass

433

433

Another tion, very vielder. For the control of the most delicious of small salads, and should be planted to the planted with the place can be found. Packet, 10 cts.; ounce, 50 cts., postpaid.

Lettuce

This delightful salad, known as Mache-Steck Salot, is used during the Winter and Spring months as a substitute for lettuce, and is also cooked and used like spinach. In warm weather the plants spinach. In warm weather the plants will mature in four to six weeks. Perfectly hardy, sow in fall for early spring use. Packet, 6 ets.; ounce, 12 ets.; 1/4 lb., 35 ets.; 1/2 lb., 65 ets.; 1 lb., 81.25. nostnaid. \$1.25, postpaid.

Or Vegetable Peach

Another splendid novelty of late introduction, very striking in color, most wonderful yielder. Fruit is about the size of an orange, orange-shaped; and a bright orange-yellow color, somewhat russeted. For sweet pickles, pies or preserving they are splendid. Packet, 10 cts.; ounce, 35 cts., postpaid.

384 New Garden Lemon

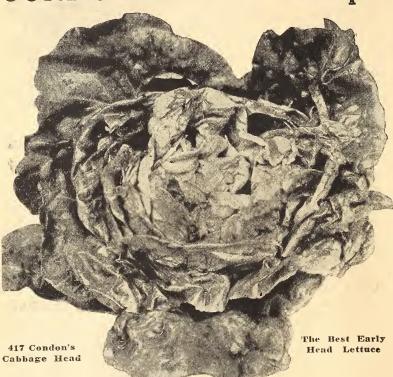

Certainly one of the greatest novelties of recent introduction. Resembles the Vine Peach in manner of growth, but is distinct in that the unripe fruit is striped with very dark green spots, nearly black, and when ripe is not russeted like the Vegetable Peach. Packet, 10 cts.; ounce, 35 cts., postpaid.

This variety is especially adapted to greenhouse cule in winter. In the great Lettuce-growing centers strain of this Grand Forcing sort is very gely used, and the product is sold in such ge quantities that prices are quoted by the i. It is superior to and more beautiful in pearance than the Simpson. It is of rapid, ight growth; may be planted close; not liable to, standing several days after being ready to cut hout injury; retains its freshness a long time er being cut, hence is much sought after by ilers; its quality is very desirable. See photo-ph, cut reduced four times. Packet, 10 cts.; ace, 18 cts.; ¼ lb., 45 cts.; ½ lb., 80 cts.; lb.,

50, postpaid.

426 May King The Earliest of All Heading Varieties

This is a handsome, extremely early, compact, cabbage or heading variety for the home garden and market, forming very firm heads of medium size and excellent quality. The color is light yellowish green, tinged with reddish brown when mature. The inner leaves blanch rich golden yellow, very tender and buttery. The plant is very compact for so large a head. The variety is exceptionally early outdoors, attaining a size suitable for use before other sorts and is also very satisfactory for forcing. Packet, 10 cts.; ounce, 18 cts.; 1/4 lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1.50, postpaid.

414 Big Boston Extra Select Strain for

Critical Planters

is market variety is very popular for out-or culture and is also in demand as a comet, large heading, forcing sort for cold-ames. The plants are large, very hardy d vigorous. The leaves are broad, comratively smooth but wavy at the edge, thin, ry hard and crisp. In color they are bright the green, the head slightly tinged with redsh brown. The inner leaves blanch to an tractive greenish white, tinged with light llow. It heads up under cold weather contions better than any other variety, and is own very extensively in the south for shipent north in the winter. Packet, 10 cts.; ounce, cts.; 1/4 lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1.50,

stpaid.

LETTUCE CONDON'S Dependable

Grows to large size and is uniformly sure-heading. Heads very solid and beautifully blanched, crisp, mild and tender. One of the finest varieties to grow for market during the sum mer months. Our stock is unexcelled. Packet, 8 cts.; ounce, 15 cts.; ½ lb., 40 cts.; ½ lb., 75 cts.; ½ lb., 81.40, post-cts.; lb., 81.40, post-cts.; lb., 81.40, post-cts. cts.; 1b., \$1.40, post-

This Lettuce does not head makes a loose bunch of leaves very fine quality. Edges of touter leaves are a reddish bronz within, the leaves are almowhite. Very crisp and tender the control of the control lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1. postpaid.

416 California Cream 416 California Cream Butter

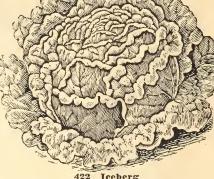

Or Royal Summer Cabbage

A very reliable heading so with glossy, deep green leave the outer ones slightly spott or splashed with brown. Tinner leaves form a large, very solid head, rich light yellow color, very thick, tender and but tery. Packet, 7 cts.; ounce, cts.; ¼ lb., 35 cts.; ½ lb., 65 ct lb., \$1.25, postpaid.

422 Iceberg

Improved Hanson

Has an unusually solid head. The white main ribs of the leaves curve toward the center, which keep the interior thoroughly bleached. It is quick growing and always crisp and tender, whether propagated in early spring or in the hot days of summer. Packet. 10 cts.; ounce, 18 cts.; ¼ lb., 50 cts.; ½ lb., 95 cts.; lb., \$1.75, postpaid. lb., \$1.75, postpaid.

424 Immensity

This grand Lettuce is claimed to be without exception the very largest lettuce in cultivation. Notwithstanding its great size, it is tender, sweet and crisp. It produces a fine, large, solid head, often 3 feet in circumference and 12 inches in diameter. It has great heat-resisting qualities, being slow to run to seed, so that it is very reliable for a late crop when many other sorts are unfit for use. Packet, 7 cts.; ounce, 14 cts.; 1/4 lb., 30 cts.; 1/2 lb., 55 cts.; lb., \$1.00, nostpaid. postpaid.

423 Los Angeles Market or New York Special

This is the World's Famous Head Lettuce grown extensively in the Imperial Valley of California Eastern markets.. Nearly 6000 carloads shipped la season, valued at approximately \$23,000,000.00. Fi introduced in 1906 and continually improved until present stock of seed is absolutely dependable and 185 surpassed. New York Special is particularly adap to California and the Southwest. For Central-East and Southeastern planting use Condon's Cabbage Holeberg and Big Boston. Pkt., 10 cts.; ounce, 20 c 1/4 lb., 65 cts.; 1/2 lb., \$1.20; lb., \$2.30, postpaid.

The Great 434 Banana The Great Banana Melon Melon

The Most Delicious Flavored Melon in Cultivation

It looks and tastes like a Banana. It is not a curiosity, but instead a wonderful Home Melon and a great Money Maker in any market. Fancy specimens often selling at 50c to 75c apiece. The flesh is nearly solid (Orange Color) attaining length of 20 to 28 inches. Put in a small patch this year for your own use and any you don't eat you can sell at a big price. Pkt., 10 cts.; oz., 15 cts.; 1/4 lb., 35 cts.; 1/2 lb., 65 cts.; lb., \$1.25, postpaid.

445 Genuine Tip Top

Market Gardeners' Big Money Maker.
Used almost exclusively as a large "orange flesh" Melon by the large melon growers of Ft. Wayne and Indianapolis, Ind., Columbus and Toledo, Ohio, Rochester, New York, and many other large centers. Our seed is the originator's strain, highly improved and "Guaranteed" to please the most exacting planter. The melon is large size, evenly ribbed and fairly well netted, outside color pea green. It is a strong grower, almost blight resistant, heavy yielder and of handsome appearance. Flesh is beautiful orange color, very thick and solid, edible almost to the rind. Matures in 80 to 85 days. Our strain produces very uniform fruit, all of which large or small are excellent quality and sell at big prices in the market places. Try it. Pkt. 8 cts.; oz., 15 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25; postpaid.

441 Lake Champlain Salmon Flesh

One of the earliest melons. Matures in 60 days. Flesh is deep, very sweet, golden yellow color, moderately netted. Excellent for home market or nearby shipping points. Will ripen even in the most extreme northern sections. Our seed is not surpassed by any on the market. Pkt., 10 cts.; oz., 22 cts.; ¼ 1b., 60 cts.; ½ Ib., \$1.10; Ib., \$2.00, post-paid. paid.

443 Bender's Surprise Shape

Medium early, thick, deep orange colored flesh, deliciously sweet and of high flavor. Vines very productive, producing crop in 75 to 80 days. Melons average 10 to 15 pounds each. Pkt., 8 cts.; oz., 15 cts.; 1/4 lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1.50, postpaid.

One of the Very Best for Home Gardens.

Very early. A richly flavored melon, salmon colored flesh, which is almost crystal in appearance, the flavor being rich, very sweet and luscious. The skin is quite smooth, and of a beautiful deep green color. This variety is very prolific and is one of the most valuable sorts in cultivation. Pkt., 5 cts.; oz., 10 cts.; ¼ lb., 30 cts.; ½ lb., 50 cts.; lb., 50 cts.; postpaid.

444 Famous Honey Dew

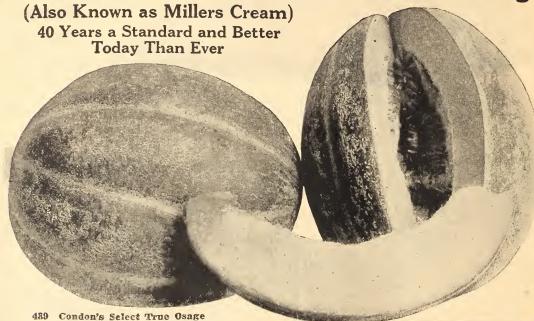

Its delicious honey-like flavor makes it the sensational melon of the age; single fruits often selling at \$1.00 each. average 10 to 15 lbs., very smooth, nearly round. pea green 21/2 inches thick. Sweet as honey and similar flavor. Pkt., 10 cts.; oz., 18 cts.; 1/4 lb., 45 cts.; 1/2 lb., 80 cts.; lb., \$1.50; postpaid.

You can make more easy money per acre raising Musk Melons than on any other crop.

CONDON'S Superior "Sure Crop" MUSK MELONS

Thorobred Rocky Ford

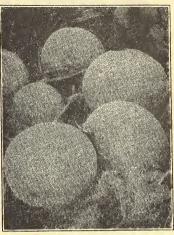

"The Old Reliable"
There are many types and various titles to the "Rocky Ford."
Prices vary as do the titles. We have the Old Reliable Genuine
Thorobred Strain, distinctly ribbed, closely netted, uniform markings, solid ends to avoid cracking, and recommend it as the best all round green flesh Melon for market or home use. Our seed is grown especially for seed purposes, saved from only the most perfect fruit. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

435 Pollock's No. 10-25 Salmon Tinted Eden Gem

No. 10-25

This grand melon is the most desirable type of the Rocky Ford melons and a vast acreage of this sort is now grown in the famous Rocky Ford melon district. Several years ago the Rocky Ford Cantaloupe Seed Breeders Association began a systematic effort to develop a salmon-fleshed melon that would meet' every requirement of their needs, and Salmon-Tint No. 25 is the result of their efforts. This is an early melon of the solid netted type that is so very desirable. Very small seed cavity, with thick, luscious flesh of genuine salmon tint shading to green near the rind. A splendid keeper, stands shipping well. Ripe fruits in 75 to 80 days. Our melon seed is grown from hand sorted selected fruits and will please the planter who wants only a 10c packet or the associations that need 500 lbs. or more. Packet, 7 cts.; ounce, 15 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

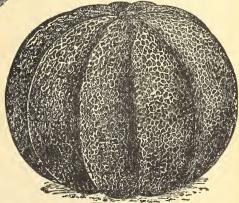

438 Condon's New Honey Sweet

438 CONDON'S New Honey Sweet

"Rust Resistant." Improved Selection of Watters' Famous Netted Rock. Here is a Melon That Will Please You. This new strain represents the cream of the Nutmegs, particularly for localities subject to rust. Our efforts for several years have been to combine all the desirable features of the newer and best productions at Rocky Ford into one grand variety which you will find in Honey Sweet. Exceedingly early very prolific; ever-bearing sort, yielding heavy crops from early summer until late fall. The fruit is oval, trifle elongated, solid netting being closely laced and interlaced over entire surface; thick blossom end. Ideal shipper, Flesh is light green; very thick meat, sweet and delicious flavor. Packet, 10 cts.; ounce, 16 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid. paid.

Paid.

448 Improved Green Nutmeg
Extra Early, Very Sweet
A greatly improved strain of the old Green Nutmeg. Fruit of a medium size, very rich, melting and of exquisite flavor; flesh light green. Very productive. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

448 Improved Green Nutmeg

It originated as a cross between the old Surprise and a Gem melon. Our strain has been improved by careful selection and for a fine home melon and a market-wagon variety it has no superior. The skin is light green, fruits nearly round with only slight sutures, flesh salmon, wenderfully sweet, with almost no stringiness. Pkt., 10 cts.; oz., 18 ets.; ¼ lb., 45 ets.; ½ lb., 80 ets.; lb., \$1.50, postpaid.

450 Milwaukee Market Musk Melon

This is the Jumbo Musk Melon

Is monstrous size, cream-yellow, very early, absolutely distinct and pure, with seeds more than twice as large as other sorts. A whole field of them will average 18 to 20 lbs. each, and select specimens 25 to 30 lbs. Deliciously sweet and luscious, with fine, melting, thick, salmon color flesh. Never stringy. The flavor pleasant; not high, nor rank. True stock is scarce. Pkt., 7 cts.; oz., 12 cts.; ¼ lb., 35 cts.: ¼ lb., 60 cts.; lb., \$1.00. postpaid.

474 KING and QUEEN—WINTER MELON

Greatest Little Melon on Earth—Sweet, Crisp and Delicious—Small Vines Suited to Kitchen Garden—Be Sure to Try This Little Wonder

It is late to mature; very light in color with a suspicion of a stripe; size 10 inches in diameter; seed small, shiny black, flesh pink, solid and stringless. The flavor when cold is sweet, crisp and surprisingly delicious, and when you have finished you realize that you have eaten a melon as entirely distinct from a water melon, as the Casaba is apart from the Cantaloupe and just as delicious. Like the Casaba it should not be eaten right off the vine, but be allowed to lie around until the first signs of decay. It decays slowly like an apple, not like other watermelons. Pkt., 10 ets.; oz., 15 ets.; ½ bl., 35 ets.; ½ lb., 85 ets.; ½ lb., 85 ets.; bl., 10 nesthaid. 35 ets.; 1/2 lb., 65 ets.; lb., \$1.10, postpaid.

King and Queen

Color of Gold

Sweet as Honey

Anyone having a prejudice against golden flesh watermelons will instantly forget it after tasting the Golden Honey. Flesh of rich golden yellow color, firm, crisp and glistening, and fairly melts in your mouth. Fruits medium large, oblong, rind hard and of very dark green color. It is a real quality melon and greatly liked by everyone that has tasted it. Try some this year. For the home garden and for exhibition purposes. Matures in 85 days. Pkt., 10 cts.; oz., 18 cts.; ½ lb., 38 cts.; ½ lb., 60 cts.; lb., \$1.10, nostnaid. postpaid.

WATER MELONS Natermelon Genuine Tom Watson "King of All Melons"

Genuine Tom Watson

460 Genuine Tom Watson

The Peerless Shipper

King of All Melons for Market or Home Use

Sweet, Crisp and Coreless

Our seed has been carefully bred and selected14 from Perfect Specimen Melons so we feel safe in saying it "Excels" in Quality and Quantity any variety we have ever seen, and we try them all in our Mammoth Trial Grounds.

Cream of all the melons for home use or long distance shipping, combining the luscious flavor of the "Kleckley Sweets" with the fine shipping qualities of "Alabama Sweet," and "Georgia Rattlesnake," making one ideal melon for all requirements. Medium early, oblong, of attractive appearance, uniform in shape and quality; the luscious flesh is as sweet as honey, melting, and of delicious flavor. Fruits average 35 to 40 pounds, 28 inches long, 12 inches in diameter; skin very dark green. Combining the sterling qualities of the best the world produces in the melon line, we do not hesitate to recommend it above all others as the one best. Our seed is of the originator's strain, carefully selected and bred to retain the highest possible quality. This is the money-maker. (See photograph.) Packet, 7 cts.; ounce, 12 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 80 cts., postpaid.

468 McIver's Wonderful Sugar

Its rose-colored flesh is crisp, very sweet and solid to the center. A choice variety. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

470 Improved Dixie

Early and very productive, surpassing the Celebrated Kolb Gem in many respects. It has a fine appearance, is very hardy and is an excellent shipper, and its cating qualities are the best. Packet, 5 cts.; ounce, 10 cts.; ¼ 1b., 22 cts.; ½ 1b., 40 cts.; 1b., 75 cts., postpaid.

469 New Excel

This splendid variety has won for itself a place among all melon growers, either for shipping purposes or home garden. It is a cross between the Tom Watson and the Blue Gem. It is a long, bluish-green water melon, with dark green stripes; the flesh is of superb quality, and intense red to the rind. It is one of the sweetest flavored shipping melons ever introduced. Color of seed, black, light grey and white-a true hybrid. Packet, 6 cts.; ounce, 12 cts.; 1/4 lb., 30 cts.; 1/2 lb., 55 cts.; 1b., \$1.00, postpaid.

CONDON'S "Sure Crop" WATER MELONS

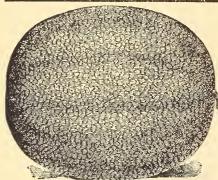

466 Improved Kleckley's Sweets—The Sweetest of all Melons

Medium Early Selected Strain, Suitable for Shipping One to Three Hundred Miles
There is no melon superior in quality to a good strain of Kleckley Sweets. The bright scarlet fles is the ideal of water melon quality—firm, crisp, entirely free from stringiness or cotton, and "sweet a sugar."

The melon is oblong in shape, about 20 inches in length by 10 to 12 inches in diameter. The ski is a rich dark green; the rind is thin and brittle, and for this reason the melon is not a good shippe to a distance beyond two or three hundred miles, but for home use and nearby market consumption it; got 'em all backed off the list. Our seed is all extra hand select from uniform, well shaped, fully ma tured ripe melons, and I really think it's just a little better strain than anything we have ever seer "Don't Fail to Try This." Packet, 8 cts.; ounce, 15 cts.; ½ 1b., 30 cts.; ½ 1b., 55 cts.; 1b., \$1.00, postpaid

Condon's Watermelon Seed is grown exclusively for seed purposes; only hand sorted melons of true type being seeded. Not a single melon ever sold or shipped from the fields. It will satisfy the largest and most particular planters. None better obtainable.

464 Indiana Sweetheart

461 Georgia Rattlesnake or Gypsy

The Old Reliable; Branch's Original Strain

One of the finest melons ever grown; a splendid keeper, excellent shipper. Sometimes called Striped Gypsy. A very large melon of good shipping qualities. Shape oblong, striped, and mottled with various shades of green. Flesh bright red. Flavor sweet and first class. Rind not thick. Packet, 5 cts.; ounce, 12 cts.; ½ lb., 28 cts.; ½ lb., 50 cts.; lb., 95 cts., postpaid.

For Prices on Larger Quantities See Pages 188 to 192

464 Indiana Sweetheart

Extra Select Strain

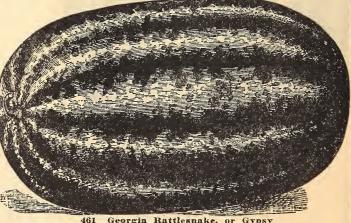

Large, oval shape, distinct variety; very heavy and has a mottled light and dark green surface. Thin rind but tough; flesh bright red, tender and sweet. Vigorous grower, and very productive; fine shipper, and excellent keeper. Very early. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

457 Citron for Preserves

This melon is used exclusively for making preserves. The flesh is thick and clear white, and makes preserves of excellent quality. Cultivation similar to watermelons. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 35 cts.; lb., \$1.00, postpaid.

457 Citron

461 Georgia Rattlesnake, or Gypsy

Please order by number as well as name. It will help us to serve you quicker

White seeded; of unquestionable quality; very early; medium size, thin rind, flesh bright scarlet. Rind too thin for shipping, but it is the great home market melon. Few, if any, sorts surpass it in melting, delicious quality. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

Burpee's Sugar Stick

456 Burpee's Sugar Stick

A large melon of finest flavor. The vines are of strong vigorous growth, setting large melons in good numbers. The fruits measure from 20 inches to 2 feet in length, and weigh on an average about 30 pounds. The rind is thin but tough. The skin is light grayish green, with narrow darker green lines, giving a mottled effect of s m a l l half-inch squares. The flesh is deep rich red, with a broad solid heart. The solid crisp flesh is a s t o n i s h ingly sweet a n d tasty. It melts in the mouth l i k e honey. A luscious variety that stands s hipping well. Packet, 7 cts.; oz., 14 cts.; ½ lb., 30 cts.; ½ lb., 50 cts.; postpaid.

463 Harris' Earliest

Good Shipper. The Best of the Extra Early Sorts
Fruit slightly oval, with regular mottled stripes
of light and dark green. Flesh bright red, sweet
and tender. A desirable variety for the north,
or where the season is short. Packet, 5 ets.; ounce,
8 ets.; 1/4 lb., 25 ets.; 1/2 lb., 40 ets.; lb., 75 ets., postpaid.

472 Perfected Kolb's Gem

A Favorite Among Southern Growers
Oblong to nearly round. Melons weigh from
30 to 50 pounds each. The rind, though thin,
is tough, and the melons bear handling and
shipping well. Flesh is bright red. A profitable market melon. Packet, 5 ets.;
ounce, 8 cts.; ¼ lb., 25 cts.; ½ lb., 40
cts.; lb., 75 cts., postpaid.

473 Phinney's Early

This Is a Very Choice Early Melon
It is very hardy and is a sure cropper. The rind is thin and the
quality of flesh is sustained clear
to the rind. Possesses all the
desirable features which go to
make up a good Extra Early
Home Market Melon. Melons average 12 to 15 pounds in weight.
Packet, 5 cts.; ounce, 9 cts.; ¼
lb., 25 cts.; ½ lb., 40 cts.; lb., 75
cts., postpaid.

467 Maule's National

Everbearing, always sweet in Medium early oblong large melon of fine appearance and delicious flavor. Average weight 25 to 40 lbs., requiring 80 days for maturity. The flesh is brilliant red and remarkably solid. The rind is thin but tough, making it an ideal shipper as well as a wonderful home melon. Packet, 5 ets.; 0z., 12 ets.; ½ lb., 22 ets.; ½ lb., 40 ets.; lb., 75 ets., postpaid.

458 Cole's Early Decided ly the Finest Wariety for

It is very early and will mature farther north than most other sorts. Flesh of bright red color, of granulated, sparkling appearance. In flavor lusciously sweet and refreshing. Packet, 5 cts.; ounce, 9 cts.; ¼ lb., 25 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

459 Florida Favorite

Deliciously Sweet, Second Early Shipper

A splendid oblong melon; ten days earlier than Kolb's Gem. Skin dark green, slightly mottled with still deeper shade; flesh dark red and of the finest flavor and quality. We have a splendid stock of this melon to offer at an exceedingly low price. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

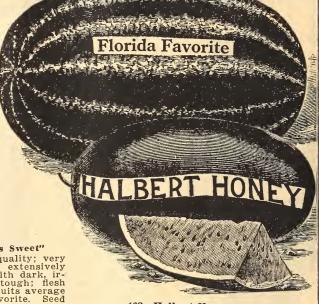

462 Halbert Honey

The Sugar King Melon. Similar to Kleckley Sweet and of Equally as Good Quality
A very sweet, long, dark green variety. Fruits average 18 to 20 inches long; have a thin rind and deep red meat of delightfully delicious flavor; pulp entirely free from stringiness; seeds white. One of the finest for the home garden. Packet, 6 cts.; ounce, 11 cts.; ½ lb., 28 cts.; ½ lb., 50 cts.; lb., 90 cts., postpaid.

455 Alabama Sweet

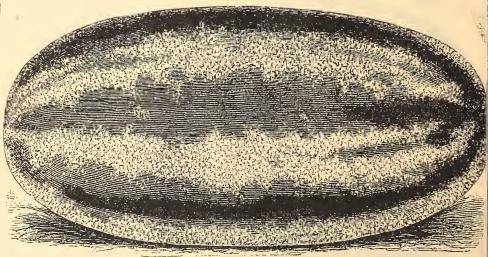

Sometimes Called "Everbearing Always Sweet"

A very large, long melon of excellent quality; very popular in the South, where it is grown extensively for shipping. Color rather deep green, with dark, irregular striping. Rind thin, but very tough; flesh bright red, fine grained and sweet. The fruits average a little thicker than those of Florida Favorite. Seed white. Packet, 6 cts.; ounce, 12 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

462 Halbert Honey

Alabama Sweet-A Cracker-Jack for Market or Home Use

Mustard, Mushrooms, Kohl-Rabi and Okra

MUSTARD

Used as a condiment; the green leaves are used as a salad, or cut and boiled like Spinach. Cultivated same as Curled Cress or Pepper-Grass. One ounce of seed will sow 50 feet of drill.

477 Southern Giant Curled

It is highly esteemed in the South, where the seed is sown in the fall and plants used early in spring as a salad. Seeds brown. Plants are 2 feet high; enormous bunches. Packet, 5 cts.; ounce, 8 cts.; ¼ lb., 18 cts.; ½ lb., 30 cts.; lb., 50 cts.; postpaid.

476 Chinese

A giant curled variety with leaves double the size of the ordinary. Packet, 8 ets.; ounce, 12 ets.; ¼ lb., 25 ets.; ½ lb., 40 ets.; lb., 75 ets.; postpaid.

478 White English

The leaves are light green, mild and tender when young; seed light yellow; used for flavoring, in pickles, etc. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 18 cts.; ½ lb., 30 cts.; lb., 55 cts.;

479 Condon's Sure-Crop Mushroom Spawn

One pound will spawn about 10 feet square

One pound will spawn about 10 feet square

Mushroom beds may be made in a warm, dry cellar, or in any building where the frost does not penetrate, and in the open air during the summer and fall months. Having procured the spawn, the next thing to be attended to is to make preparations for the beds. About a fortnight or three weeks before the beds are to be made collect a quantity of fresh horse manure without the straw; place it in a heap under cover, and as it heats keep turning it over once or twice a week, until the fiery heat has become exhausted, which will require from ten to fourteen days' time. When the manure is in a condition to be made up, lay out your bed according to your requirements, say three feet wide, ten feet long, and from two to three feet deep; beat it well down with the back of the spade as the process of building goes on. When the bed has been made some time, say a week or thereabouts, and the heat sufficiently declined to a temperature of 65 or 75 degrees, the spawn may be put into it. Break the spawn in pieces two inches square, and put them six inches apart all over the bed, then cover the bed with two inches of rich soil. When the soil looks dry, give a gentle watering with tepid water, using a hose or watering-pot. Best ENGLISH GROWN SURE CROP SPAWN. Brick, 35 cts.; 3 bricks, \$1.00, postpaid. bricks, \$1.00, postpaid.

479 Sure Crop Mushrooms

411 Early White Vienna KOHL RABI

410 Early Purple Vienna A very fine vegetable. Sweeter and of finer flavor than Turnips and cooked same way. Sow seed in spring and again in June or July.

Early White Vienna

The bulbs grow to the size of an apple when ready for use, and are of a pale whitish green; they are of delicate, cabbage-like flavor. Packet, 10 cts.; ounce, 25 cts.; ½ lb., 65 cts.; ½ lb., \$1.00; lb., \$1.75; postpaid.

410 Early Purple Vienna

This is not quite so early as the preceding and slightly larger in size. It differs also in having skin of a dark, glossy, purplish red. Packet, 10 cts.; ounce, 25 cts.; ½ lb., \$1.00; lb., \$1.75; postpaid.

OKRA OR **GUMBO**

Extra nice for soups, stews, etc., and much liked when pickled. Plant in hills, 2 feet apart each way.

481 White Velvet

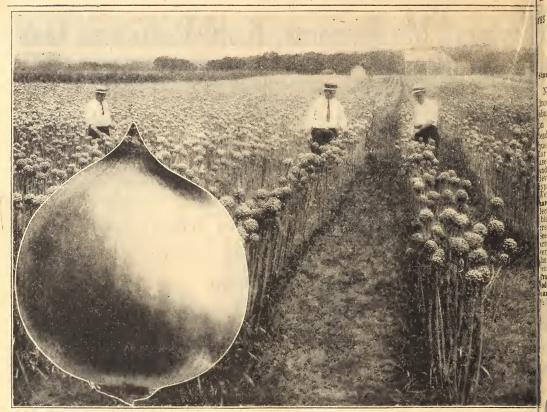

Distinct in appearance; the large pods are perfectly round, smooth, attractive velvety white, of superior flavor and tenderness. dwarf, of compact, branching growth. Very prolific. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts.; postpaid.

480 Lady Finger Okra

480 Lady Finger

Plants are of compact growth, with many close joints. At each leaf joint develop handsome, smooth white pods which average 6 inches long by 1 inch in diameter. They are exceptionally fleshy and tender. Packet, 5 ets.; ounce, 10 ets.; ¼ lb., 22 ets.; ½ lb., 40 ets.; lb., 75 cts.; postpaid.

CONDON'S "MODEL GLOBE" ONION SEE

"The Most Perfect Onion in Cultivation"

For Home or Market

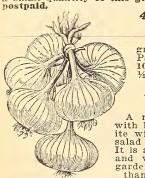

> This Is a Big Money Maker

> > TRY IT

A Sure Cropper

The largest and handsomest Yellow Globe Onions. They attain immense size, 15 inches in circumference being often attained when raised under favorable conditions. To reach this size, it is necessary to start them early in hot-beds and transplant, so they may have a long season to reach their natural size. Grown under ordinary conditions, they grow to slightly larger size than the ordinary globe onion. This onion is of the same type as the large Spanish onions imported in quantities and sold in crates. Grown now for many years in this country, our seed is thoroughly acclimated, and if permitted to thoroughly ripen, keeps equally as well as the Globe Onions. Don't fail to try at least a small quantity of this grand onion. Packet, 10 cts.; ounce, 17 cts.; ½ lb., 55 cts.; ½ lb., \$1.05; lb., \$2.00, nostpaid.

Extra Early

494 Extra Early White Queen Famous Pickling Variety

486 CONDON'S Select Yellow Globe Danvers

Standard Favorite
One of the most extensively used yellow onions. Bulbs of medium size, uniformly globe-shaped, with small neck, and ripens very evenly. Flesh, white, crisp and of mild and excellent flavor. We have developed a strain which has the ripening habit and small neck of the original Danvers, and yet is more globular, thus giving larger yields and handsomer bulbs without sacrificing any of the good qualities of the original Danvers. Packet, 10 cts.; ounce, 16 cts.; ¼ lb., 50 cts.; ½ lb., 90 cts.; lb., \$1.75, postpaid. Standard Favorite

Select Yellow Globe Danvers

Condon's Extra Early Onion Plants

These are especially suited for producing extra early green bunch or dry onions. They are not recommended however where one desires to grow large dry onions for winter storage. For storage onions sow Condon's Model Globe Onion Seed. For those who desire an early crop, either for table use or for local marketing, these plants will prove most desirable, and the fact that they are inexpensive and call for the minimum of labor and trouble in producing the crop has created an everincreasing demand for them. Onions grown from plants are larger and do not run to seed as sets often do. They may be set out at the same time you would plant sets or cabbage plants. Plant in rows about 15 inches apart and 3 to 4 inches apart in the row. Shipped anywhere in the United States (except California which has plant quarantine laws that cause delay and too much loss). We offer Onion Plants of the following Leading Standard and Biggest Money Making Varieties.

Perfectgreat saving over top sets. Perfect-ly hardy and will remain in the ground for years. Packet, 10 cts.; ounce, 30 cts.; ½ lb., 90 cts.; post-paid. paid.

Early White Welsh

PLANT PEANUTS

The peanut is worthy of nore general cultivation. The peanut is a soil build-rand renovator. If included in the crop rotation and properly handled, peauts are not exhaustive of he peanuts make fine hay, elished by all stock, while he roots furnish rich food or both man and stock. The best soil is one of a landy, loamy nature, which or both man and stock. The best soil is one of a andy, loamy nature, which has a red clay subsoil, as his indicates lime, which sessential for this plant. They yield 40 to 100 oushels to the acre, according to how well the cropis managed. Pean utsishould be shelled before planting, but can also be alanted in the hull 16 to 18 inches apart. They should be planted in April and they will ripen before September, even as far north as Canada.

Plant in rows about 2½ or 3 feet apart, dropping the nuts 8 to 10 inches apart, one in a hill. Cover one or two inches. Cultivate three or four times with a cultivator, so as to loosen the earth and keep down the weeds. When they mature, pull them up, turning the roots to the sun. In bright weather they will be cured sufficiently in 24 hours. It requires fifty pounds in hull to plant an acre.

A Typical Harvest of Mammoth Virginia Peanuts

506 Mammoth Virginia Bunch

Universal and Standard Favorite

This is the variety most generally grown for commercial use, and makes considerably larger nuts than the Spanish. The peanuts we offer are selected from the best and most productive crops grown, plant rather dwarf, stems upright, foliage rather light, pods clustered about the base of plant, usually two, sometimes three, seeds in a pod; pod bright and clean, color of peas light brown; pods adhere to plant in digging. It is the standard variety for roasting. They furnish excellent forage, and we recommend to all our customers, even if they do not plant for market, to plant at least a small patch of peanuts for home use or stock feeding. Hundreds of our young friends have written us that they have had a wonderful crop the past season. Choice Seeds. Packet, 5 cts.; ¾ lb., 10 cts.; ½ lb., 18 cts.; lb., 30 cts.; 10 lbs., \$2.50, postpaid. 30 cts.; 10 lbs., \$2.50, postpaid.

ARSNIP 501 CONDON'S White Queen

The Finest Flavored Parsnip Grown. Sweet and Sugary, Crisp and Firm, Excellent Keeper.

ENORMOUSLY PRODUCTIVE

Often Making Better than 1200 Bushels from One Acre Condon Bros., Seedsmen,

Gentlemen. We wish to compliment you on your extra fine stock of seeds. I find your White Queen Parsnip the best I have ever grown. Consider me a well pleased customer.

Joseph Cavill, Dickson, Tenn.

Condon's White Queen Parsnip is a highly improved type, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they are easily dug, and if grown in properly pulverized soil, the roots will be smooth and free from wrinkles and side roots. The flesh is white, of fine texture, free from core and stringiness, and especially fine flavored, cooking tender, sweet, and rich, rendering it one of the finest of table vegetables for winter use. The roots may remain in the ground all winter, being hardy, or some may be dug late in the fall and stored in sand or soil, so that they can be gotten at easily when the ground is frozen. Frost improves their quality. This parsnip is the heaviest cropper of all, and we recommend it for both garden and field culture.

Packet, 10 cts.; ounce, 17 cts.; $\frac{1}{4}$ lb., 40 cts.; $\frac{1}{2}$ lb., 70 cts.; lb., \$1.25, postpaid.

Roots comparatively short, ending somewhat abruptly with a small tap root; grows mostly below the surface; has a very smooth, clean skin. Packet, 5 ets.; ounce, 10 ets.; ½ lb., 25 ets.; ½ lb., 45 ets.; lb., 80 cts., postpaid.

PARSLEY

The Great Garnishing Plant

Very useful for flavoring soups and stews and for garnishing. The green leaves are used for flavoring, or they may be dried crisp, rubbed to powder and kept in bottles until needed.

504 Champion Moss Curled

This is a vigorous, compact growing variety, excellent for garnishing and flavoring, and a handsome decorative plant. Leaves very finely cut and so closely crisped or curled as to resemble bunches of moss. Owing to its uniformly fine, deep green color and very attractive foliage, this is one of the most popular sorts for both the market and home garden. Packet, 10 cts.; ounce, 18 cts.; 1/4 lb., 35 cts.; 1/2 lb., 55 cts.; lb., \$1.00, postpaid.

505 Hamburg Turnip Rooted

The root is the edible portion of this variety and resembles a small parsnip, both in color and shape. Flesh white, a little dry and in flavor is similar to celeriac. The foliage is navor is similar to celeriac. The foliage is practically the same as that of Plain Parsley. The roots can be dug late in the fall and stored in sand for winter use. Extensively used for flavoring soups and stews. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 35 cts.; ½ lb., 60 cts.; lb., \$1.10,

517 CONDON'S Mammoth-Podde Little Midget PEAS

The Finest Extra Early Sweet Wrinkled Pea Ever Introduced. CrossBetween Gradus and Sutton's Excelsion.

Entirely Distinct—OUR OWN Origination

BEYOND **QUESTION** THE BEST

For Early or Late; for Family or Market Gardeners

The sweetest dwarf wrinkled pea in existence. By far t shortest straw and largest pod of any pea we know Ready for market 45 days from planting. Its extreme can ness, combined with the large pods, which are always fill with sweet, luscious peas, destines it to excel wherev

For years Gradus or Prosperity has been the best Swe Pea for general use; the only fault our customers had we the extra long growth of vines. Most all growers peas prefer a short vine, and in Condon's Mammoth-Podd Little Midget you have it. Height of vines only 15 inche pods 2½ inches long; well filled and quality fully equal Gradus. The pods contain from 7 to 8 large dark grepeas, which remain in eatable condition a week later the most other varieties. The plants are very robust, compand short jointed, requiring no bushing or staking. We believe Condon's Midget Peas contain more sugar than an other sort in cultivation. Packet, 10 cts.; ½ lb., 25 ct. lb., 45 cts.; 2 lbs., 80 cts., postpaid.

510 Ameer or Claudit

Shippers' Big Money Maker

Shippers' Big Money Maker

In some sections this Grand Pea is rarely known, as the seed up to the present time has been so extremely scard and high that it never got into the general market, having been consumed at enormously high prices by the Caroling ardeners, where it happened to be first introduced. Is a cross between Alaska and a large-podded swew wrinkled pea, retaining that hardy, vigorous early chat acter of the Alaska, with the large pods of the luscion sweet wrinkled type. In comparison to Alaska, it two or three days later, equally as hardy, dwarf uright vines completely ladened with pods twice as large that may be picked in one-half the time. Two picking market the entire crop. Considering the fact that the pea is as early as the earliest, producing pods twice large, with quality unsurpassed by any "extra early variety, gardeners who plant for early shipping market will find this the best money-maker. Packet, 10 cts ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts.; postpaid.

E—All our packets of Peas contain 2 oz., while most dealers only put up 1 oz. per packet.

NOTICE-All our packets of Peas contain 2 oz., while most dealers only put up 1 oz. per packet.

CONDON'S "Sure Crop" PEAS

516 CONDON'S Ultimatum THE GREAT MAIN CROP

PEA. 26 to 32 inch straw. requiring no bushing, second early, hardy, vigorous cropper. yielding enormous quantities of large, fat, dark green pods containing 10 to 12 juicy peas; flavor unsurpassed. It's simply a wonder for market or home use. Packet, 10 cents; ½ lb., 22 cents; lb., 40 cents; 2 lbs., 75 cents, postpaid.

507 Thomas Laxton

This Is a Real Rival to the Famous Gradus, as a Long-Podded, Extremely Early Wrinkled Pea, and in Some Respects Is

Wrinkled Pea, and in Some Respects Is Even Better.

The growth is identical, but the pods are a deeper, richer green and square at the ends. In the judgment of experts, Thomas Laxton is even sweeter and finer in flavor, while as the large peas are of a deeper green, they present a more attractive appearance on the table. The crop ripens only three to four days after GRADUS.

Packet, 10 ets.; ½ lb., 22 ets.; lb., 40 ets.; 2 lbs., 70 ets., postpaid.

A New Large-Podded Dwarf Pea

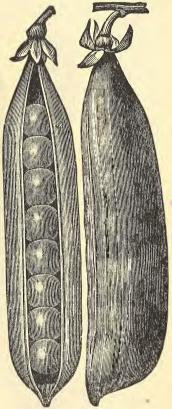

A New Large-Podded Dwarf Pea
May be called The Dwarf Gradus. Grows 16 to 18 inches high. The
tall, extra early Gradus Pea, with its large, telephone-like pods and its
exquisitely flavored peas, is one of the most popular of all peas. In
Laxtonian we have a dwarf type of the Gradus, with the same large
pods—almost the same in season, and, moreover, requiring no supports—
and the same superlative quality peas. Packet, 10 cts.; ½ lb., 25 cts.;
lb., 45 cts.; 2 lbs., 80 cts., postpaid.

527 Nott's Excelsion

Early, Big Cropper, Extra Fine Quality

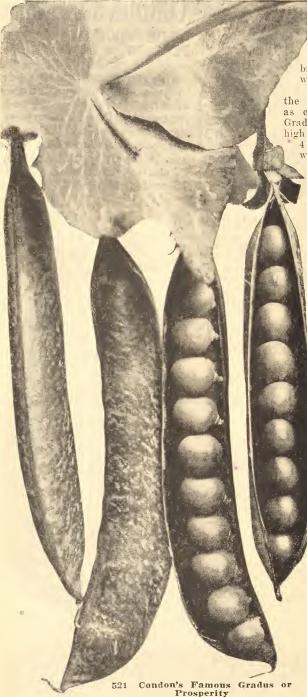

A distinctly American production of remarkably vigorous constitution; enormously productive, and generally excellent. The pods are of good size, produced liberally, and are extremely well filled with excellent peas of perfect quality. The plant is among the smallest, very rarely exceeding 15 inches in height, and is easily grown. It still is, and long will be, extremely popular. Many people who have only small gardens use this sort exclusively, making repeated sowings for successive crops. Packet. 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid. postpaid.

Condon's Ultimatum

521 CONDON'S Famous Gradus or Prosperity

FRESH PEAS FROM YOUR OWN GARDEN ARE FAR BETTER THAN ANY SOLD IN CANS. PLANT 2 OR 3 ROWS OF OUR NORTHERN GROWN PEAS THIS SPRING AND ENJOY THEM ALL SUMMER LONG.

PEA Improved Selected Strain

The largest podded, finest flavored second early pea. We have carefully selected and bred our stock to a degree far surpassing any we have seen in comparative trials.

This remarkable pea is not only large and of the best quality, but is within two or three days as early as the small, round, extra early sorts. Gradus is a wrinkled pea, growing about 30 inches high; the pods are of a bright green color, measuring 4 inches or more in length, as large as Telephone,

well filled with luscious peas, 8 to 10 or more in a pod. The peas are of the highest table quality and retain in a remarkable manner their color and attractive appearance after cooking. A little tender, so it should be sown in the warmest spots in the garden. A grand pea in all respects. Packet, 10 cts.; 1/2 lb., 25 cts.; lb., 45 cts.; 2 lbs., 80 cts., postpaid.

515 CONDON'S Giant Edible Podded Sugar PEA

Bat the Pods and All—Just Like String Beans. Certainly Delicious

Boiled like string beans, either with milk, creamed gravy or butter sauce, they are certainly delicious. Vines very vigorous, attaining growth 5 to 6 feet, and when supported yield abundantly. Don't fail to try a few. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

523 Improved Telephone

This is a fine wrinkled pea, growing about four feet high. The peas are large and of a pale green color, possessing a superior sugary flavor. Packet, 10 cts.; ½, 1b., 20 cts.; 1b., 35 cts.; 2 lbs., 65 cts., post-

526 McLean's Little Gem

Strong and vigorous in growth, producing vines from 18 to 24 inches in height, dark foliage, bearing pods single on both sides of the stalk beginning near the ground. Pods are almost straight, 2½ to 2¾ inches long, light in color and blunt at the ends. Ready to pick 59 to 61 days from planting. Seed is green, wrinkled and medium in size. Packet, 10 cts.; ½ lb., 20 cts.; 1b., 35 cts.; 2 lbs., 65 cts., postpaid.

513 Bliss Everbearing

Vine stout, about two and one-half feet high, bearing at the top six to ten broad pods. If these are picked as they mature and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. The peas are large and wrinkled, cook very quickly, are tender, of superior flavor and preferred by many to any other sort. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

524 English or Large White Marrowfat

The vines of this variety are about five feet high and of strong growth. The pods are large, cylindrical, rough, light colored and well filled; seed large, smooth, round and light yellow. The variety is excellent for summer use, but is inferior in quality to most of the newer sorts, although undoubtedly one of the most productive of the garden varieties. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 60 cts., postpaid.

CONDON'S "Sure Crop" PEAS

525 Little Marvel

A New Dwarf Extra Early Variety of Great Merit

The vines are of dwarf, robust growth, averaging 18 to 20 inches in height. Pods average 2½ inches in length and are well filled with 5 or Fully as early as Little Gems or American Wonder, far better quality and bigger yielder. Packet, 10 cts.; ½ lb., 25 cts.; lb., 45 cts.; 2 lbs., 80 cts., postpaid.

518 Dwarf Telephone

518 Dwarf Telephone or Dwarf Defiance

A main Cropper—Sweet Wrinkled
A cross between Stratagem and
Tall Telephone. Vines average
24 to 28-inch straw, hardy and
robust. Pods borne in clusters
like the Tall Telephone. Pods average 2½ to 3 inches long, well
filled with large sugary peas.
Packet, 10 cts.; ½ lb., 22 cts.; lb.,
40 cts.; 2 lbs., 75 cts.,
postpaid.

525 Little Marvel, Dwarf, Large Pod

Extra Early Philadelphia

Smooth Seeded, Very Hardy

520 Extra Early

Philadelphia

A very valuable, improved strain of the famous earliest sort once known as Landreth's Extra Early. It is exceedingly productive, and pods well filled. Ready for table in 45 days. Grows about 18 to 24 inches high in good soil. The whole crop will mature evenly, and is well adapted for Market Gardeners' use. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

528 Potlatch or Big Dinner

An Improvement on the Old Famous Stratagem

A sweet wrinkled second early variety producing large, fat pods well filled with sweet, delicious peas. Hardy upright grower, averaging 24 to 30-inch straw. On account of its robust growth requires no bushing. Excellent for market or home use. Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

514 Champion of England One of the Very Best Late Varieties

Height about 4 to 5 feet. One of the oldest and best in cultivation. It is esteemed for good quality and productiveness. The pods are of good size, handsome and wonderfully well filled, and are produced in great abundance. The peas are of large size and delicious flavor, 6 to 9 to the pod. It cannot be overpraised as a standard late sort. Packet, 10 cts.; ½'lb., 22 cts.; lb., 40 cts.; 2 lbs., 70 cts., postpaid.

Our Seed Peas Are Grown NUILL in Northern Michigan, bordering on Lake Superior, INSURING the HARDIEST TYPES and HIGH-EST QUALITY OBTAINABLE.

Champion of England (Tall)

528 Potlatch or Big Dinner

Common Sense Cultural Directions printed on every package.

PEAS

519 Earliest of All or Alaska

An extra early Pea, Round Seeded, vines uniform in growth, pods usually carry 7 or 8 Peas. As an "extra early" for the market gardener we recommend this variety very highly: the beautiful dark green color of the pods adds greatly to the selling quality. Very hardy. Ready to use in 50 days. Our strain is unexcelled. Packet, 10 cts.; 1/2 lb., 16 cts.; 1/3 octs.; 2 lbs., 58 cts., postpaid.

508 American Wonder

The earliest wrinkled pea. The vine grows 12 to 14 inches high and is very prolific. Pods of striking form and stee. It is of finest flavor. Peas planted in June mature in 50 days. It is particularly adapted for family use, as it requires no brush or other support. An old standard variety that is very popular everywhere. We have taken great pains in selecting and growing our stock. Packet, 10 cts.; '2 lbs., 22 cts.; 'lb., 40 cts.; 2 lbs., 70 cts., postpaid.

529 Selected First and Best

A Decided Improvement on Maude "S"

A very fine first early dwarf pea, regarded by some as the best of the wrinkled sorts. It is very hardy; can be planted early; vines are 18 inches high, very prolific; pods are almost square at lower end, larger and broader than the usual dwarf pea, and dark green color Packet, 10 cts.; ½ lb., 22 cts.; lb., 40 cts.; 2 lbs., 75 cts., postpaid.

509 Alderman

The very finest. Tall, dark Podded Pea

The plants grow 4 feet in height and bear an enormous crop of fine pods. The pods measure 4¾ in. in length and contain 8 or 9 very large peas each. Sweet and tasty. Market Gardeners will find this a big money maker. Packet, 10 cts.; ½ lb., 20 cts.; lb., 35 cts.; 2 lbs., 65 cts., postpaid.

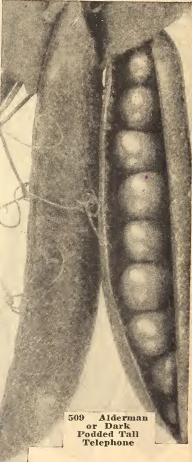

522 Horsford's Market Garden

Height 2 feet. A very fine, second-early green, wrinkled variety, not only good for family gardens, but also for canners and especially for market gardeners' purposes. Packet, 10 cts.; ½ lb., 20 cts.; 1 lb., 35 cts.; 2 lbs., 65 cts., postpaid.

Sutton's Excelsion

CONDON'S "Sure PUMPKINS for Pies and Stock

549 Big Tom

549 Big Tom

A greatly improved strain of Yankee or Cona greatly improved strain of fankee of connecticut Field Pumpkin which has been selected for many years to secure the most uniform type. Not only are the pumpkins larger and smoother, but the yield is nearly double that of the old variety. We recommend it to our customers as the very best type of cornected with the control of the connected with the conn field pumpkin. Packet, 5 ets.; ounce, 12 ets.; ¼ lb., 22 ets.; ½ lb., 40 ets.; lb., 75 ets., postnaid.

551 Japanese Pie

551 Japanese Pie

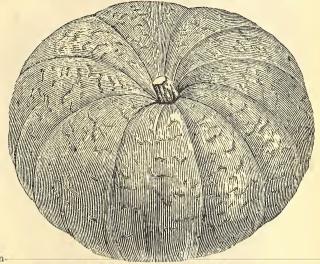

A high quality pumpkin of Japanese origin. The flesh is very thick, of a rich salmon color, fine grained, dry and sweet. Seed cavity small. Of medium size, early, very productive and a good keeper. Highly desirable as a pie or cocking pumpkin. The seeds are distinct in appearance, being curiously sculptured in the same manner as Japanese letters. Packet, 10 cts.; ounce, 15 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

556 Tennessee Sweet Potato

The best variety for home gardens. They are almost pear-shaped, growing to a large size. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

Sweet Cheese or Kentucky Field

Very popular in the south, but not as well adapted to northern latitudes. Fruit flattened, diameter usually about twice the length; skin mottled light green and yellow, changing to creamy yellow when matured. The flesh is yellow, tender and of excellent quality. Packet, 5 cts.; ounce, 10 cts.; ¼ lb., 22 cts.; ½ lb., 40 cts.; lb., 75 cts., postpaid.

King of the Mammoth

552 King of the Mammoth

This is the very best genuine strain of the true Mammoth Pumpkin. Fruits grow to enormous size, sometimes reaching two feet or more in diameter, and from one hundred to two hundred pounds in weight. Salmonorange skin; very thick, bright yellow flesh, which is fine grained, tender, and of excellent quality for pies. To raise the largest fruits, vines should be allowed ample space in which to grow; only one plant should be allowed to grow in a hill and only the best fruit left on the vines. to grow in a hill and only the best fruit left on the vine.

Packet, 10 cts.; ounce, 20

cts.; '\(\frac{1}{2} \) lb., 50 cts.; '\(\frac{1}{2} \) lb.,

PEPPER

537 CONDON'S New Victory

The earliest, largest, thickest, meatiest, finest flavored Sweet Mango Pepper in cultivation. Our own origination. Cross between Chinese Giant and Neapolitan. Sturdy, vigorous grower. Victory Pepper is an abundant yielder producing on an average 22 to 25 perfect Peppers on a single plant. These find ready sale at 10c each when other sorts go begging. The color is a very deep green when young, turning to a beautiful bright red when ripe. Be sure to include this in your vegetable garden. It's a good one. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

533 Small Red Chili

Pods Are Small and Hot

Plants grow 18 inches high, fruit usually erect, about one and a half inches long, cone shaped, bright red and very hot; exceedingly prolific. Matures in about 145 days. Used for pepper sauce or pickling or dried for winter use. Packet, 10 ets.; ½ oz., 20 ets.; oz., 35 ets.; ¼ 1b., \$1.00, postpaid.

534 CONDON'S Sweet Salad Tomato Pepper Also Called "Cheese" Pepper

Of upright growth, enormously productive. May be eaten out of the hand like an apple, or stuffed with meats, rice, etc., and baked, or served as a salad, and fine for canning, being of sweet and delicate flavor. Staws in bearing right through the season from early June until frost, producing an enormous crop, maturing in 110 days. An excellent sort for home or market. Packet, 15 cts.; ½ ounce, 40 cts.; ounce, 70 cts.; ½ pound, \$2.00, postpaid.

544 Tabasco Pepper The Hottest of All Small Peppers

Pungent and strong; very prolific. It is easily gathered as the fruit does not adhere to the stem and grows almost erect on the branches. This variety is used in manufacturing the well-known Tabasco Sauce. It is tall growing, producing small, slender and very hot fruits in 140 days, which are splendid for family use, sauce and pickling. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 40 cts.; ¼ pound, \$1.20, postpaid.

538 CONDON'S Yellow Giant PEPPER

A beautiful yellow Sweet Mango Pepper 7 to 10 inches long by 4 to 5 inches in diameter. The beautiful golden yellow color contrasting with the green and red of the other sort makes an excellent combination which is always admired on the table, either in pepper sauce or on the dishes. Packet, 12 cts.; ½ ounce, 32 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

538 Condon's Yellow Giant

NOTICE: We give Free Premium Seeds with every order.

CONDON'S PEPPERS
"Sure Crop"

531 Harris' Earliest

This new pepper was introduced by Mr. Harris and we believe in giving credit where due. Our trial ground records show it worthy of offering to our customers. This is a very early dwarf growing pepper; plants average 12 to 18 inches high and usually produce so many peppers that the stems hardly seem able to support them, so thickly are they clustered all over the plant. The peppers are of medium size, 3½ to 4 inches high and 2½ to 3 inches in diameter, and of very mild sweet flavor. Packet, 15 ets.; ½ ounce, 50 cts.; ounce, 90 cts.; ¼ lb., \$2.75; postpaid. postpaid.

532 Harris' Early Giant

Another Harris Introduction. Larger and later than Harris' Earliest. The peppers are about 5 inches high and 3½ inches through; deep green turning to brilliant red. Flesh thick and of a very sweet pleasant flavor. This will be found a very valuable variety for the home garden and a profitable one for Market Gardeners. Packet, to cts.; ½ ounce. 40 cts.; ounce, 70 cts.; ¼-lb., \$2.00;

postpaid.

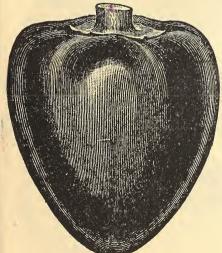

536 Chinese Giant

536 Chinese Giant

The Finest, Largest and Handsomest Pepper of Them All

An enormous fruiting variety, double the size of Ruby King, averaging 12 to 15 inches in circumference. Notwithstanding its large size, it is very early and very prolific. Plants are healthy, well branched, about 2 feet high, and carry an enormous load of fruit, often having the appearance of being bunched together. Flesh is thick, tender, mild and sweet, and is unexcelled for salad or stuffed as margoes. They can be silced and eaten like tomatoes. When ripe, the peppers are a rich, glossy scarlet, making them of unusually fine appearance. Matures in 140 days. Packet, 10 cts.; ½ ounce, 35 cts.; ounce, 55 cts.; ½ 1b., \$1.75, postpaid. enormous fruiting variety, double

541 New Pimiento

Ruby King A Reliable Sort

Popular large-fruited pepper. Very prolific. The pods are a beautiful bright red, 5 to 6 inches long by 3 to 4 inches in diameter. Flesh exceedingly thick, Flesh exceedingly thick, sweet and so mild that it is often sliced as a salad. Splendid for stuffing as mangoes. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 40 cts.; ½ lb., \$1.25, postpaid.

543 Sweet Mountain

One of the large sorts Very thin skinned, sweet and mild flavored; much used for stuffed pickles. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 40 cts.; ¼ lb., \$1.15, postpaid.

539 Long Red Cayenne

A well-known variety having a slender, twisted and pointed pod about 4 inches long, and when ripe, bright red in color. Extremely strong and pungent flesh. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 40 cts.; ¼ lb., \$1.25, postpaid.

541 New Pimiento

The Mildest of All

This pepper is absolutely without pungency. It is largely grown, canned and shipped to all parts of the world and greatly relished everywhere. It is especially good in picnic sandwiches. The green pepper is excellent stuffed with slaw and pickled. It is largely used by canneries because of its extreme fleshiness. Packet. extreme fleshiness. Packet, 10 cts.; ½ ounce, 25 cts.; ounce, 40 cts.; ¼ lb., \$1.25, postpaid.

540 Neapolitan

540 Neapolitan Large Early

The earliest and most productive of the large, mild peppers. It develops fruit from ten days to two weeks earlier than any other variety, being ready for market in 110 days from setting plants. Packet, 10 cts.; 1/2 ounce, 25 cts.; ounce, 40 cts.; 1/4 lb., \$1.25, postpaid.

Bell or Bull Nose

One of the most popular varieties growing 4½ to 6 inches long by 3½ to 4 inches thick. Peppers are a bright ruby red. Packet, 10 ets.; ½ ounce, 25 cts.; ounce, 40 cts.; 1/4 lb., \$1.25, postpaid.

CONDON'S "Sure Crop" RADISH SEED

is grown from hand transplanted roots; therefore the types are kept pure and true, and furthermore no root is set for seed that is not a perfect, sound, crisp radish, so the seed produced from them comes true to type, small tops, highly colored and the flesh remains crisp and firm in good, marketable condition long after seed of average quality has got pithy or hollow and gone to seed. Whether you plant only a packet for your own use or 100 pounds for market, you should sow the best obtainable and you'll surely get it if you send us your orders.

567 CONDON'S Early White TURNIP or WHITE BOX

A most excellent radish for forcing under glass or for growing in the open ground. Its short top and rapid growth make it a great favorite with market me and its mild, sweet quality wins the favor

of the consumer.

It is the best white globe-shaped radish for early summer use, as it remains solid and crisp longer than any of the other early sorts. Market men grow it extensively. A desirable white sort for the home garden. Packet. 8 cts.; ounce, 16 cts.; ½ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; postpaid.

569 Early Scarlet Turnip

A round, red, turnip-shaped radish, with small tops and of very quick growth, deserving general cultivation on account of its rich, scarlet-red color and white, crisp and tender flesh. Packet, 8 cts.; ounce, 16 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00; postpaid.

567 White Turnip

of all White Tip

564 CONDON'S Lightning

Quickest of All-White Tipped Radishes
This Is the Market Gardener's Favorite for Forcing
Under Glass or Outdoors

Very early; mild and crisp, juicy and tender; top small; will stand heat without becoming pithy. One of the best selling and most attractive radishes on account of its bright scarlet top, snowy white tip and handsome shape. Our stock of this is the very best, selected with special care as to size, shape, color and earliness, and market gardeners will find it a money maker, as it is just right in every respect. Distinctly white tipped. See photograph below. Packet, 19 cts.; ounce, 18 cts.; ¼ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; postpaid.

⁵⁶² CONDON'S Earliest Red Bird

Earliest Radish in the World and Biggest Money Maker — Ready for Market in 18 Days

Market in 18 Days

This is a distinct improvement on the old Red Bird type. Our stock has been perfected and bred to the highest degree, seed being produced only from hand transplanted roots, insuring market gardeners and critical planters the Earliest Radish in the World. Turnip shape with beautiful crimson carmine skin, flesh firm, crisp and tender, very small top. Very best for Forcing or Outdoor Culture. See photo above. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25; postpaid.

pleased.

CONDON'S "Sure Crop" RADISH

Sow Every Week or Ten Days for Continuous Crop of Fresh, Crisp Radishes

The Largest, Most Perfect Globe Shaped, White Tipped Radish in Cultivation. Comes in 7 Days Later Than Lightning

Flesh is sound and crisp as ice—sweet, juicy and tender. Remains firm and free from pithiness longer than any of the early varieties. It is distinctly a globe-shaped radish with beautiful carmine color two-thirds down, breaking off distinctly to a perfect white tip. Tops small—just right for bunching. Thousands of gardeners in all parts of the country use this every year and all claim it a most excellent and profitable variety. See photograph. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

558 Brightest French Breakfast

558 Brightest

French Breakfast

Vicks Scarlet Globe

This is an excellent extra early forcing radish. The roots are small, nearly round, and of bright scarlet color. Tops very small; flesh white, crisp and well flavored. One of the handsomest of the forcing varieties. Packet, 6 cts.; ounce, 12 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

A quick growing, small, olive-shaped radish about 2 inches long when fully grown. Color beautiful deep scarlet except a little clear white about the tip. Its small top and earliness make it very desirable for growing under glass as well as for planting outdoors. Splendid for the table on account of its excellent quality and attractive color. See cut. Packet, 7 cts.; ounce, 12 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

576 Scarlet Turnip White Tip

Standard variety for many years.
Color deep scarlet with a distinct white tip, flesh white, very firm and of good quality. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

Sweet, Crisp, Juicy, Mild—Wonderful Yielder, Beautiful Color, Large Size

This Radish is an entirely new type and differs radically from all varieties hitherto in cultivation. in so far as its roots attain more than double the size of other round, early varieties, without getting pithy or hollow. It is very early, notwithstanding its size. Color crimson, flesh pure white, of the best quality. The roots often weigh 1½ ounces each and are crisp and juicy. Fine for outdoors and forcing. The seed should be sown very thinly to permit full development for roots. Packet, 7 ets.; ounce, 14 cts.; ¼ lb., 30 cts.; ½ lb., 55 cts.; lb., \$1.00, postpaid.

The Very Finest and Longest Early Pure White Radish. Our Strain Is Unexcelled

Radish. Our Strain Is Unexcelled
Planted in spring, the Radishes are ready for use
in twenty to twenty-five days; their long slender form
and pure paper-white skin are most attractive when
bunched for market. This Radish is not only crisp
and tender when young, but retains these qualities
until the roots attain large size, so that it will remain in fine condition longer than any other firstearly variety. It is excellently adapted for forcing
purposes or successive sowings in the open ground.
(See photograph.) Packet, 7 cts.; ounce, 14 cts.; 1/4
1b., 28 cts.; 1/2 lb., 50 cts.; lb., 90 cts., postpaid.

566 CONDON'S Giant Perpetua

King of All Long, Red Radishes for Market for Shipping or Home Consumption

Brittle as Ice-Never pithy; makes marketable crop in 25 t 30 days' time. Withstands both extremes of cold spring an hot summer. Plant it early and often, as it is an all seaso cropper. See photograph. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

570 Improved Chartiers or Shepherd

This American variety is one of the very best long radishes for general planting outdoors. Tops of medium size. Roots are in good condition for the table when half an inch thick, and continue hard and crisp until they reach a diameter of about 1¼ inches, thus affording good roots for a long time. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

572 Long Scarlet Short Top

A Good Old Standard

A Good Old Standard

The tops are short and comparatively small. The roots are smooth, slender, uniform in shape and a very attractive bright carmine-red in color. They grow about one-fourth to one-third out of the ground and continue crisp and tender until fully matured, when they are about six inches long. Packet. 5 cts.; ounce. 10 cts.; ¼ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

570 Chartiers

573 Long White Vienna or Lady Finger

A long white variety, very crisp and tender; MARKET

Gardeners' Special
Wholesale Prices

Size; matures early. Very similar in shape to Long Scarlet Short Top. It is a very desirable variety where long, white radishes are desired. The flavor is mild. Packet, 6 cts.; ounce, 10 cts.; 1/4 lb., 25 cts.; 1/2 lb., 25 cts.; 1/2 lb., 25 cts.; postpaid. cts., postpaid.

Condon's White Icicle

Summer and Winter RADISI

In the cool weather of the early spring and fall months those varieties listed on the two preceding ages are the most profitable to plant; for hot weather and winter use these are the best. By planting uch varieties as Condon's Earliest Red Bird, Lightning, Royal Gem, Perpetual, Iciele, White Elephant and either of the good winter varieties listed below you will have fresh, crisp, delicious Radishes rom early spring until the following Christmas and later if you store your winter sorts.

CONDON'S White Elephant The Greatest White Summer Radish Ever Known

This is the new variety we gave away as a premium in 1917, and everybody liked it better last year than the year before. The flesh is crisp, sound and sweet, never pithy, no matter how hot the weather. Shaped like the cut, half long. Color creamy white with a slight gray cast at top. It's a money maker for the gardener and a dandy midsummer sort for home use. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 40 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

574 Mixed Radishes

We have had considerable demand for seed of many different varieties of radishes mixed, and so this mixture is now offered to our customers. For a small garden, or when many sorts are preferred, this seed will give, at small expense, a large yield of early, medium and late sorts, lasting several weeks. Nearly all shapes, sizes and kinds are included. Packet, 5 cts.; ounce, 10 cts.; 1/4 lb., 25 cts.; 1/2 lb., 40 cts.; lb., 75 cts., postpaid.

578 White Strasburg

Even when comparatively small this variety is in good condition for use, and continues crisp until matured, when the roots are 4 to 6 inches long by 1½ to 2 inches in diameter. This is considered one of the best large, white summer sorts. The roots remain in condition for use much longer than the early varieties. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 28 cts.; ½ lb., 50 cts.; lb., 90 cts., postpaid.

559 California Mammoth Winter

First introduced into this country by the Chinese in California. It is pure white, about 1 foot long and 2 or 3 inches through, tapering regularly to the top. The flesh is tender and crisp, keeping well through the winter. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 28 cts.; ½ lb., 50 cts.; lb., 90 cts.; post-paid.

571 Long Black Spanish

One of the latest and hardiest long radishes, especially adapted for winter use. Roots rather long, thick, almost black, with white flesh of firm texture, decidedly pungent, but well flavored. The roots when mature are usually 7 to 9 inches long by 2 to 3 inches in diameter at thickest part. Packet, 6 cts.; ounce, 12 cts.; ½ lb., 22 cts.; ½ lb., 42 cts.; lb., 80 cts., postpaid.

561 China Rose Winter Also Called Scarlet Winter

A popular favorite with rose-colored skin. It is a large and shaped radish, growing partly above the ground. The portion above the ground is darker in color than that below ground. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 28 cts.; ½ lb., 50 cts.; lb., 90 cts., postpaid.

575 Round Black Spanish

Roots round, sometimes slightly top-shaped, 3 or 4 inches in diameter; skin black, flesh white, very compact and pungent, but well flavored. Keeps well through the winter. Packet, 5 ets.; ounce, 12 cts.; ½ lb., 26 cts.; ½ lb., 48 cts.; lb., 80 cts., postpaid.

560 Celestial White Chinese

Large, stump-rooted radish with white skin. Can be sown from July 1 to August 15, and will keep in prime condition; mild in flavor, brittle, and never woody. Market gardeners will find this a special seller. Packet, 7 ets.; ounce, 14 ets.; ½ lb., 28 ets.; ½ lb., 50 ets.; lb., 90 ets., post-

Store Winter Radishes in sand in your cellar. They keep firm and crisp all winter.

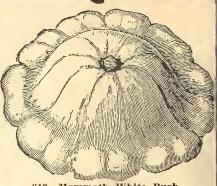

CONDON'S Pedigreed SQUASHS

602 Delicata

A desirable variety for summer and winter use

Rind orange-yellow, splashed and striped with dark green. The flesh is rich, dry and particularly fine. It is also extremely early, maturing about the same time as the Summer Squashes, and for early use will doubtless supplant this class on account of its superior dryness and flavor, while its extreme solidity renders it fully as good a keeper as any of the winter varieties. Packet, 8 cts.; ounce, 14 cts.; ¼ lb., 38 cts.; ½ lb., 70 cts.; lb., \$1.35, postpaid.

Mammoth White Bush 610

610 Mammoth White Bush

early maturing, somewhat flattened, scalloped bush squash, of largest size and the handsomest of the summer varieties. The fruit is uniformly warted and a beautiful, clear waxy white, instead of clear waxy white, instead of the yellowish white so often seen in the old Early White Bush Scallop. The stock we offer of this variety is excep-tionally true to type. Packet, 7 cts.; ounce, 13 cts.; 1/4 lb., 35 cts.; 1/2 lb., 65 cts.; lb., \$1.25. nostnaid. \$1.25, postpaid.

606 Giant Summer Crookneck

neck summer squashes. Vines of bush habit, large and more vigorous than Summer Crookneck. Fruits when matured are very large, often 1½ to 2 feet long, with exceedingly warted surface. The color is deer yellow. Its large size and attractive color make it a great favorite with market gardeners. See cut. Packet, 8 cts.; ounce, 14 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

599 Blue Hubbard or Marblehead

In this Squash the combination of sweetness, dryness and delicious flavor is something really remarkable. Its outer color is a very light blue, shape oval. Very prolific. A great favorite where known. Packet, 7 cts.; ounce, 14 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

604 Early Yellow Bush

A very early, somewhat flattened, scalloped bush squash of larger size. Skin deep orange; flesh pale yellow and of very good flavor. Our select strain of the old Yellow Bush Scallop is much improved; fully as productive but uniformly larger and flatter than the old stock and has a very small seed cavity. Packet, 5 cts.; ounce, 10 cts.; 14 lb., 25 cts.; 1/2 lb., 45 cts.; lb., 55 cts., postpaid.

603 Delicious Winter

The squashes, weighing from 5 to 10 pounds, vary both in color and form, but are uniformly delicious in flavor and splendid winter keepers. The dark orange flesh is very thick and fine grained. Packet, 6 cts.; ounce, 14 cts.; ½ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

602 Delicata

607 Golden Hubbard

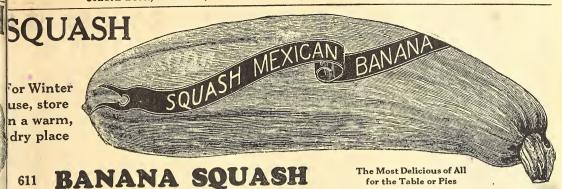

607 Golden Hubbard

Vine vigorous and very productive. Fruits of medium size, weighing from six to eight pounds, and in shape like the Hubbard, although in condition for use earlier. They are wonderfully long keepers and can be held over in good condition for spring use. Shell moderately warted, hard, strong and of a beautiful orange-red color, except for a bit of olive-green on blossom end. Flesh deep orange; dry, fine grained and richly flavored. Packet, 7 cts.; ounce, 14 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

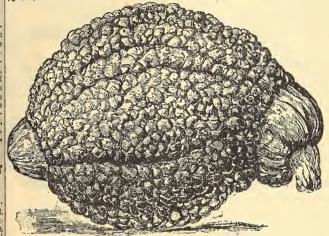

608 Improved Hubbard

It cannot be too highly extolled as a winter squash; it boils smooth and dry, is of very rich quality, and keeps as solid as a rock. It is more popular with private growers than any other variety. Packet, 6 cts.; ounce, 12 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts; lb., 8125 postpaid \$1.25, postpaid.

Common Sense Cultural Directions printed on every package.

It is probably the finest in quality of all squashes, large in size, a great vielder, a good keeper, and in fact is just about right in every way, but unfortunately it makes but very little seed, and for that reason the seedsmen seem to have dropped it, and it is practically unknown to the present generation. It grows to large size, generally over 2 feet long and sometimes over 3 feet. It keeps equal to a Hubbard, is better quality, more prolific and earlier. It has a tough shell, but not hard like the Hubbard. The picture shows its appearance better than I can describe it. Pkt., 10 cts.; oz., 18 cts.; ½ lb., 80 cts.; lb., \$1.50, postpaid.

Condon's Chicago Warted Hubbard Improved Strain

605 Fordhook

Excellent for summer or winter use. For baking like sweet potatoes, or making pies, is unsurpassed. Will keep until June. Flesh very thick; straw yellow color. Packet, 6 ets.; ounce, 12 ets.; 1/4 lb., 35 ets.; 1/2 lb., 65 ets.; lb., \$1.25, postpaid.

600 Boston Marrow

Very early and prolific variety. Outside color dark orange yellow; flesh deep, fine grained and dry. Packet, 5 cts.; ounce, 10 cts.; ½ lb., 25 cts.; ½ lb., 45 cts.; lb., 85 cts., postpaid.

609 Mammoth Chili The Largest of All

The skin is quite smooth, but with broad, open netting and of a rich orange yellow. Flesh thick, of a rich yellow coloring; fine grained and sweet. Packet, 5 cts.; ounce, 15 cts.; ¼ lb., 35 cts.; ½ lb., 65 cts.; lb., \$1.25, postpaid.

612 Table Queen or "Des Moines"

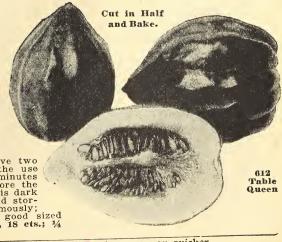

A comparatively new variety. Market gardeners have found it their best seller. The enthusiasm of customers entitles it to the place among Squashes accorded to "Golden Bantam" in Sweet Corn. Table Queen is just the right size to serve two persons. This avoids the waste resulting from the use of larger varieties. Does not require over twenty minutes for baking or boiling. This Squash is ready before the Hubbards and yet stores equally well. The color is dark green changing to bright golden after picking and storing. The meat is dry and meally. It yields enormously; a few hills furnishing an ample supply for a good sized family. Makes wonderful pies. Pkt., 10 cts.; oz., 18 cts.; ¼ lb., 55 cts.; ½ lb., \$1.00; 1 lb., \$1.75, postpaid.

601 CONDON'S

Chicago Warted Hubbard **Improved Strain**

The most productive hard shelled winter squash in existence. The best winter keeper. Very productive. Early and of a beautiful dark green color. A few seed sown along the fences, edges of corn fields, and in waste lands, make wonderful growth and produce a profitable crop where nothing has been produced before.

Condon's Improved Strain of Chicage Warted Hubbard Squash is unquestionably the very best Winter Squash. The vines are vigorous and very productive. The fruits are extra large, heavy and well warted with extra hard shell which makes it such a wonderful keeper. The skin is uniformly dark green. The flesh is of a bright orange yellow, fine grained, thick, dry and richly flavored. This grand Squash can be kept in good condition until late spring and will retain its highly flavored qualities till used. This squash is unquestionably the best for Market or Home use. Our improved strain of Hubbard Squash has about reached the height of perfection. Packet, 10 cts.; ounce, 15 cts.; ¼ lb., 35 cts.; ½ 10 ets.; ounce, 15 ets.; ¼ lb., 35 ets.; ½ lb., 65 ets.; lb., \$1.25, postpaid.

Please order by number as well as names. It will help us to serve you quicker.

590 Mammoth Sandwich Island Salsify

593 Prickly Winter

A very hardy variety and will with stand severe weather better than any other sort. It is used largely for fall sowing. Packet, 5 cts.; ounce, 8 cts.; ½ lb., 17 cts.; ½ lb., 27 cts.; lb., 45 cts., postpaid.

596 King of Denmark Also Known as "Antvorskov"

The Greatest Money Making Spinach in Cultivation. Fully as early as the old time sorts—Leaves thick and fleshy, remaining in good marketable condition three weeks after all other sorts have gone to seed. Packet, 6 cts.; ounce, 10 cts.; 1/4 lb., 20 cts.; 1/2 lb., 35 cts.; lb., 60 cts., postpaid.

SALSIFY OR VEGETABLE OYSTER

590 Mammoth Sandwich Island

The Salsify is one of the most delicious and nutritious of vegetable and should be more generally cultivated for use in winter, when the surrof really good vegetables is so limited. It has a grassy top and a lewhite, tapering root, nearly resembling a small parsnip. It closely assilates to the taste and flavor of the oyster, when properly cooked, and it good substitute for it; very wholesome and nutritions. The roots either boiled and mashed or made into fritters, in which form they are discuss. The roots are perfectly hardy, and may remain out all winter, should be dug early in the spring, as they deteriorate rapidly after grow commences. Store a quantity for winter use in a pit or cellar in dae earth or sand. This variety is large and strong growing with long, smod white, tapering roots, and is less liable to branch than the other sorts, is invaluable for market gardeners' use. Packet, 10 ets.; ounce, 22 ets.; 1b., 65 ets.; ½ 1b., \$1.20; 1b., \$2.25, postpaid.

SPINACH

When properly prepared, no vegetable makes better greens.

592 Bloomsdale or Savoy Leaved

This is the earliest variety. Plant is of upright growth, with narrow, pointed crinkled leaves. Is very hardy. Packet, 5 ets.; ounce, 10 cts.; 1/4 lb., 17 cts.; 1/2 lb., 28 cts.; lb., 50 cts.; postpaid.

Remains in Good Condition After Others Have Gone to Seed

A new spinach of the Long Season type, but leaves are more crumpled, of a darker green color. Good size, thick and of good quality. Will remain fit for use after other varieties have bolted to seed except King of Denmark. Ready to cut in about 45 days. Packet, 6 cts.; ounce, 10 cts.; 14, 1b., 20 cts.; 1/2 lb., 35 cts.; lb., 60 cts.,

595 Long Standing

This excellent variety comequickly to maturity and remains i condition for use much longer that other sorts. The leaves are smoot and very dark, rich green. In ouestimation, the best for the privat garden, as it is one of the most popular and profitable with marke gardeners. Packet, 5 cts.; ounce, cts.; ¼ lb., 15 cts.; ½ lb., 25 cts. lb., 40 cts., postpaid.

597 Round Thick Leaved

A rapid growing variety, forming cluster of large, very thick slightly wrinkle leaves. A favoritivith with market garden ers. Packet, 5 cts. ounce, 8 cts.; 1/4 lb., 12 cts.; 1/2 lb., 25 cts.; lb., 45 cts., postpaid.

594 New Zealand

The stems and leaves are soft thick, floshy and crystalline in appearance. When started early in the spring, the plants will resist heat and make strong growth during the summer Packet, 7 cts.; ounce, 12 cts.; 14, 1b., 28 cts.; 1/2 lb., 50 cts.; lb., 90 cts., postpaid.

Swiss Chard or Spinach Beet, "wonderful for greens"-See page 17.

pecialties for the Garden That All Should Plant

350 Chicory Witloof

Grow your own lorse Radish. It's nuch better and heaper.

91 Horse-Radish Sets

Chicory 350 Witloof or French Endive

The seed should be sown in the open ground not later than June in drills 12 to 18 inches apart, and the seedlings should be thinned out to stand not closer than 3 inches. The plants form long, parsnip-shaped roots which are lifted in the fall, trimmed of leaves and stored in soil in a cool place until wanted for forcing.

Roots should be planted upright about one and a half to two inches apart in a trench 16 to 18 inches deep. This will bring the neck of the root to within nine inches of the level of the trench, to be filled with light soil.

It requires about one month to force roots. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 85 cts.; ½ lb., 85.50, postpaid.

Leek 412 Broad Leaf or New Flag

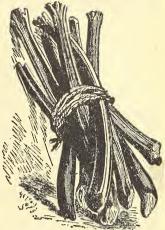

We offer a very superior stock of this popular variety, so largely grown for fall and early winter use. It is of quick, strong growth, producing long stems of uniform shape and size, averaging 2 inches through by 10 inches long, blanching beautifully white and of fine, mild flavor. Packet, 10 cts.; ounce, 18 cts.; ½ lb., 45 cts.; ½ lb., 80 cts.; lb., \$1.50, postpaid.

412 Leek-Broad Leaf

391 Horse-Radish Sets New Bohemian or Maliner Kren

New Bohemian or Maliner Kren
This is grown by planting the small sets or
pieces from the side roots in deep, rich soil and
cultivating in the same manner as with the ordinary variety of Horse-Radish, but the plants are
so much stronger in growth that the roots grow
to considerably larger size and greater weight.
The quick, strong growth not only gives a much
iarger crop from a given area both in size of
single roots and bulk weight of crop, but also
enables the grower to place the roots in the markets much earlier than with the ordinary variety.
Small Roots, ready for planting: 25 cts, a doz.;
\$1.75 per 100; \$16.00 per 1,000, postpaid.

Rhubarb or Pie Plant

582 CONDON'S New Strawberry

Without doubt this is the earliest of all Pie Plant and a variety that can be used not only in the early Spring, but Summer as well. The very best. Quality simply superb. Stalks of good size, soft and juicy. Skin so thin and tender that it is not necessary to remove it before cooking. Flavor sprightly and refreshing and has the true Strawberry flavor. Pkt., 10 cts.; ½ 1b., 80 ets.; 1b., \$1.50, postpaid.

583 Rhubarh Roots

583 Rhubarb Roots

We offer only hardy two-year-old roots that will make a crop the following year after setting out. 15 cts. each; 3 for 40 cts.; doz., \$1.45; 100 for \$10.00, postpaid.

Best Varieties, High Grade Tobacco

635 Big Oronoko Sweet

A favorite Virginia variety. Grows very large, road leaves. A fine variety for dark plug wrappers and brings a good price in the market.

637 Connecticut Seed Leaf

This is a staple variety in all sections of the country, and will grow successfully over a wide ange of territory. Used for cigar fillers.

634 Big Hybrid Havana

The best known variety, as it is used very argely for cigar wrappers. Commands the highest anarket price when well grown and cured.

638 Improved White Burley

A mild and sweet tobacco. It is the standard nain crop variety in the tobacco sections as it is extra fine for manufacturing in nearly every manner that tobacco is used.

636 Comstock Spanish

Sometimes called Zimmer's Spanish. The standard variety for cigar leaf. More extensively grown in this country than any other kind for this purpose. About the only kind grown in Wisconsin. The leaf is good sized and is suitable for wrappers and fillers.

Special Price on any of the above: Packet, 10 ets.; ½ ounce, 30 cts.; ounce, 50 cts., postpaid.

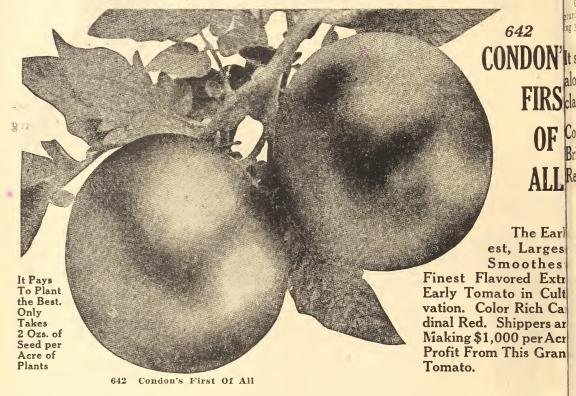

635 Big Oronoko Sweet

NOTICE: We give Free Premium Seeds with every order.

CONDON'S "SURE TOMATOES

BIG MONEY MAKERS—CAREFULLY GROWN FROM HAND SELECTED FRUIT FOR CRITICAL PLANTERS

Our Own Origination on Our Rock River Valley Seed Farn

Over 50,000 Satisfied Planters Last Year and All Acclaim It the Best Early Tomato

The illustration gives a fair idea of its size and smoothness. The color is a rich, cardinal red. The skin is so tough that it is a spiendid keeper and shipper, and is less liable to crack in wet weather than any other tomato. Unsurpassed for market or table. The plant is a strong grower, and is very productive. The fruit is free from core, and the seed spaces are small. The leaves are of a rich, dark green color, and very luxuriant, indicating great ability to produce fruit of the largest size throughout the entire season. It stands at the front as the earliest bright red tomato. See cut. Packet, 10 cents; ½ ounce, 30 cents; ounce, 50 cents; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid.

NOTICE

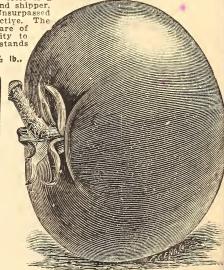

Gentlemen:

My tomatoes are 8 inches high; everybody wants your "First of All" and the "Peerless," I have sold hundreds of plants miles around in all directions, and will not be able to supply half my trade. I have two hot beds and four cold frames. If I get time later I will send you a picture, as I am surely giving your tomatees a boost, as your seeds are true. I have used other seed, but none as good as yours.

FRED G. DEISHLIE.

649 Golden Yellow Ponderosa Excellent as a Salad Tomato

Another wonderful sort, in every way similar to the well-known Ponderosa, or No. 400, which has been a standard pink variety for years, the only difference being in color, which is a beautiful golden yellow, the richest shade yet attained by any variety. The superior flavor of the yellow varieties is bringing them into favor as a table fruit more each season. We believe the height of perfection has been attained in this grand new yellow Ponderosa. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00, postpaid. postpaid.

649—Golden Yellow Ponderosa

CONDON'S "Peerless" TOMATO

"The World's Greatest" Main Crop Tomato

Originated on our Famous Rock River Valley Seed Farms. We have been for years working on this rand variety and are now safe in saying, we are satisfied beyond any question of doubt, we are offerag you the best Tomato ever introduced.

643 Condon's Peerless

In shape, CONDON'S PEERLESS is smooth, well formed and extremely deep from stem to blossom, making it unusually heavy. It ripens evenly to the stem, and is without ridges or cracks; it has great meatiness and few seeds. It is firm without being hard, unrivalled home tomato and an unequalled shipper. The vines are vigorous but compact. The joints are short and it always fruits in large clusters at every second joint, which accounts for its wonderful productiveness. Condon's Peerless is the heaviest for its size of any variety and on account of its brilliant red color, depth and solidity, is the handsomest tomato. Its beautiful appearance and color make it sell ahead of all sorts, and its unusual solidity, few seeds and desirable form for rapid peeling without waste, make it the most desirable canning variety known. It is up to you to select the best, as it costs you no more; takes no more time to grow the best than it does to grow older and more common sorts. The best is none too good for you, and we want to give CONDON'S PEERLESS a trial and be satisfied with the BEST TOMATO MOTHER EARTH AFFORDS. Packet, 10 cts.; ½ ounce, 35 cts.; ounce, 65 cts.; ¼ lb., \$1.75; ½ lb., \$3.25; lb., \$6.00, postpaid.

639—"Norton" Wilt Resistant—Yields enormous crops of medium size solid firm rich red fruit, on soil affected by wilt where other sorts were nearly a failure. Excellent shipper or canner. Pkt., 10c; oz., 35c; ½ lb., \$1.25; ½ lb., \$2.30; lb., \$4.25 postpaid.

Please order by number as well as names. It will help us to serve you quicker,

Beautiful Red Wonderful Yielder

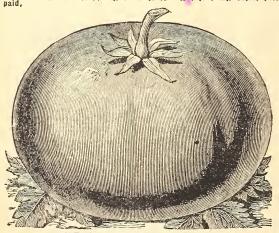

This is the variety we dis tributed over a quarter mil lion packages of last season We have the most wonder ful lot of testimonials on i vou ever read.

Every one was wel pleased and we are sure the name fully represents the variety as it sure is Everbearing. Ripe fruit

from early summe: until killed by frost Wonderful yielder medium size, smootl bright red fruit. If it is early Tomatoes you want, use Condon's First of All and if you desire big ones, Condon's Peerless is the boss. For continuous crop Condon's Giant Everbearing can't be beat. Try it. Packet, 15 cts.; 2 for 25 cts.; ½ ounce, 60 cts.; ounce, \$1.00; 1/4 lb., \$3.50; 1/2 lb., \$6.00; lb., \$10.00,

New Stone Extra Select

The fruit is of good size, bright red in color, perfectly smooth and of good table quality. Used very extensively by Canning Factories as the size is usually about right size for canning whole. The plants are very productive and the fruit stands up well for shipping. Pkt., 10 cts.; 02., 30 cts.; 1/4 lb., 70 cts.; 1/2 lb., \$1,35; lb., \$2,50, postpaid,

Extra Select-New Stone

658 Spark's Earliana **CONDON'S** Select Strain

An extremely early, smooth, bright red To-mato of good size and flavor. Is among the very first ready for the market, and not only remarkable for its earliness, but for its very large size, handsome shape and bright color. The vines are small but vigorous and very pro-ductive, bearing the ductive, bearing the fruits in clusters near the base of the plant. The fruits grow about 3 inches in diameter, have solid thick flesh of splendid quality and are excellent shippers. Packet, 10 cts.; ounce, 35 cts.; ¼ lb., \$5 cts.; ½ lb., \$1.60; lb., \$3.00, postpaid.

Please order by number as well as names. It will help us to serve you quicker.

CONDON'S Main or General Crop of Tomatoes

655 Livingston's Globe

THE GREATEST SHIPPING TOMATO KNOWN

The Finest Early Purple Tomato in Ex-istence. Very Distinct in Shape, Firm Fleshed, of Delicate Flavor; Almost Blight-Proof. "Very Short Crop."

Condon's Select Strain of this tomato is used exclusively by many of the largest shipping associations in the South.

ping associations in the South.

Livingston's Globe is an extra-good, allround sort, of a distinct globe shape or elongated fruits. On account of its shape, it permits a great number of slices to be made
from each fruit. We class it with the first
early varieties. The fruits are of large size,
and retained throughout the season. It is
always smooth, of firm flesh and few seeds;
ripens evenly; color, a fine glossy rose, tinged
with purple, and without the slightest tinged
of yellow when ripe. It is exceedingly productive. In quality there is nothing more to
be desired, being mild, pleasant, and of delicious flavor. May be picked quite green;
will carry to distant markets in excellent
shape and ripen up uniformly. Pkt., 10 ets.;
2.75; lb., \$5.00; postpaid.

647 Factor

647 Early Acme fruited variety, invariably round, smooth and of good size. Stands shipping well. Packet, 10 cts.; ounce, 30 cts.; ½ lb., \$1.60; lb., \$3.00; postpaid.

646 Dwarf Stone Vines dwarf but vigorous and productive, fruits bright red, exceedingly smooth and very solid. Packet, 10 ets.; ounce, 35 ets.; 1/4 lb., \$1.00; 1/2 lb., \$1.85; lb., \$3.50; postpaid.

659 Stoke's Bonny Best A second early, searlet fruited variety. Similar to John Baer. Packet, 10 ets.; ounce, 25 ets.; 1/4 lb., 75 ets.; 1/2 lb., \$1.35: lb., \$2.50; postpaid.

653 Livington's smooth, pink fruited variety. Fruits are of medium size and ricts: ¼ lb., \$1.00; ½ lb., \$1.85; lb., \$3.50; postpaid.

640 Buckbee's Beefsteak A big late searlet fruited variety. Fruits are very solid, smooth and rather flattened in shape. Packet, 10 cts.; ½ ounce, 30 cts.; ounce, 50 cts.; ¼ lb., \$1.75; ½ lb., \$3.25; lb., \$5.85; postpaid.

645 Dwarf Champion A dwarf or "tree type." Pink fruited variety. The most widely used of the "dwarfs." Fruits are medium size and smooth. Packet, 10 ets.; ounce, 40 ets.; ¼ lb., \$1.10; ½ lb., \$2.10; lb., \$4.00; postpaid.

654 Marglobe-Wilt Resistant

A main crop, scarlet-fruited variety. Introduced by the U. S. Dept. of Agriculture for wilt resistance. Claimed to be also resistant to "nailhead rust" which attacks the fruit. Fruit are medium size, smooth, solid, and deep from stem to blossom. They have irregular cell structure. They set in clusters of 5-7. Vine makes a medium to heavy growth. As the name would indicate, it is claimed to be a cross between Marvel and Globe and really appears to have retained the best characteristics of each, except perhaps the solidity. Packet, 15 cts.; ½ oz., 35 cts.; oz., 65 cts.; ½ lb., \$1.85; ½ lb., \$3.50; lb., \$6.00; postpaid.

648 Ferry's Early Detroit

Early Detroit has been thoroughly tried as a shipping sort during the past few years and has been found to meet the most exacting requirements. The variety is not only the most productive of the purplish pink tomatoes for the early market, but in uniformity and size of fruit, freedom from cracking and from tendency to blight it leads all others of its class. Packet, 10 ets; ounce, 35 cfs.; ¼ lb., \$1.00; ½ ib., \$1.85; lb., \$2.50; postpaid.

656 Gulf State Market

Unsurpassed as a long distance shipping Tomato. A second-early, smooth, pink-fruited variety. It its very similar to Globe. Fruit are globe-shaped, high-crowned, medium sized, and perfectly smooth; also solid and meaty, and have a thick skin. They set in clusters of from 5-7. Vines make good growth and have rather heavy-cut foliage. Ideal type has higher "shoulders" than Globe. Packet. 10 ets.; ½ ounce, 25 ets.; ounce, 40 ets.; ½ lb., \$1.35; ½ lb., \$2.35; lb., \$4.50; postpaid.

June Pink

A Pink Earliana

Similar to the popular Scarlet fruited Earliana in growth of vine, shape and size of fruits and time of maturing. This is a variety of exceptional value to market gardeners, who want an early, purplish pink tomato, either for home market or to ship; also desirable for planting under glass. Packet. 10 cts.; ½ 0z., 30 cts.; 0z., 50 cts.; ½ lb., \$1.50; ½ lb., \$2.75; lb., \$5.00; postpaid.

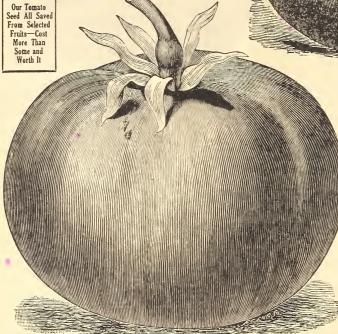

CONDON'S "Sure Crop"
TOMATOES

650 Henderson's Ponderosa, or No. 400

Nearly Seedless and as Solid as Beefsteak Size Massive, Extra Prolific, Early and Late, Finest Quality.

The vines are of strong, rather open growth; fruits largely oblong in form, deep through, and generally ridged or ribbed; deep purple in color. They are solidly fleshy with small seed cells; of fine, sweet flavor. Planted in good soil, fruits frequently attain a weight of one pound or more. We offer a selected strain that produces tomatoes smooth in form and very meaty. Packet, 10 cts.; ½ ounce, 35 cts.; ounce, 60 cts.; ¼ lb., \$1.60; ½ lb., \$2.90; lb., \$5.50, postpaid.

650 Henderson's Ponderosa or No. 400

SMALL FRUITED TOMATOES

These are easily grown, immensely productive, and very delicious for preserves.

661 Yellow Husk Strawberry or Ground Cherry The small sweet yellow fruits are each enclosed in a paper-like husk.

fruits are each enclosed in a paper-like husk.

662 Yellow Plum The fruits have the size and shape of a plum. The skin is bright, lemon yellow.

660 Red Pear The fruits are bright red, and of true pear shape.

663 Yellow Pear very attractive. Enormously productive and the golden yellow fruit make excellent salad. They are sweet and delicious.

Special Price on any or all of the small fruited sorts. Packet, 10 cts.; ½ oz., 30 cts.; oz., 50 cts., postpaid.

651 John Baer

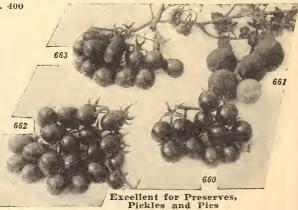

651 John Baer

Southern Favorite

Color is deep glossy red—size an shape quite similar to Earliana, but with more solid flesh and fewe seeds. One of the earliest, produce perfect high crown tomato. Ripen evenly right up to the stem and will not burst when dead ripe. It is strong grower with just enough foliage to handle its immense load of ruit. A popular market tomato in the East and South. Packet, 10 cts. ounce, 40 cts.; ½ lb., 90 cts.; ½ lb., \$3.00; postpaid.

641 Chalk's Early Jewel

Within a week or ten days, as early as the famous Spark's Earliana; it is a heavier cropper, with tomatoes of larger size and sweeter flavor. Packet, 10 cts.; ounce, 30 cts.; ¼ lb., S0 cts.; ½ lb., \$1.50; lb., \$2.90, postpaid.

Please order by number as well as names. It will help us to serve you quicker.

Alfalfa

On Every Farm

That's our slogan for this year and will continue to be until every one of our customers have at least a few acres of this wonderful crop.

Now Grown Successfully in Every State in the Union

It is the hardiest, the most lasting, the most productive, the most efficient soil enricher and the Biggest Money Crop for every farm. Alfalfa increases farm values because it enriches the soil instead of depleting it as grain crops do. Grain crops of any kind grown on Alfalfa sod yield much more abun- mailed dantly and better quality than the FREE same fields yielded before Alfalfa was grown upon there. It will make at least three cuttings a request season even in extreme Northern States and telling from experiments carried on over a number of years the average yield of Alfalfa per acre was 5.4 tons, whereas Red Clover yielded only 2.5 tons; Timothy, 2.3 tons. In other Wonder words, one acre of Alfalfa will produce more Wonderful good hay than two and one-half acres of any other grass or clover crop.

ses soil Ops on Circular mailed the FREE upon sand telling and telling all about thou Grow this Wonderful Crop We offer Genuine Northwest Grown Grimm Alfalfa

676 CONDON'S Mountain Brand Dry Land Alfalfa

We have specialized for years on Alfalfa and are safe in saying Condon's Mountain Brand Dry Land will give complete satisfaction everywhere. Our seed is grown in the extreme North West where the winters are very severe, and is by far the very best type of what is known as Common Alfalfa. In fact it is far superior to some seed which is sold as Grimm types. The seed is very high quality, both in purity and germination. Prices very low for such high quality seed. All State Tested and "Guaranteed." 1/2 lb., 22 cts.; lb., 40 cts.; 3 lbs., \$1.00; postpaid.

ine" Grimm Alfalfa

Repeated comparative tests prove conclusively that "Genuine Grimm Alfalfa" is the hardiest, most lasting and most productive of all varieties; therefore "The Most Profitable To Grow."

Its root system is spreading or sprangled either directly from the crown or farther down the root, depending on the soil, and that spreading root system is what helps to prevent it from winter killing during freezing and thawing weather.

We offer Genuine Northwest Grown Grimm Alfalfa that we know will please you and our prices are as reasonable as pure seed can be produced for. If you pay less than we ask we firmly believe you will get less. All our seed sold on your approval. 1/2 lb., 35 cts.; lb., 60 cts.; 3 lbs., \$1.65; postpaid.

677 Certified Blackfoot Grimm Alfalfa

This is identically the same variety as Condon's Grimm, only the seed is grown by the Blackfoot Alfalfa Growers' Association and is certified. Bushel lots are shipped in original bags as furnished by the Association. Smaller lots are taken from those same bags but are not sealed. 1/2 lb., 35 cts.; lb., 65 cts.; 3 lbs., \$1.75; postpaid.

678 Cossack Alfalfa

This is one of the late introductions from Russia. Is now considered one of the hardiest Alfalfas. Our seed is produced from one of the original fields of this variety, is claimed to recover quicker after cutting than other varieties. ½ 1b., 35 cts.; 1b., 65 cts.; 3 lbs., \$1.75; postpaid.

684 Meadow Fescue

English Blue Grass

One of the most valuable hardy grasses grown—suited to almost every climate; dry or wet—hot or sold, this is one dependable cropper, producing immense pasturage very early in the spring and up late in the fall. Also makes wonderful hay crop growing 2½ to 3 feet high. Sow in early spring or fall 15 lbs. per acre broadcast. ½ lb., 22 cts.; lb., 40 cts.; 3 lbs., \$1.10; 5 lbs., \$1.65; 10 lbs., \$3.00, nostnaid. postpaid.

Creeping Bent Grass

Especially suited for lawn and golf courses, being perfectly hardy, producing a dense velvety green carpet that withstands much trampling. Sow 1 lb. to 200 sq. ft. ½ lb. 80 cts.; lb., \$1.50; 3 lbs., \$4.20; 5 lbs., \$6.75; 10 lbs., \$12.50, postpaid.

Red or Creeping Fescue

Very hardy grass, well adapted to severe winter conditions. Does well on poor, sandy or acid soil, and thrives luxuriantly in shady places. Used extensively for golf and lawn purposes. Sow 1 lb. to 200 sq. ft. ½ lb., 35 cts.; lb., 60 cts.; 3 lbs., \$1.65; 5 lbs., \$2.50; 10 lbs., \$4.50, postpaid.

Sudan Grass

The most Wonderful Annual Grass ever introduced. 10 tons per acre has been produced from Our Pure Bred Northern Grown Seed. This is one crop where "Pure Seed" is the all important factor so we have been breeding our seed for several years and know it is much superior to the seed generally offered. 1/2 lb., 14 cts.; lb., 22 cts.; 3 lbs., 58 cts.; 5 lbs., 90 cts.; 10 lbs., \$1.60, postpaid.

Timothy and Alsike Mixture The Greatest of All Pasture and Hay Crops

The Greatest of All Pasture and Hay Crops

By far the best and cheapest seeding. On low bottom moist soils, where other grasses fail, this will give perfect satisfaction, and on upland it's amazing what wonderful crops you can raise.

By experimenting it was found that Alsike and Timothy made a combination that was excellent and ahead of anything yet discovered for hay and pasture. They blossom and the seed ripens together and are suited to the same soils. On low, moist lands, where other grasses would fail, they do especially well. They do well on any land where common grasses and clover grow.

One great advantage that is realized by a mixture of these grasses is the fact that they are both perennials and make a better combination than most any other two. When you once get them established they stay right with you, until you wish to break up the sod. They do not winter kill and are very hardy indeed. 1/2 lb., 17 cts.; lb., 30 cts.; 3 lbs., 85 cts.; 5 lbs., \$1.25, postpaid.

751 Condon's Timothy Seed

751 Pure Timothy

As a crop to cut for hay, Timothy is probably surpassed by no other grass now cultivated. If sown alone it requires 8 to 12 pounds per acre. It is usually sown with other grasses about one-half to one-third of the above amount. Can be sown in either fall or spring. Timothy Seed is one of our specialties. ½ lb., 15 ets.; lb., 25 cts.; 3 lbs., 65 cts.; 5 lbs., \$1.00, postpaid.

See Special Red List for Low Prices on Farm Seeds.

GRASSES

CONDON' "Sure Crop Hardy, Permanent LAWN GRASS Mixture

Beautify Your Home - Sow

731 One of Condon's Velvet Green Lawns

688 Bromus Inermis

Drought-defying, frost-resisting; yields enormous crops of splendid hay and affords early and abundant pasturage. Adapts itself to almost every condition of soil and climate to which grasses may be put, equaling in quality and rivaling in yield almost any other grass. It is an abundant producer of leaves and is much relished as pasture and hay. It is about equally nutritious with timothy. Sow in spring, 20 pounds per acre. ½ lb., 18 cts.; lb., 30 cts.; 3 lbs., 85 cts., postpaid.

731 CONDON'S Velvet Green Lawn See

Contains only the highest grade of grasse suitable for the purpose of making a beautiful durable, lasting lawn. Our Lawn Grass Seed germinates quickly, roots deeply. This enables it twithstand the intense heat of summer and the hard cold of winter, showing a beautiful, ric green from snow to snow. It contains no annuagrasses for making a quick show, to the detrimer of the permanent lawn, but has only those whice are lasting and hardy. When a lawn is once established from our seed, it lasts for years. From sit of eight weeks' time is all that is required to form a close, thick turf of rich velvety green. On pound sows 300 square feet very nicely. For perfect and enduring lawn of closely interwover firm, elastic turf, which will flourish under varie conditions of soil and climate, and show a lux uriant growth throughout the year, plant Condon' Velvet Green Lawn Grass Seed. ½ lb., 25 ets.; lb 45 cts.; 3 lbs., \$1.30; 5 lbs., \$2.00, postpaid.

732 Shady Place Mixture

On nearly all lawns there are shaded, bare and unsightly spots, on which the owners have difficulty in getting a stand of grass. For such place this mixture is adapted. It is composed of grasse which naturally grow in shaded places. They are the finest and most costly of all grasses. ½ 1b. 28 ets.; 1b., 50 ets.; 2 lbs., \$1.40; 5 lbs., \$2.15, posteried paid.

685 Kentucky Blue Grass

742 Red Top 735 Orchard Grass Best of All Grasses for Pasture Kentucky Blue Grass is the most popular of the light grasses. It thrives in all parts of the U. S., but generally remains dormant during extremes of summer and winter. Will continue to grow luxuriantly if plenty of rainfall is available during the summer months, and stays green and growing in winter until the ground is actually frozen.

the summer monay, and actually frozen.

One of the first grasses to start in the spring. Much relished by all kinds of stock, and succeeds on a great variety of soils, particularly on rich, moist lands. Fancy cleaned seeds (14 lbs. per bushel). ½ lb., 25 ets.; lb., 40 ets.; 3 lbs., \$1.15, postpaid.

735 Orchard Grass Admirable for Pasture or Mowing

A valuable grass for pasture or hay land, and on account of its earliness especially valuable for a permanent pasture. It furnishes green grass very early in the spring and until late in the fall. When closely cropped it grows up very quickly and is ready for grazing again in ten to twelve days. It is succulent and nutritious, furnishing excellent pasture or hay. When grown for hay, two good crops can be obtained in one season. ½ lb., 20 cts.; lb., 35 cts.; 3 lbs., \$1.00, postpaid.

742 Red Top or Herd Grass Excellent for Pasture and Lawn

Red Top is a perennial grass which grows from a few inches to five feet in height under varying conditions of soil and climate. But the average height is probably 18 to 20 inches.

Before the introduction of timothy, it was a chief reliance for hay. Since that time, is grown for pasture, alone or in mixtures where meadows are more or less permanent. It is now more highly esteemed as a pasture grass than a May plant, because of its power to endure, and because of the degree of its permanency, but in many areas it is still considered an important hay plant. 1/2 lb., 25 cts.; lb., 45 cts.; 3 lbs., \$1.20, postpaid. This is fancy solid refined silver seed.

744 English or Perennial Rye Grass Lasts for Years

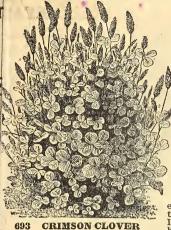

One of the best and most nutritious grasses for permanent meadows and posture.

One of the best and most nutritious grasses for permanent meadows and pasture. Endures close cropping, and recovers quickly after cutting. Does best in strong, rich soils; 14 lbs. per bushel. 1/2 lb., 18 cts.; 1b., 30 cts.; 3 lbs., 75 cts., postpaid.

For Low Prices on Otantity, See Red List.

With such a safeguard, can you afford to sow seed of unknown quality?

695 Medium Red or June Clover

cts.; 3 lbs., \$1.50, postpaid.

Mammoth Red Clover is quite distinct from Medium, being larger, of coarser and more robust growth, and two to three weeks later. It is also more hardy, stands frost better and is more permanent. On rich, loamy soils it attains an immense growth, yielding much more bulk than medium clover, but makes more bulk than medium clover, but makes only one crop, and pasture after that. It grows well on land too poor and on soil too low for Medium Red, and is, therefore, largely used to restore fertility to worn-out soil. It is particularly good for light soils where Medium will not do so well. ½ lb., 30 cts.; lb., 55 cts.; 3 lbs., \$1.56, particularly good for light soils where Medium will not do so well. ½ lb., 30 cts.; lb., 55 cts.; 3 lbs., \$1.56, particularly good for light soils where Medium will not do so well. ½ lb., 30 cts.; lb., 55 cts.; 3 lbs., \$1.56, particularly good for light soils where Medium will not do so well. ½ lb., 30 cts.; lb., 55 cts.; 3 lbs., \$1.56, particularly good for light soils where Medium Red Clover where Medium will not do so well.

postpaid.

692 Alsike, or Swedish Clover

Alsike seems to be especially adapted for the Northern States; it is a perennial clover and lives longer than Medium Red; it is also more hardy; in fact, it is the hardlest of all clovers; it does not heave out of the ground in Winter and the severest cold does not injure it and it resists the extremes of drought and wet. It is the only clover that will thrive on moist soil, but it will also grow fairly well in stiff clays. It is mostly grown in bottom lands and quite often mixed with Timothy; these varieties seem to be well adapted for this soil and ripen at the same time. ½ lb., 30 cts.; lb., 55 cts.; 3 lbs., \$1.50, post-naid. paid.

A low, close-growing Clover; round, white heads; very fragrant; best adapted to moist soils, but does well on dry land; excellent as an addition to mixtures for permanent meadows and pastures. For lawns it is also splendidly adapted; indeed, no lawn is considered "quite right" unless it contains a good sprinkling of this sweet, pure, white-blooming, low growing "soft as velvet," hardy White Dutch Clover. As a bee plant it is famous the world over, and there is no other plant which furnishes better and more honey. 1/2 lb., 35 cts.; lb., 60 cts.; 3 lbs., \$1.65, postpaid.

693 Crimson Clover or Giant Incarnate

South of the Ohio River this wonderful annual clover leads them all for hay, for pastures and fertilizer. Sow 15 pounds per acre in spring or fall. In the North sow in April, ready to cut and pasture July 10th. Every farmer ought to sow at least one acre for his hogs. IT'S A BIG MONEY MAKER. ½ lb., 18 cts.; lb., 30 cts.; 3 lbs., 75 cts., postpaid.

745 The Great Sand or Hairy Winter Vetch The Greatest Fertilizing Plant Known for Poor, Worn Out, Sandy Soil or Sick Clover Land

For pasture and hay crop fully equal to Alfalfa. Does better on poor, worn out soils than any other forage or legume crop. Sow in spring or fall, 30 pounds per acre, with half bushel Oats or Barley to hold vines off the ground. Highly relished by all classes of stock. ½ 1b., 22 cts.; 1b., 40 cts.; 3 lbs., \$1.05, postpaid.

Save money on farm seeds—See our Red List.

For Low Prices on farm seeds in quantities see Special Red List.

WINTER VETCH

COW PEAS Now Recognized as the Most Profitable Fertilizer and Hay Crop-Soils too Poor to Grow Clover Should be Sowed with Cow Peas

722 CONDON'S Extra Early Profilic

A select strain of the well known New Era Cow Peas, extremely early and hardy, maturing in 70 days. Enormous croppers. For all re-quirements this is the best. ½ 1b., 15 cts.; 1b., 25 cts.; 3 lbs., 65 cts., postbaild. postpaid.

723 Improved Whippoorwill

The Old Reliable: matures in 70 days; very productive; grown largely for fertilizer and pasture. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

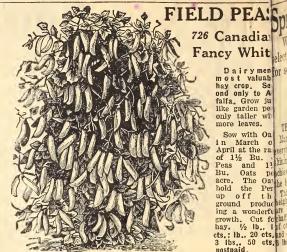

SOJA OR SOY **BEANS**

This valuable forage and fertilizing plant is similar to Clover in its habits of growth, but produces pods filled with nutritious beans, relished by all kinds of stock. Many farmers to whom this great bean has practically been unknown until late years were surprised at the revelations of their own experiments. With of their own experiments. With the exception of Alfalfa, Soy Beans have the highest Protein of any of the dried roughages.

784—A. K. matures 110 days.
785—Ito San—110 days.
786—Black Eye Brow—110 days.
783—Hollybrook—125 days.
790—Manchu—125 days.
788—Black Sable—125 days.
789—Mammoth Yellow—135 days. 784-A. K. matures 110 days.

Uniform price on all: ½ lb., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

Send your order now bigger and more profitable crops this year. or some of this Pure Bred Seed and grow bigger and more profitable crops this year.

SPRING WHEAT

754 New Marquis Beardless THE KING OF THE SPRING VARIETIES

Marquis is supreme, it outstrips anything and verything in wheat. It is a factor of its own phining forth in its greatness as the most wonderful chievement Agriculture has ever known. By far

the best variety for the corn belt.
This wheat has very stiff straw of medium beight, which does not lodge easily, the heads where bald and quite heavy, have smooth yellow haff; the kernels flinty, more round than those of other spring wheats, thicker and more plump, which of dark red color. 1/2 lb., 12 cts.; lb., 20 cts.; lbs., 50 cts., postpaid.

753 Minnesota No. 169 Blue Stem BEARDLESS SPRING WHEAT

Originated at the Minnesota Experimental Staion. It is a progeny of Haynes' Pedigree Blue stem, but much more productive. In quality it is qual to the best. 1/2 lb., 12 cts.; lb., 20 cts.; 3 lbs., 0 cts., postpaid.

755 Velvet Chaff Spring Wheat

This is an extremely hardy, bearded variety of wonderful productiveness, generally yielding at east 10 bu. more per acre than other kinds of Spring Wheat. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., i0 cts., postpaid.

BARLEY

580 Wisconsin Pedigree Bearded

The Sweepstakes Barley of the World
This is the barley that won First, Second, Third
and Fourth Prizes in the "Open to the World"
Contest at Omaha a few years ago, besides a number of special prizes. It was also awarded First,
the only prize offered, in "Barley in Sheaf, Open"
to the World."
Wisconsin Pedigran Parley in a calculation for

to the World."

Wisconsin Pedigree Barley is a selection from Oderbrucker and comes from the foremost state in the Union in the production of Barley. It is the result of many years' selection and breeding, starting with a single perfect stalk. ½ lb., 12 ets.; lb., 20 ets.; 3 lbs., 50 ets., postpaid.

679 Oderbrucker Barley

(Wisconsin No. 55) A heavy yielding and plump six-rowed variety, introduced in 1906 by the Wisconsin Agricultural Experiment Station. A large percentage of the Barley acreage in Wisconsin is now of this grain. Compared to Manshury, Oderbrucker has a stiffer straw, higher protein content and being a more vigorous grower is a better rust resister. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

743 Mammoth Spring Rye

A Most Profitable Crop
Quite different from Winter Rye; highly valued as a catch crop. It is not only more productive, but the grain is of finer quality, grown in any latitude. Straw is of special value as it stands 5 or 6 feet high, being better than that of Winter Rye and producing nearly four times as much straw as Oats. Produces 30 to 40 bushels of grain to the acre. As it does not stool like Winter Rye, not less than two bushels to the acre should be sown. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

FOR FALL SEEDING Write in August for our special prices on fall wheat, rye, etc.

746 Speltz or Emmer

Sow 11/2 to 2 Bu. per Acre

A valuable grain, closely related to wheat; the kernels, however, are tightly enclosed in the hulls or husk, and these adhere to the grain when it is threshed. Speltz is becoming more popular every year, as it produces good crops even under adverse circumstances where other grain fails. It withstands more dry weather than any other grain, and produces more food value per acre than any other cereal, while it is a most valuable feed for all kinds of stock. It can be fed to horses, the same as oats, with the hulls on Speltz can be grown on most any kind of soil rich or poor, wet or dry, as it will not lodge like other grain because of the stiff and strong straw, and will always bring the best returns. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 50 cts., postpaid.

OATS

738 Improved Swedish Select

Considered by many to be the most valuable oats raised in the Northwest today. It is known under other names, such as King Oscar, Wisconsin No. 4, etc. This was originally quite a late oat made early by growing it in the high altitude in which it was developed. It possesses striking features, the grain is short, plump, white, and very heavy, under favorable conditions averaging about 40 pounds to the measured bushel. Owing to its great root development it stands very high for its drought resisting qualities. At the Wisconsin Experiment Station it has stood at the head of the list for several years, having been distributed by that station as Wisconsin No. 4. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

739 Silver Mine

This oat has made for itself a reputation as an extraordinary heavy and reliable yielder. It is very hardy and prolific and yields beautiful white ker-

nels, which are especially desired.

The heads are very large in proportion to its stiff, bright, clean straw. ½ lb., 12 cts.; lb., 20

cts.; 3 lbs., 50 cts., postpaid.

736 Condon's White Bonanza

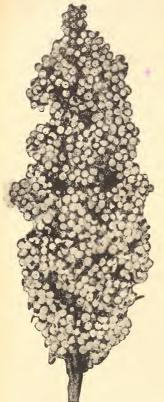

This year's experimental tests again prove our claim that "Condon's White Bonanza" is the Greatest All Around Oat of the country. It is extremely vigorous, stiff straw, not too heavy, stands up remarkably fine; in fact, during heavy windstorms this summer it proved big enough for the job. If you want something fine and reliable, sure to make you money, send your orders at once, as our supply is limited, owing to the advance orders already booked. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

737 White Kherson

One of the earliest oats in cultivation. It was introduced by the Experiment Station of Iowa, and has proved a success in that state, being naturally adapted to sections that are subject to drought. It is a vigorous but not rank grower, producing shorter straw than other varieties, with branching heads and very broad leaves. The berries are white in color, small, but numerous, and have a very thin hull. This oats usually weighs well per bushel, and in this respect, as well as in productiveness, it is one of the best of the early varieties.

Kherson surpassed them all for an early "Sure

Kherson surpassed them all for an early "Sure Cropper." This is the Boss Oat for seeding with Alfalfa or Sweet Clover. Our seed is pure and extra recleaned. ½ 1b., 12 cts.; 1b., 20 cts.; 3 lbs., 50 cts., postpaid.

724 Feterita

Special Poultry Foods Your Own

SUNFLOWER 750 Mammoth Russian

A small patch of cultivated sunflowers will produce a great quantity of the very best poultry feed for winter. Drill in rows, cut with a corn harvester, dry thoroughly and let the fowls do the threshing. If you can't spare land for cultivating, plant them in waste corners. ½ lb., 15 cts.; lb., 25 cts.; 3 lbs., 70 cts.; 5 lbs., \$1.10, postpaid.

BUCKWHEAT

Very profitable crop for milling purposes, to turn under for fertilizer, to smother out weeds; for poultry food, smother out weeds; for poultry food, and to produce second crop following rye and wheat. When ground makes excellent hog food. There are two distinct varieties, Giant Japanese and Silver Hulled. Japanese is the earliest variety in cultivation; therefore especially suited to Northern States or for second crop planting where season is short. Silver Hulled is later and a trifle more productive, having less waste in millproductive, having less waste in milling on account of seed having small hull; both make excellent pancake flour.

689 Giant Japanese

1/2 lb., 13 ets.; lb., 24 cts.; 3 lbs., 60 ets., postpaid.

690 Improved Silver Hull

1/2 lb., 13 ets.; lb., 24 ets.; 3 lbs., 60 ets., postpaid.

724 FETERITA

The great advantage Feterita has over Kaffir corn and all other plants of that class is its extreme earliness and great drought resisting qualities. Feterita is from 20 to 30 days earlier than Kaffir corn, makes excellent fodder and produces a large grain crop; in some instances it made an excellent yield of grain in the semi-arid regions without having received any rain from the time it was planted until it was harvested. ½ 1h., 12 cts.; 1h., 20 cts.; 3 lbs., 55 cts., postpaid.

728 MILO-MAIZE Forage Plant of Great Merit

Belongs to the Non-Saccharine Sorghums. It is pronounced the best and surest grain crop for dry countries and seasons, even better than Kaffir corn. It grows several smaller heads on side shoots, often as many as eight heads on a stalk. Very valuable for feeding stock and proves a gold mine for chicken feed. Plant five to ten pounds per acre. ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 55 cts., postpaid.

729 KAFFIR CORN One of the Best Forage Plants

Makes splendid feed for poultry, fed either in the grain or ground and cooked. Foliage and stalk make excellent forage. Cultivate the same as common corn, requiring four or five pounds of seed per acre ½ lb., 12 cts.; lb., 20 cts.; 3 lbs., 55 cts., postpaid.

BROOM CORN 686 Early Japanese

The earliest, best and most productive variety. Produces brush that is of the highest possible quality and always brings the top price. Early Japanese Broom Corn will produce a crop on any good Corn soil. ½ 1b., 18 cts.; 1b., 30 cts.; 3 lbs., 85 cts., postpaid.

687 IMPROVED SUPERIOR EVERGREEN

A variety for general cultivation on account of color and quality of brush. Ripens early. Grows about 8 to 10 feet high. Brush good length, fine and straight. ½ lb., 14 cts.; lb., 24 cts.; 3 lbs., 60 cts., post-

725 FLAX Primost (Minn. No. 25)

This is pure bred flax, Dakota grown and very high in oil contents. Every farmer should grow Flax Seed, the best stock tonic known. 15 cts.; 1b., 25 cts.; 3 lbs., 65 cts., postpaid.

750 Mammoth Russian Sunflower

Kaffir Corn

Milo Maize

703 The Greatest Ensilage Corn Ever Grown 40 Tons Per Acre Common Yield-70 Tons Have Actually Been Produced

A fine strain of ensilage corn, selected by ourselves, which has proved to be one of the nost valuable and largest yielding ensilage corns in cultivation. It grows very tall, ataining a height of 16 to 20 feet; is prolific in its nature, having from two to six ears to the talk, makes a heavy thick growth of fodder, and is altogether, in our opinion and in the pinion of those who have tested it, the best and most productive of ensilage corns. $\frac{1}{2}$ lb., 5 cts.; lb., 25 cts.; 3 lbs., 65 cts., postpaid. See wholesale list for prices in larger quantities.

Belvidere, Ill.

I just could not help writing you about our Silo King Corn. When I took the Corn out to the Farm my man said he would not plant it. He wanted home grown seed same as he had always used. I talked him into planting it, and when we filled our silo last week I wish you could have seen my man. He now takes all the credit. The neighbors who helped will all want some of this seed. We filled a 40 ft. silo with a little over half the acres that we used last year. We will have to have Silo King Corn next spring. FRED G. STALL.

706 Giant Red Cob Fodder Corn An Old Time Favorite

An Old Time Favorite

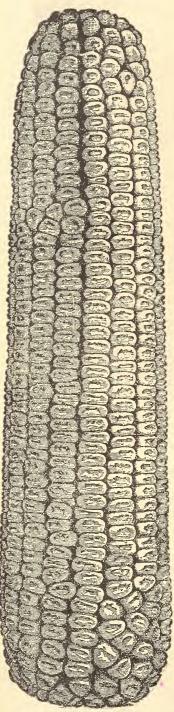

A tall growing southern variety which is very popular all over the country. In Canada it seems to have the preference over any other sort, peraps because it has been very widely grown and will produce a large tonnage in a short space of ime. It grows very tall and very leafy. The seed is white and grows on red cobs, thus giving it he name. ½ lb., 10 ets.; lb., 18 ets.; 3 lbs., 48 ets., postpaid. See wholesale list for larger quantities.

Diagno order by suppler as well as not produced to the suppler as well as not produced.

White Cob Ensilage Corn

A pure white Cob Ensilage Corn
A pure white Corn with a white cob of tall
growth, short joints and leafy, giving an abundance of fodder; sweet, tender and juicy, cropping
as high as 45 tons per acre. It is a popular standard variety which has a wide reputation all over
the country and may be successfully grown for
fodder in almost any latitude. Drill 1½ bushels
to the acre in rows 3½ ft. apart. ½ lb., 10 cts.;
lb., 18 cts.; 3 lbs., 48 cts., postpaid. See wholesale
list for prices in larger quantities.

Please order by number as well as names. It will help us to serve you quicker. In growing and breeding our seed corn we strive to produce the best, after which we add a fair profit for our labor. If you want something real good try a bushel or two.

717 Type Ear of Wisconsin No. 7

CONDON'S Pedigreed SEED CORN

715 "REID'S YELLOW DENT." Recognized as the largest yielder and the best feeding corn in cultivation. It's a prize winner for quality and yield when planted in localities south of Rockford and a wonder for ensilage in localities north of Rockford. Our seed it truly extra fine. Try it.

721 CONDON'S REGENERATED RED HACKBERRY. The Greatest Feeding Corn ever known. Extremely early, maturing in 90 days. Wonderful yielder, producing 83 bushels average last year The color is a rich dark red with occasional light caps; grains very deep and hackled; ears 10 to 12 inches long, very small cob—therefore extremely early. Safe to plant as far north as Central Wisconsin or Dakota. Don't fail to try at least a bushel of this wonderful corn.

705 "EARLY MURDOCK GOLDEN DENT," also called Wisconsing No. 13. The Murdock Golden Dent Corn has been awarded sweepstakes prizes twice for the northern zone, comprising the states of Minnesota, Wisconsin, North and South Dakota and Michigan, at the National Corn Expositions.

713 MINNESOTA No. 13 thoroughly matures in ninety days when planted on favorable soil and in a good location, but ninety-five to none hundred days places it out of danger under average conditions. It may be planted as late as the second week in June and yet safely mature a crop. Many varieties fail to do well when subjected to new conditions or require several years to become acclimated. Minsensota No. 13 Corn, however, will thrive and produce abundantly on almost any soil and will do remarkably well under adverse conditions when other varieties would fail entirely. Color, yellow.

717 "SILVER KING OR WISCONSIN NO. 7." This variety is the best white corn for any location. Not quite as large as some, but sure to mature. This variety originated in northern Iowa and was brought into Wisconsin and Michigan, where it developed wonderful crops.

704 "DAKOTA GOLDEN DENT CORN." This variety is all the name suggests—an extra early, beautiful yellow dent corn. The stalk is rather dwarf in its growth; the ears are fair size and well placed, sufficiently high above the ground to admit the use of a corn binder in harvesting the crop. Golden Dent is in demand with feeders who want something to be used as a starter for stock to be fed in the pastures during the fall. This variety will make good wears when closely planted in drills.

709 "IOWA SILVER MINE." This has been the standard white corn of Iowa, where it originated, for years. Grows large, producing good foliage and ears, average from nine to twelve inches long, very deep, pure white kernels. Considered fairly early, but takes from 110 to 120 days to mature.

708 "IOWA GOLD MINE." A splendid Yellow Dent variety. This corn is identical in appearance and habit of growth, in size of ear and earliness, and in productiveness, with the Iowa Silver Mine, and everyone who has tried it is enthusiastic in praise of this splendid variety.

720 "WIMPLE'S YELLOW DENT." A famous Dakota variety of corn. It originated with Mr. Wimple, a corn specialist of South Dakota, and is now largely planted over the corn belt and throughout the northern states. This variety, which has had a lot of careful breeding work put on it, is a bright yellow corn, with an average ear, producing kernels of unusual depth.

707 "GOLD STANDARD LEAMING." Leaming Corn is one of the 'oldest varieties on the market today. Was introduced away back in 1826. Has been bred up so the old parent would be ashamed of itself today. Ears average from nine to twelve inches; deep, broad yellow kernels, maturing in from 110 to 120 days. Very heavy foliage.

700 "BOONE COUNTY WHITE." The largest White Dent Corn grown, seldom matures in locality around Rockford, and is best suited to localities further south, where bumper crops are produced of large, deep white kernels. Makes a wonderful growth of fodder, and is used for ensilage by many in the northern states.

714 NORTHWESTERN DENT. The earliest Dent Corn of all. Known as Pony Dent and Smoky Dent. Northwestern Dent will mature in Northern Michigan, Wisconsin and Minnesota under ordinary conditions. A very satisfactory corn for "hogging off." Northwestern Dent can be relied upon year in and year out to produce a larger yield, better corn and mature more evenly than any of the other extra early varieties.

All the above Standard Varieties at the following Uniform Prices: ½ pound, 15c; pound, 25c; 3 pounds, 65c; postpaid. See wholesale list for prices on larger quantities.

GUARANTEE We grant you 10 days after arrival of your seed corn, to crit-ically test and examine it. If not up to your liking, ship it back at our expense and you will get your money refunded by No wrangling here. You are the judge; you don't take any char any chance buying of us.

01 Actual photograph of CONDON'S GOLDEN HARVEST. Best 100-day Yellow Dent

CONDON'S Golden Harvest

A splendid corn to sell in market on the ear. Will produce a satisfactory op with less favorable conditions than those required by Reid's Dent. In merous tests on both good and poor soil we have found that it responds good soil and cultivation with an immense yield; it will also produce more in with ordinary treatment than any other large-eared variety. The plant dieal, the stalk being about eight feet high with abundant broad leaves, and is so well rooted that it withstands wind storms extra well. It is comparately from barren stalks. Ears are borne uniformly at about four feet om the ground, high enough to get at the sun and air, low enough to be protected from wind storms and just right for husking. The shank is long, allowing the ear to droop when maturing, thus shedding the rain instead of holding in the husk, and, being small, it is very easy to break in husking, yet we will dom find an ear whipped off by the wind. The ears are large, 10 to 12 inches nig, nearly cylindrical, holding their size well to the end, are well rounded or large over at both ends and have that well groomed appearance of thoroughed corn. ed corn.

¹² CONDON'S Improved Golden Glow

A yellow dent variety of considerable prominence, individuality, immense prouctiveness, fine height, large superb ears, large kernels, small cob and attractive ppearance. It is a splendid variety for both light and heavy soils. Has strong pastitutional vigor. Matures in about 95 days.

A very early variety, maturing as far north as the central part of Wisconsin and the same latitude of Minnesota and South Dakota. It produces larger ears and is a heavier yielder than Wisconsin No. 8 and only a few days later, ripening about 95 days.

about 95 days.

habout 35 days.

The ears are of very attractive appearance, quite large, sixteen to eighteen owed, of symmetrical shape, well filled from butt to tip with good sized kernels f golden-yellow color, slightly rough on the outer end and free of flintiness. he stalks are about seven feet high, produce a large amount of foliage, making splendid fodder and silage corn.

Extra Early Snapping Flint Corn Ready to Snap for Hogs in 75 to 80 Days

Every farmer should have at least four or five acres for early fall feed. Iways hard and ready to feed when you need it badly. "Bill" Shaw, President f the Boone County Milk Dealers' Association, says: "Condon, I couldn't afford a farm without some flint corn. It's insurance against my main corn crop. ometimes I snap and feed it and other times I just turn in my hogs and let them rait on themselves, and, believe me, they clean it up fine."

710 IMPROVED YELLOW YANKEE. Particularly adapted to the Northern liddle States. One of the earliest and best known yellow flint varieties. The ars are well filled to the tips with good, rich, golden-yellow kernels. The stalks row five feet high and often produce two and three ears each. Will produce a ood crop if planted as late as July.

711 KING PHILLIP. This is an extra early red flint sort. The ears are ten 1ches long and eight-rowed. On poor land it does much better in yield than 10st other sorts. One of the very earliest field corns.

712 LONGFELLOW FLINT. A beautiful cob of rich, glossy yellow, and very ng—ten to fifteen inches. The stalks grow to the height of 7 to $7\frac{1}{2}$ feet, and he ears are borne about three feet from the ground. This is a favorite with hicken raisers in the middle corn belt.

716 SANFORD'S WHITE FLINT. This is one of the standard varieties of int corn and very popular. The ears are of unusual length, twelve to fifteen aches, smooth and symmetrical shape, of a flinty white color. Stalks grow very all, usually have two to three ears, and it is a splendid variety for fodder.

All the above Seed Corn at the following uniform price: ½ pound, 15 cts.; ound, 25 cts.; 3 pounds, 65 cts., postpaid.

Giant Crego Asters

Crego's Giant Asters are one of the most popular types of all Asters. The flowers are of immense size, usually measuring 4 to 5 inches in diameter and they are quite thick through the center. The petals of the flowers are most attractively curved and twisted, resembling in looseness an ostrich feather. The flowers are double to the very center. They are borne on long and strong stems measuring 12 or more inches in length. The plants are of sturdy branching habit, growing 2 to $2\frac{1}{2}$ feet high. Crego's Giant Asters are a midseason type. Valued for their immense freedom of bloom and their artistic appearance.

2103 Candytuft Empress or Giant White Hyacinth

Centrosema

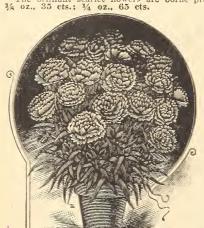

2108 Canna (Indian Shot Plant) Annual Crozy's Large Flowering Choicest Mixed

Very showy plants, having large tropical foliage surmounted by handsome spikes of blooms in many glowing colors. Fine plants can be easily raised from seed started in pots indoors during March and set in the open during May. To encourage quick germination of the large hard seed, it is advisable to clip a small part of the outer seed coat with a sharp penknife. Filing away part of the hard shell, but just enough to make a small hole in the hard coat, will serve the same purpose, or soak the seed in tepid water for a day or two previous to planting out. The roots must be lifted in the fall and stored in dry soil in a cool but frost-proof place. These vary in color, ranging through all shades of yellow and orange to richest crimson, scarlet and vermillon. Some plain; some spotted. Our mixture contains only the best. Pkt., 10c; ½ oz., 25c; oz., 40c. Canna plants are listed on page 140.

2111 Cardinal Climber (Ipomoea cardinalis)

A splendid, new, brilliant climber of great value. A strong and rapid grower, attaining a height of 20 to 30 feet with beautiful deeply laciniated leaves and just covered with intense cardinal red flowers from midsummer till frost. Flowers measure 1½ to 2 inches across and are borne in clusters of 5 to 7 blooms each. The leaves resemble those of a fine Japanese Maple. They cover the vines completely and give good shade, admitting, however, plenty of air when planted on the porch.

The brilliant scarlet flowers are borne profusely. Pkt., 10 cts.; 2, 0z., 35 cts.; 1,4 0z., 65 cts.

Carnation Marguerite

2114 Carnation

(Giant Flowering Marguerite)

Flower in 3 or 4 Months from Seed

These lovely, fragrant Carnations produce fine double flowers which often measure three inches across. The variety of color includes white, blush, deep pink, salmon, carmine, scarlet, dark crimson, maroon and many beautifully variegated flowers. Most of them have beautifully fringed petals and are delightfully fragrant. Superb Mixed. Pkt., 10c; 1/8 oz., 40e; 1/4 oz., 65c.

2117 Centrosema Perennial Climber

Grandiflora Butterfly Pea Sometimes Called "Look at Me"

A hardy vine of rape and exquisite beaut which blooms early in June from seeds so in April, and bears in the greatest profusi inverted, pea-shaped flowers, and ranging color from rosy violet to reddish purple, with a broad feathered white marking through the center, while the large buds and the back of the flowers are pure white. The steand foliage are very graceful and of a dlightful odor. PRt., 15c; 1/4 oz., 50c.

2148 Cineraria (House Culture) Large Flowering Choicest Mixed

Cinerarias are truly beautiful, with their bright colors and delite fragrance. If plants are wanted for blooming around Christast time, the seed should be sown during April. For blooming ring early spring, June or July sowing should be made. Sow the seed in shallow pans or boxes containing a fine, irly sandy soil. Sow the small seeds thinly and barely cover the very fine soil which should be carefully run through a hall meshed sieve. Keep shaded and moist until the seedlings pear. Transplant as soon as they are large enough to be indied.

HYBRIDA GRANDIFLORA, See illustration. This large-owered strain of Cineraria is unsurpassed in size of flowers, ontains a wide range of beautiful colors, some with a large hite eye. Pkt., 35 cts.

2100 Canary Bird Flower

Annual Climber

Beautiful climber, the charming little canary-colored blossom bearing a fancied resemblance to a bird with its wings half expanded. The plant has a luxuriant, rambling character, and if seeds are planted by the side of arbor or trellis will run about twenty feet, and will blossom from July until frost. Pkt., 10 cts.; oz., 25 cts.

2120 Chinese Woolflower Celosia

Deep Crimson Scarlet

Plants grow two to three feet high, the blooms starting early, with a central globular head which often reaches the immense size of two feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage so that a plant looks like an immense bouquet sphendidly arranged and set in the ground. None of the blooms fade in any way until hit by frost, but all continue to expand and gold with a deepening richness of color, a deep crimson-scarlet. Flowers, when cut in a fresh state and carefully dried retain their shape and brilliant color and are useful for winter decorating, like everlastings. Pkt., 10 cts.; 1/2 oz., 50 cts.; 1/4 oz., 90 cts.

2151 Clarkia

Double and Single Mixed

Annual

Clarkia is one of our easiest grown annuals, developing to perfection in a cool climate.
The plants grow quickly and are in full bloom from 5 to 6 weeks after planting. The plants make a branching growth and bloom very freely. The flowers are borne on long stems and are very fine for cutting. Clarkias, on account of their bright colors, are excellent for mass planting. The mixture contains rosy purple, mixture contains rosy purple, rose, salmon, white, and many other delicate shades in a complete and harmonious assortment. Sow the seed thinly and barely cover from view early in the spring. When the plants are about an inch tall thin to stand 4 to 5 inches apart. Pkt., 10 ets.; ½ oz., 30 ets.; ½ oz., 50 ets.

2157 Cobaea Scandens

[Cathedral Bells] Annual Climbe

Cathedral Bells Annual Climbe
Of very rapid growth, 10 to 20 fe
tall. In our northern climate the seed shot
be started indoors and the plants set o
when the nights have become quite war
The young flowers are light green, changi
to rose-purple as they open up fully. Th
are quite large, borne on long stems and
bell shape. In warmer sections it will li
outdoors for many years. To encourage
even and quick germination press the fl
seeds edgewise into the soil so that the upp
edge comes even with the soil surface,
is a good climber for covering tall unsight
fences or garden houses where plenty of sha
is wanted. Equally as fine for providi
shade for the porch. Pkt., 10 cts.; ½ oz., 40 cts.; oz., 60 cts.

Annual

Forms dens bushes, about 2 fee high, and produce throughout th summer beautift flowers in shades of orange and yellow to the darkest vel vety brown. Recommended for cutting, borders, flow ering hedges an pot culture. Pkt flowers in shades o 10 cts.; ¼ oz., 2 cts.; ½ oz., 40 cts. oz., 70 cts.

2151 Clarkia

2145 Chrysanthemum Annual Coronarium Double Mixed

The Annual Chrysanthemums do best where the weather remains reasonably cool during the summer. They are easily grown. The flowers appear within ten weeks after the seeds are sown, if planted early in the spring as soon as the ground can be prepared. Blooms continuously from June until September. For fall blooming, sow during June and thin to stand 12 to 15 inches apart in the row. A very fine garden variety including a wide range of colors such as white, rose, sulphuryellow, golden yellow, orange, red, and maroon; 18 inches tall. Pkt., 10 cts.; ½ oz., 25 cts.; ½ oz., 40 cts.

NOTICE: We give Free Premium Seeds with every order.

Condon's Beautiful Centaurea Imperialis

(Royal Sweet Sultans-Annuals)

This beautiful class is undoubtedly the finest of all Sweet Sultans for cut-flower purposes. The charming, sweet-scented, artistic-shaped The charming, sweet-scented, artistic-snaped flowers are borne on long, strong stems and when cut will stand for several days in good condition. It is best, in this latitude, to sow very early in the spring, so that they may perfect their flowers before very hot weather comes. We offer the following distinct colors:

2133 Giant White New Marguerite.

2134 Giant Deep Lavender.

ns

2135 Giant Brilliant Rose.

2130 Giant Amaranthus—New Red.

2137 Giant Finest Mixed-All Colors.

Any and all the above Centaureas. Pkt., 10 cts.; ¼ oz., 25 cts.; ½ oz., 40 cts.; oz., 70 cts.

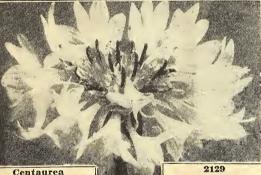

Dusty Millers or White Leaved Centaureas—House

Fine for bedding, vases, hanging baskets and pots; also extensively used for margins. As an edging to a bed of dark-leaved Cannas or Scarlet Sage these are particularly effective. Sow the seed early indoors, and transplant in May.

2141 Candidissima. Silvery white; leaves broadly cut.

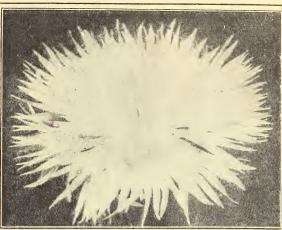

Pkt., 10 cts.; ½ 62., 25 cts.; ½ 62., 40 cts.

2142 Gymnocarpa. Fine cut silvery foliage; 1½ fect. Pkt., 10 cts.; ¼ oz., 35 cts.; ½ oz., 55 cts.

Cyanus Bachelor Button

Double Minata

2133 Centaurea Imperialis—Giaut White New Marguerite

Centaurea - Cyanus or Bachelor Button (Annual)

These are also known as Bachelor's Buttons, Blue Bottle, Ragged Sailor, Bluet and sometimes as Ragged Robin. They are well known to every flower lover and always included in old-fashioned gardens. We have discarded the old single-flowering type, the improved double-flowering sorts offered below being much better in every way.

2126 Double Blue. It is identical in color to the single blue variety, but, being a full, double flower, it takes fewer of them to make a nice bunch.

2129 Double Minata Pink. A splendid variety for cutting; color clear rose-pink.

2127 Double White. Densely double pure white.

2128 Double Minata Brick-red. Very attractive.

2125 Double, Mixed. A complete mixture of the above and other fine double Cornflowers.

Any and all the above Bachelor Buttons. Pkt., 10 cts.; ½ cz., 30 cts.; cz., 50 cts.

2130 SPECIAL OFFER-5 separate Bachelor Buttons. ONLY 40c postpaid.

Columbine—Aquilegia

Hardy Perennial

No hardy plant grown from seed is more easily handled than the Columbine.

Seed may be sown in the open ground early in spring, and will, in some cases, bloom the same season; or they may be planted in August or September, and will come up early in spring and make vigorous plants, which will bloom abundantly during late spring and early summer.

Columbines should be planted wherever their presence will serve to lighten up a too stiff and formal planting, for no other plant has so airy a grace as the Columbine, is more generous of its blooms, or more effectively adapted for cut flowers.

2167 Condon's Prize Double Mixed.

Pkt., 10 cts.; 1/8 oz., 25 cts.; 1/4 oz., 40 cts.

2168 Condon's Prize Single Mixed.

Pkt., 10 cts.; 1/8 oz., 20 cts.; 1/4 oz., 35 cts.

CONDON'S Long Spurred Columbine

While all the varieties of Columbines are beautiful and much admired, this strain is unquestionably the finest yet produced. The plants are of strong thrifty growth with flowers of largest size, varying in cofor through charming tones of cream, pluk, lavender, blue, white, red, etc.

2166 Choicest Mixed Long Spurred.

Pkt., 15 cts.; 1/8 oz., 40 cts.; 1/4 oz., 65 cts.

2166 Columbine-Long Spurred

Cosmos Condon's True **Mammoth Early Flowering**

The single flowers, borne in abundance on long and graceful stems, are 4 to 5 inches across. Seeds sown out of doors in early spring produce plants that will bloom in 60 to 70 days, and continue until killed by frosts. The earliest single flowering strain we know of, being two months ahead of all others, which will be appreciated by those in the northern states.

2172 Mammoth Flowering Crimson

A rich and most attractive shade of crimson. The plants are a mass of blooms during the fall. Pkt., 10 cts.; ¼ oz., 20 cts.; ½ oz., 30 cts.; oz., 50 cts.

2174 Mammoth Flowering White

A clear waxy white form. The blooms are well rounded, composed of broad, well-expanded petals. Pkt., 10 cts.; ½ oz., 20 cts.; ½ oz., 30 cts.; oz., 50 cts.

2173 Mammoth Flowering Rose Pink

Lovely rose pink flowers 3½ to 4½ inches across. This is a particularly popular color and gives an excellent cut-flower. Pkt, 10 cts.; ¼ oz., 20 cts.; ½ oz., 30 cts.; oz., 50 cts.

2171 **Mammoth Flowering Prize Mixed**

Contains the right proportion of the three colors offered above and many others. Pkt., 10 cts.; ¼ oz., 20 cts.; ½ oz., 30 cts.; oz., 50 cts.

Special Offer 2177

One packet each of the Six Beautiful varieties of Cosmos listed for only 40 cts., postpaid.

In this variety the flowers are large, but in place of the yellow center they have a double center which stands up like a cushion. The outer row or crest is made up of broad ray petals. This is the best of all Cosmos for cut-flowers as the blooms last a long time in water. The flowers vary in their degree of doubleness, some having the anemone center and others perfectly double. Most artistic and beautiful in either form. Pkt., 10 cts.; 1/4 oz., 60 cts.; 1/2 oz., 90 cts.; 0z., \$1.45.

2176 Mammoth Late Flowering Choicest Mixed

The late flowering strain of Cosmos has flowers of immense size, measuring close to 4 inches in diameter. The plants begin blooming ten days to two weeks after the early flowering varieties, and make a most magnificent show in any garden until cut down by frost. This mixture is very fine. Pkt., 10 cts.; 1/4 02., 20 cts.; 20 cts.; 20 cts.; 50 cts.

2174 Mammoth White Cosmos

2160 Coleus

2160 Coleus

Finest Mixed

House Culture

Coleus is very highly valued on account of its brilliantly colored foliage. It may be planted outdoors in well-prepared beds or may be grown as pot plants. The plants are easily grown and can be had in good condition throughout the winter. They do not develop their best coloring unless they have a sunny position. Grown in the open the soil should not be too rich. During the summer months the plants should be watered regularly. It may be planted

tered regularly.
Start the seed indoors Start the seed indoors in boxes during February or March, covering with one-quarter inch of fine soil. As soon as the plants are about one-half inch tall transplant to small pots. Set in the open when the trees are in full leaf and the nights are quite warm. Condon's Finest Mixture. Pkt., 15 cts.

2163 Coix Lachrymae Job's Tears (Annual)

A pretty, ornamental grass, with broad, corn-like leaves and hard shining seeds of peculiar appearance, giving the plant its name. The seed is frequently used as an old-fashioned remedy for sore throat, goiter and teething babies. They are strung on a linen thread and strung on a linen thread and worn around the neck as a chain. Pkt., 10 cts.; oz., 20

Cypress Vine (Ipomoea Quamoclit) All Colors Choicest Mixed

Annual Climber

A slender climber of quick growth, having small, finely divided dark green foliage. The vines are thickly starred with small, brightly colored flowers. Very desirable for small ornamental trellises or wire supports. Cypress Vine requires a warm sunny situation to grow luxuriantly. The soil best suited should be fairly sandy, contain a fair amount of humus, and be rich in lime. It may be grown in porch or window boxes to climb up on a trellis. The seed should be sown when the trees are starting out in leaf, or farther North may be started in boxes in March to be planted in the garden when the trees are out in leaf and the nights have become quite warm. All colors choicest mixed. Pkt., 10 cts.; ½ oz., 25 cts.; oz., 45 cts.

2154 Cleome Pungens Spider Plant

2154 Cleome Pungens Giant Spider Plant Annual

Cuclamen

Most Beautiful

House Plant

Annual

The plants make a quick growth, 4 to 5 feet tail. They are most attractive and useful for planting in the border, to separate the vegetables from the flower garden, or to hide unsightly walls or fences.

The plants thrive in a warm sunny location and in soil which is moderately rich and sandy. The Spider Plant does well in pots in the house. The habit of the plants is bushlike and well rounded, with a profusion of flowers borne freely from July until frost.

The blooms are most curious in construction, with long, feathery petals standing far apart. The long, narrow, protruding stamens add to the quaintness of the flowers. After the flowers drop off they are succeeded by long seed-pods on slender stems, giving the effect of a many-legged spider with a bunch of flowers at the top. Many colors mixed. Pkt., 10 cts.; '4 oz., 25 cts.

They are showy, free flowering, and do well in shaded locations. The flowers measure 4 inches in dlameter and are borne with the greatest freedom, surrounded by rich dark green velvety leaves. Pkt., 25c.

2268 GLOXINIA CHOICE HYBRIDS

2261 LADY WASHINGTON GERANIUM

2255 GAILLARDIA SINGLE PICTA

Gaillardia

Blanket Flower (Annual)

Gaillardias are exceptionally fine for beds, borders, and for cutting. They are most showy, with their large flowers of bright colors; 15 inches tall. Gaillardias do best if planted in a porous, rather sandy soil, and where they will receive plenty of sunlight. Sow the seed thinly when the maples are coming into leaf, covering with ½ inch of fine soil, or start the seed indoors the middle of March.

2255 Picta Single Mixed

A wide range of colors, including yellow, scarlet. crimson, and mahogany. Wonderful in beds or borders or for cut-flowers. Pkt., 10c; 1/4 oz., 25c; 1/2 oz., 40c.

2256 Picta Double Mixed

Double flowers in rich shades of crimson, garnet, lemon, orange, etc. Mixed; are variously and gayly colored. Pkt., 10c; 1/4 oz., 25c; 1/2 oz., 40c.

2257 Grandiflora

Perennial Hybrids

Beautiful large flowers with yellow tips and crimson centers. Excellent for cutting. The plants grow 2 feet tall and thrive where they get the full sun. Blooms freely and continuously during late spring and summer. Pkt., 10c; % oz., 25c; ¼ oz., 40c; ½ oz., 60c.

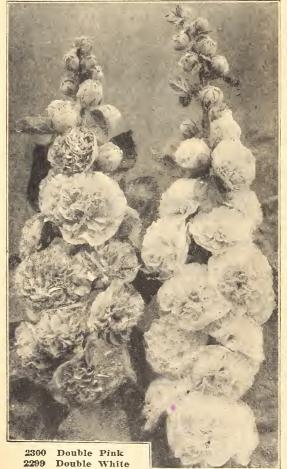

2274 Gourds-Ornamental Mixed

2291 Heliotrope (House Culture)

Finest Mixed Giant Hybrids

Everyone loves the delightful fragrance and beauty of the Heliotrope, but few know that it can be raised from seed as easily as the Verbena. To insure a long period of bloom, the seed should be sown indoors during February and the plants set out in rich, well-prepared soil when the maples are in full leaf. Flower-heads of great size and immense beauty, measuring 6 to 12 inches across. Their fragrance is delightful and pronounced. The colors range from white through shades of blue and violet. Pkt., 10 cts.; ½ 02. 50 cts.; ½ 02., 51.20.

2274 Gourds—Ornamental Mixed

Annual Climber

The growth is quick and foliage pretty. These gourd are of various shapes and colors; some large, some small All are hard-shelled and will keep for years. Grow 1 to 30 feet high. Excellent for covering porches, walk outbuildings and waste places. The small gourds an excellent toys for children, while the larger ones may be used as bowls, dippers, sugar troughs, etc. Pkt., 1 cts.; oz., 25 cts.

2278 Grasses Ornamental

Mixed Many Kinds (Annual)

Ornamental Grasses should be grown for garden decoration and for win ter bouquets. For winter use it is very important that the stalks are cue arly in the morning while they are still wet with dew. They are the placed in a cool, dry, and airy room in their natural position until the are perfectly dry. Pkt., 10 cts.; ½ oz., 20 cts.; ¼ oz., 30 cts.; ½ oz. 50 cts.; oz., 75 cts.

Hollyhocks (Perennial)

Here is a perennial that indeed needs little description as it has been a great favorite for many years. Of strong habit, growing 6 to 8 feet in height. The flowers measure 3 to 4 inches in diameter. Hollyhocks should be sown any time from early spring until early August. The magnificent flower-spikes make a wonderful display during June and July.

2297 Double Crimson

A deep rich crimson shade, very fine. Pkt., 10 cts.; 1/4 oz., 40 cts.; 1/2 oz., 60 cts.; oz., \$1.00.

2298 Double Yellow

An exquisite and fine large deep yellow. Pkt., 10 cts.; ½ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2299 Double White

Waxlike petals, double white like a rose. Pkt., 10 cts.; 1/4 oz., 40 cts.; 1/2 oz., 60 cts.; oz., \$1.00.

2300 Double Pink

A very attractive shade of pink, color clear. Pkt., 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2301 Double Salmon

A very fine variety, attractive colors, large and fully double. Pkt., 10 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., \$1.00.

2296 Double Mixed

All the above colors and many others. A fine mixture of many shades. Pkt., 10 cts.; ¼ oz., 35 cts.; ½ oz., 50 cts.; oz., 90 cts.

2295 Annual Hollyhock Condon's Giant Prize Double Mixed

Blooms First Year from Seed When Sown Early
These are the largest flowered and most perfectly
double Hollyhocks we have been able to produce
after many years of the most painstaking selection of only the best varieties. The colors are
rich and brilliant. Pkt., 10 cts.; 1/4 oz., 40 cts.; 1/2
oz., 60 cts.; oz., \$1.00.

2304 Humulus

2307 Ice Plant

2304 JAPANESE HOP (Japonicus)—One of the most rapid elimbers grown. Seed can be sown in the open ground in spring and it will attain enormous dimensions very quickly. The foliage is luxuriant and it is one of the best plants for covering verandas and trellises. Pkt., 10c; ½ oz., 30c; oz., 50c.

2307 Ice Plant (Annual Trailer)

(MESEMBRYANTHEMUM)

A singular plant of spreading habit, and very effective in beds, rockwork or hanging baskets, etc. The plants have a peculiar icy foliage, and the sun gives to them the appearance of being covered with icy crystals. The flowers are white and pink. Pkt., 10c; ½ oz., 25c.

Helichrysum Monstrosum Strawflowers

Annual Everlasting

Easy to grow and do well under the most varied condi-tions of weather and soil. They do best if planted where they get sunlight all day long. A porous and moderately most soil which is fairly rich produces the finest plants and largest flowers.

(Japanese Hop) Sow the seed outdoors when the maples are coming into leaf in rows 12 inches apart, and cover with ¼ inch of fine soil. The seeds will germinate in about 2 weeks after planting, and when the young plants are about 2 inches tall it is best to thin them so that they will stand 10 to 12 inches apart in the row. For extra-early flowering the seeds can be started indoors in shallow boxes about the end of March or early in April. The plants make a strong upright growth from 2 to 3 feet tall and bloom profusely during late summer and fall.

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cut-flowers, but also because they can be dried for winter bouquets. Cut the flowers early in the morning while the dew is still on them, and hang them heads down in a cool, shady, and airy place until thoroughly dry.

Fire Ball is a popular variety mainly because of the richness and brightness of its blooms. They are an intense and vivid crimson. The flowers are large and well formed. The brilliancy of the color is retained well in the dried flowers. Pkt., 10c; 1/8 02., 25c; 1/4 02., 40c; 1/2 02., 60c.

A well-named variety since the flowers are of almost ball shape and of a rich golden yellow color. They are borne profusely on strong robust plants. Particularly fine. Pkt., 10c; 1/2 oz., 25c; 1/4 oz., 40c; 1/2 oz., 60c.

2283 Rose Queen (Strawflowers)

The color of this distinct variety is a bright and cheerful rose, a shade that is always greatly admired. Rose Queen deserves a place in every garden. The blooms are of remarkable size and good form. The petals are large, well expanded, and lie closely together, forming a double flower which never shows a yellow center. Pkt., 10c; % oz., 25c; % oz., 40c; % oz., 60c.

2284 **Salmon Queen** (Strawflowers)

The lovers of delicate shades will appreciate this fine variety because of the soft salmon color of the flowers. A robust, free-flowering variety. Pkt., 10c; 1/2 0z., 25c; 1/4 0z., 40c; 1/2 0z., 60c.

2285 Violet Queen (Strawflowers)

As the name implies, this variety has violet flowers. The color is rich and intense. Violet Queen is a variety of recent introduction, but it has quickly become of the most favorite of all Strawflowers. The dried blooms show up particularly rich and life-like. Pkt., IOC: 1/8 0z., 25c: 1/4 0z., 4Oc: 1/2 0z., 6Oc.

2286 Snowball (Strawflowers)
Snowball is a favorite on account of its pure white flowers. Is grown extensively by those who make a business of growing Strawflowers for winter bouquets. The reason for this is that Snowball is most easily dyed to any desired color. The blooms are of largest size and quite double. Pkt., 10c; % oz., 25c; % oz., 40c; % oz., 60c.

2287 Finest Mixed (Strawflowers)

Includes all above fine colors described. Those who have not room enough to grow the separate colors will get a fine display from this mixture. Pkt., 10c; % 0z., 25c; % 0z., 40c; % 0z., 60c.

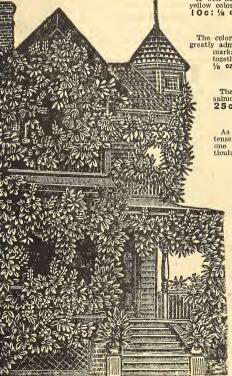

One packet each of the 2288 Special Offer: 7 separate varieties of Strawflowers for only 50c Postpaid.

2310 Japanese Kudzu Vine

Pueraria Thunbergiana Perennial Climber

"Jack and the Bean Stalk." The blossoms are large and in panicles somewhat like wistaria, but larger in size and with better clusters. The color is of a pleasing shade of purple. The foliage is luxuriant, somewhat like the leaf of a bean. The vine is extremely rapid and dense in growth, making the Japaness Kudzu or "Jack and the Bean Stalk" vine of great value where a quickly produced shade is wanted. From established roots, this vine will attain a length of 40 to 50 feet in one season. It will even flourish where nothing else will grow. It is perfectly hardy, increasing in size and beauty year after year. An ornamental and rapid growing climber. Pkt., 10c; ¼ oz., 25c; oz., 75c.

2310 JAPANESE KUDZU VINE (Jack and the Bean Stalk Vine)

2313 Lantana (House Culture)

Hybrids Choice Mixed

Shrubby plant, 1 to 3 feet high, bearing flowers of various shades and colors, Especially adapted to greenhouse or window culture, though thriving nicely in the open. Flowers large and verbenalike. All shades of pink, red, orange, yellow, orange-scarlet and white, Finest hybrids. Mixed, Pkt., 10 cts.; 1/4 oz., 20 cts.; 1/2 oz., 30 cts.; oz., 50 cts.

2331 Lobelia (Annual)

Compacta Sky Blue

Lobelias bloom very quickly from seed and the small bushes are fairly sheeted with flowers throughout the season. Very desirable for edgings, borders or pot culture. Rich, deep blue with dark foliage. The finest for bedding, Pkt., 10 cts.; //8 oz., 40 cts.

Choice pink and white shades mixed, Mallows are showy and effective plants covered during the entire summer with bloom. For large borders and cutting they are very desirable. Color, pink and white. Pkt., 10 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.

Larkspur

(Annual)

Quick-growing and free-flow-ering annuals which produce stiffly erect spikes of beautiful flowers in great profusion. They are strictly annuals, being dis-tinct from **Delphinium**. Very showy and easily cultivated. The plants do best in cool and moist ground. Larkspurs are admirably adapted for beds or borders, but they are also very useful for cutting. Easily grown for winter bloom-ing in the greenhouse.

2316 Dark Blue

Dark blue flowers of large size, set so closely on the stem as to form a solid spike of color. Blooms freely and continuously for many weeks. Pkt., 10 cts.; 1/4 oz., 30 cts.; 1/2 oz., 45 cts.

2317 Scarlet Rose

The plants are of fine, strong upright growth bearing long spikes closely set with bright rose flowers. This color is particularly attractive. Pkt., 10 cts.; 1/2 oz., 30 cts.; 1/2 oz., 45 cts.

2318 Violet

A rich shade of violet. The flowers are large and, being closely set on the flower-stem, make an attractive and heavy spike. Always very double. Pkt., 10 cts.; 1/4 02., 30 cts.; 1/2 02., 45 cts.

2319 White

Pure snow-white elegant flowers set closely on long and stately spikes. The light green foliage is also attractive. Pkt., 10 cts.; ½ oz., 30 cts.; ½ oz., 45 cts.

2320 Exquisite Pink

A most appealing bright pink with large blooms closely set on fine spikes. An ex-quisite variety. Pkt., 10 cts.; ½ oz., 30 cts.; ½ oz., 45 cts.

2321 Condon's Special Mixture

This fine mixture comprises all the above and other fine shades. Pkt., 10 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.

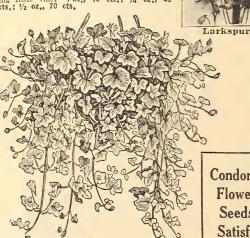

2322 Special Offer

One packet each of the six wonderful Larkspurs for only 40 cts., postpaid.

2328 Linaria

(KENILWORTH IVY) Hardy Perennial Trailer

Coliseum Ivy. Mother of thousands. A widely loved, hardy, perennial trailing plant, with small lavender and purple flowers. For baskets, vases and rockeries. A charming little vine. Pkt., 10 cts.; 1/4 oz., 45 cts.; 1/2 oz., 70 cts.

Linaria or Kenilworth Ivy 2328

Condon's Flower Seeds Satisfy

Please order by number as well as names. It will help us to serve you quicker.

2334 Lupinus Choicest Mixed (Annual)

Free flowering, easily grown annuals, with long, graceful spikes of rich and rious colored pea-shaped flowers; valuable for mixed borders, beds and for cut-g; prefers a little shade. Pkt., 10 cts.; oz., 25 cts.

2337 Malope (Mallow-Wort) Choice Mixed Annual

Showy plants for large mixed flower and shrubbery borders. The flowers are large and handsome. Color, white and rose. Pkt., 10 cts.; 1/4 oz., 40 cts.

2358 Mimosa Sensitive Plant

(Annual)

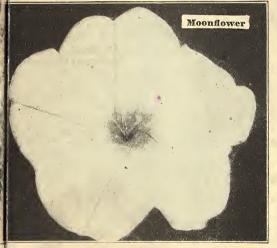

2334 Lupinus

The plant is most interesting. When subjected to a strong draft, or touched, the leaves fold up and droop. After a short period of rest they regain their original position. The flowers are small, and carried on the ends of the stems they form ball-shaped, feathery heads of a light rose color. Pkt., 10 ets.; ¼ oz., 30 ets.

2372 Imperial Japanese Morning Glory

NASTURTIUMS

(Annual)

For summer display in large or small beds, nothing can surpass Nasturtiums. They start to bloom early and keep up a continuous display of bright colored flowers until hard frost in fall. Nasturtiums are much used for table decoration. Of the easiest culture, succeeding practically anywhere, blooming most freely on lighter soil.

The Dwarf or Tom Thumb sorts make the most beautiful bedding and border plants, growing about one foot high, while the tall or climbing kinds are invaluable for covering unsightly railings, very fine for hanging baskets and vases, and are also equally beautiful if simply grown trailing over the ground. The tall sorts produce the largest flowers.

2376 Condon's Gorgeous **Dwarf Mixture**

We take great pride in this mixture of Dwarf Nasturtiums which is composed of the very finest large-flowering Dwarf Nasturtiums in existence. The color range of the flowers is magnificent, taking all shades. Pkt. 10 cts.; 0z., 18 cts.; ½ lb., 80 cts.; lb., \$1.50.

2386 Flowering Tobacco

CONDON'S "Unsurpassable" GIANT PANSIES

Pansies are easily grown and bloom profusely for many months. Sow the seed indoors early in March or outdoors as early as the ground can be prepared into a fine loose condition. If sown during August, the plants will begin blooming very early the following spring.

2400 Condon's Giant Flowered Prize Mixed Pansy

CONDON'S Pansies are Unsurpassable Giant Flowered Admired by all Flower Lovers for their Large Size and Beautiful Markings

2400 Condon's Giant Flowered Prize Mixture

A carefully prepared mixture of all the richest, handsomest and largest pansies known to the horticultural world. Year by year we watch the production of American and European specialists, and secure everything meritorious for incorporation into our prize mixture. Pansy seed is a very high priced commodity and it is next to impossible for anybody to buy all the new sorts on the market; but all the types that are really desirable will be found in Condon's Prize Mixture. People who sow this strain in good soil may look for blossoms 3 to 3½ inches across, of perfect texture, and in full range of color. Every plant will prove to have royal blood in its veins. See cut. Pkt., 12 cts.; ½ oz., 85 cts.; ½ oz., 81.45; ½ oz., 82.75; oz., \$5.00.

Pansies in Separate Colors

2393 Giant Golden Queen

The petals are a pure golden yellow. The flowers are borne profusely and are most attractive either in beds or borders. The beautiful flowers combine large size with good form and exquisite coloring. Pkt., 10 cts.; 1/8 oz., 70 cts.

2394 Giant Imperial Blue

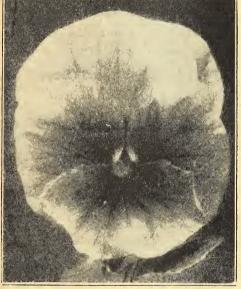

The blooms are a bright ultramarine-blue with a large blotch of deeper blue on the three lower petals. Remarkable for its freedom of blooms, large size, exquisite form and outstanding color. Pkt., 12 ets.; 1% oz., 75 ets.

2395 Giant Snow Queen

Large pure white flowers. It is by far the best of all white Pansies in existence, making most attractive beds or borders. Very fine for bouquets and a wonderful free bloomer. Is sure a soft pleasing color in large beds. Pkt., 10 cts.; 1/8 oz., 55 cts.; 1/4 oz., 85 cts.

2396 Giant Cardinal

This magnificent variety belongs to the Cassier race, having flowers that have a well-defined dark blotch on the three lower petals. Bright cardinal-red, shaded with a rich tone of bright mahogany. Pkt., 12 cts.; 1/8 oz., 75 cts.

2397 Madame Perret

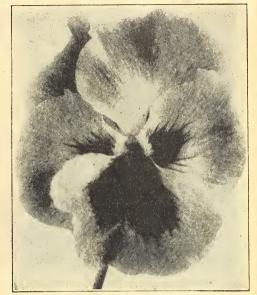

2397 Giant Madame Perret

The lower petals are usually canary-yellow, white, or rose-pink, marked with purple or crimson. The upper petals are either self-colored in bright red and deep purple or outlined with white. Pkt., 10 cts.; ½ oz., 55 cts.; ¼ oz., 55 cts.

2401 Condon's Everblooming **Choice Mixed**

This high-grade mixture will give you a profusion of flowers of the most beautiful and varied colors, although the blossoms will not be as large as those found in Condon's Giant Prize Mixture. We value this mixture very highly, as it contains strains of real merit. Am sure will please the most critical Pansy fanciers. Pkt. 10 cts.; 1/4 oz., 50 cts.; 1/4 oz., 80 cts.; 1/2 oz., \$1.50; oz., \$2.85.

2398 Giant Masterpiece

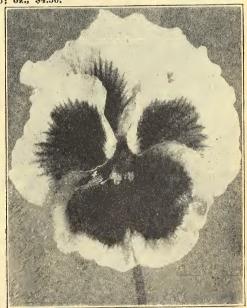

2399 Giant Butterfly Pansy

2399 Giant Butterfly

This distinct and beautiful strain of Pansies will appeal to those who prefer delicate tints and soft shades of color. The flowers are all of fine form and good size. They bloom freely from spring until late in the fall. The unique colorings include shades of chamois, terracotta, pink, lilac, rose, and orange. The name "Butterfly" has been given to this because these delicate shades, together with the finely ruffled edges, are like butterflies. Pkt., 15 cts.; ½ oz., 90 cts.; ½ oz., \$1.45; ½ oz., \$2.55; oz., \$4.50.

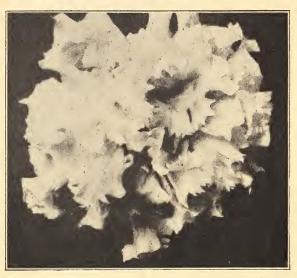

2398 Giant Masterpiece

The truly giant-sized flowers are of most striking character. The petals have so much substance that they are heavily ruffled, giving them the effect of a double flower. The colors are mainly rich dark shades, bordered, blotched, or marked in ray-like veinings with contrasting colors. It blooms freely and continuously as long as the weather remains cool. Pkt., 15 cts.; ½ oz., 90 cts.; ¼ oz., \$1.45; ½ oz., \$2.55; oz., \$4.50.

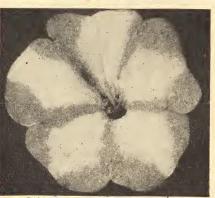

PETUNIAS-Giant Flowering

2415 Condon's Double Extra Large Flowering, Fringed Mixed

2408 Grandiflora Single Fringed Fluffy Ruffles Mixed

2409 Compacta Type Rosy Morn

2415 Condon's Double Extra Large Flowering Fringed Mixed

Double extra large flowering petunias are without doubt the finest ever offered to the public. For years we have made a specialty of this strain, constantly improving it by selection. The flowers assume greater size and richness as time elapses, and the type ever becomes more pronounced. Pkt., 20 cts.

²⁴⁰⁸ Grandiflora Single Fringed Fluffy Ruffles Mixed

This is a truly Giant variety. The large flowers are particularly attractive on account of the finely fringed and ruffled edges. The color range includes some exquisite lavender and purple shades. There are also many tones of pink, rose, and red represented. Practically all the flowers are variegated or blotched with white. Like all other Giant Petunias, the seed should be started indoors in boxes filled with fine soil. Pkt., 25 ets.

²⁴⁰⁷ Condon's Giants of California Fancy Single Mixed

This is the handsomest single petunia in the world, not only on account of its great size, but because of its rich colors and markings and its fringed or notched petals. Pkt., 15 cts.;

2404 Pride of Portland (Deep Rose)

Lovely bright rose flowers with a contrasting white throat. A profuse and continuous bloomer. Pkt., 15 ets.

²⁴⁰⁵ Pride of Portland (Scarlet Beauty)

A most beautiful flower. The blooms are deeply lobed and much waved, being finely and irregularly fringed on the edges. The color of the blooms is a deep tyrian-rose shaded with carmine and heavily veined with purplish black. Pkt., 15 ets.

2406 Pride of Portland (Elks Pride— Black Purple)

A most outstanding variety, with immense flowers of rich deep Elk's purple. The texture of the petals is substantial and of velvety appearance. The blooms are enormously large and heavy. Pkt., 20 cts.

2414 **Hybrid** Good Mixed

This mixture includes many fine colors of Bedding Petunia. Excellent for large bed and borders. Pkt., 10 cts.; ½ oz., 40 cts.

2413 Balcony Type All Shades Mixed

PHLOX (Annual) Drummondii

Phlox is one of the easiest grown and most satisfactory of all summer-flowering annuals. Whether sown en masse or as a single border, the brilliant colors found among Phlox always make a good impression. One of the most valuable characteristics of this annual is its free blooming habit.

Usually the seed is sown outdoors when the maples are coming into leaf. Sow thinly and cover with a quarter inch of fine soil. When the young plants are about an inch or two tall, they should be carefully thinned to allow 4 to 6 inches of space between the plants so that they can develop freely. The plants grow 15 inches tall.

2420 Grandiflora Choice White

This is perhaps the largest flower of all the annual Phlox. The heads are made up of large individual blooms and form a massive cover of pure white over the rich green foliage. It is a strong grower and sturdy bloomer. Because of its free-blooming habit it makes a very fine display if planted in a double row, as a border to larger beds. Pkt., 10 cts.; 1/2 oz., 30 cts.; 1/4 oz., 45 cts.; 1/2 oz., 70 cts.; oz., \$1.10.

2421 Grandiflora Choice Lilac

This is an entirely new shade among the annual Phlox. The color is a soft bright lilac, accentuated by a white eye in the center. Lilac is a very free and continuous bloomer, with large flowers borne in handsome clusters. The plants are of stocky growth and flower most profusely all during late spring and summer, and way into the fall if they are given plenty of space to develop. Pkt., 10 cts.; 1/8 oz., 30 cts.; 1/4 oz., 45 cts.; 1/2 oz., 70 cts.; oz.,

Grandiflora Choice Mixed Starred and Fringed **Choice Mixed**

Drummondii

In the fringed flowers the petals are distinctly bordered with white, which, together with the bright eye of the center, contrasts with the magnificent velvety colors, in more than twenty shades. In the Starred Phloxes the central tech are five to six times as long as the lateral ones. Pkt., 10 cts.; ½ 0z., 30 cts.; ½ 0z., 45 cts.; ½ 0z., 70 cts.; 0z., \$1.10.

2424 New Dwarf Cecily

The new dwarf large flowering strain of the annual Phlox Drummondili is a most distinct and charming novelty. The plants are only six to eight inches in height when in full bloom. The broad, rounded heads of flowers as well as the individual florets are of large size. The colors vary from light liac through various shades of red and purple. Pkt., 10 cts.: 1/8 oz., 50 cts.: 1/4 oz., 75 cts.

2422 Grandiflora Choice Crimson

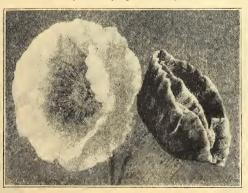

A magnificent and beautiful shade of rich crimson which looks particularly well if seen in full sunlight. The individual flowers are large and make up into well-rounded massive heads during blooming season. Pkt., 10 cts.; % oz., 35 cts.; ¼ oz., 55 cts.; ½ oz., \$1.30 cts.; ½ oz.,

2419 Grandiflora Choice Mixed

Bloom from seed in ten weeks' time. If we could have but one flower in the garden it would be phlox. Large flowering strains chosen with great care for many years; ideal flower of immense size and beauty unsurpassed. Colors from white to nearly black, including plnk, red, violet, crimson, purple, yellow, blue, scarlet and brown, striped and blended in an indescribable manner. Pkt., 10 cts.; ½ oz., 25 cts.; ¼ oz., 40 cts.; ½ oz., 60 cts.; oz., 95 cts.

Condon's Giant Poppies

Poppies are very easily grown and should be included in every garden because of their gorgeous colors. Sew the seed thinly in drills or broadcast early in the spring where the plants are to bloom.

2428 Shirley Single (Good Mixed)

The flowers are of exquisite texture and very large. Upon opening they appear like wrinkled tissue paper with a silky sheen. The range of colors is particularly noteworthy in this variety. There are some excellent shades of rose, pink, carmine, crimson, and salmon. The flowers are borne profusely and continuously throughout the spring and early summer. Pkt., 10 cts.; ¼ 02., 20 cts.; ½ 02., 30 cts.; 02., 50 cts.

2429 Shirley Double (Good Mixed)

This beautiful strain produces large double and semi-double flowers in a wonderful range of colors. Pkt., 10 cts.; 1/4 oz., 20 cts.; 1/2 oz., 30 cts.; oz., 50 cts.

2433 Oriental Scarlet Perennial

This is the most showy of all the perennial Popples. The immense rich scarlet-red flowers are borne profusely during late May and June. They are carried on long heavy stems and are excellent for cutting. Sow the seed where the plants are to bloom, as they do not transplant very satisfactorily. Pkt., 10 cts.; 1/2 oz., 30 cts.; 1/4 oz., 45 cts.

California Poppy (Eschscholtzia)

2442 Portulaca Grandiflora Double Mixed

Portulaça or Moss Rose

A beautiful hardy annual, unsurpassed in brilliancy by any other annual in cultivation. The plants are low-growing and creep along the ground. They thrive well in almost any location, even in a dry sunny place among stones, and can withstand the hottest summer weather. They like the full sunlight.

2442 Grandiflora Double Mixed

A complete mixture including all the shades and colors of orange, red, white, salmon, buff, and many variegated and striped. Pkt., 10 cts.; 1/8 oz., 45 cts.

2443 Grandiflora Single Mixed

This mixture is equal in colors to the above Double Mixed. The nly difference is the flowers are single. Pkt., 10 cts.; 1/8 oz., only diff 35 cts.

Primula Primrose (House Culture)

Primrose is the brightest and most free-flowering of all pot-plants for growing in the house during the winter months. Sow the seed any time from March until early August in seedpans or seed-flats, preferably using a soll composed of equal parts of fibrous garden loam, leaf mold, and fine, washed sand. Cover the seeds very lightly and keep evenly moist until they sprout.

2447 Sinensis Fimbriata Giant Fringed Mixed

Also called Chinese Primrose, Profuse bloomers and among the finest and most popular of the winter and spring flowering window or greenhouse plants, doing well in cool rooms. Plants are sturdy and robust. Pkt., 10 cts.

2448 Obconica Grandiflora Mixed

As a pot-plant this variety is outstandingly attractive. The plants make a bushy, compact growth, sending forth a large number of flower-stems. Pkt., I 0 cts.

2449 Malacoides Baby Primrose
Within late years the Baby Primroses have gained greatly in popularity. The plants make a big bush of dark-green, attractive leaves from which rise long slender stems that bear a profusion of bright lavender-pink flowers. Pkt., 10 cts.

POPPIES 2430 Paeony Flowered Double Good Mixed

This is a very beautiful large-flowered strain of Annual Popples. The blooms are borne very profusely and the flowers resemble in form a small Peony. The colors include white, various shades of rose, salmon, light yellow, shades of scarlet and crimson, and some variegated blooms. Pkt., 10 cts.; 1/4 oz., 20 cts.; 1/2 oz., 30 cts.

2431 Carnation Flowered—Finest Double Mixed

The Double Carnation Flowered Popples are one of the most widely grown type of Annual Popples. Truly, they are outstanding in many ways and they deserve particular attention because of the wide range of brilliant colors found among them. Pkt., 10 cts.; 1/4 oz., 20 cts.; 1/2 oz., 30 cts.

2432 Flanders Field-True

This beautiful variety bears large single flowers of a rich deep scarlet color. Pkt., 10 cts.; 1/4 oz., 25 cts.; 1/2 oz., 40 cts.; oz., 60 cts.

California Poppies Eschscholtzia (Annual)

The California Poppy is one of our most showy and free flowering annuals. It blooms early and where the weather does not get too warm during the summer continues to flower freely until frost. They are of compact, busly habit, growing about 12 inches tall. The flowers are Poppylike, carried on long stems and set against the finely divided, Poppy-green foliage. foliage.

2434 Crimson King

A very outstanding flower of rich crimson-carmine color. Flowers freely and continuously. Pkt., 10 cts.; 1/4 oz., 25 cts.

2435 Dainty Queen Pink

This is a lovely flower of fine form and of a particularly good color. Scintillating and silky rich rose-pink. Pkt., 10 cts. 1/4 oz., 25 cts.

2436 Mikado Orange Crimson

Large and well-formed flowers of a brilliant orange-scarlet. This particularly bright and showy variety. Pkt., 10 cts.: 1/4 oz., 30 cts.

2564 Special Offer: One packet each of the six Giant Colossal Flowered Zinnias for only 40c postpaid.

CONDON'S ZINNIAS

Dahlia Flowered [Annual]

Dahlia-Flowered Zinnias are of very recent origin yet they quickly became known because of their many outstanding features. The flowers are of immense size. They are made up of a large number of small petals which stand well apart, adding greatly to the grace and looseness of the blooms. This is a decided improvement over the Glant Mammoth type which many gardeners consider stiff in effect. The plants make a strong growth and form a compact, well-rounded bush about 2 feet tall. The flowers are borne on long sturdy stems above the foliage from midsummer until frost.

2548 Crimson Monarch

One of the best of the Dahlia-Flowered Zinnias with flowers of immense size. They are a bright and attractive shade of crimson-searlet. The blooms are of perfect form and are borne in great profusion. Pkt., 15c; 1/4 oz., 75c; 1/2 oz., \$1.25; oz., \$2.00.

2549 Golden State

Rich golden yellow shading to bright orange as the flowers reach their full size. The blooms are large and of true Dahlia form. They are borne on fine long stems. Pkt., 15c; ½ 0z., 75c; ½ 0z., \$1.25; 0z., \$2.00.

The best of all white Zinnias. The flowers are of great size, made up of a large number of small petals. The coior is pure paper white. Pkt., 15c; ¼ 0z., 75c; ½ 0z., \$1.25; 0z., \$2.00.

2551 Dream

A very attractive variety with large flowers of a distinct shade of deep lavender, changing to a purple tint as they age. The blooms are large and of fine form. They are borne freely on strong and sturdy plants. Pkt., 15c; 1/4 oz., 75c; 1/2 oz., \$1.25; oz., \$2.00.

2552 Illumination

This variety resembles Exquisite but the flowers are uniform, deep tyrian rose instead of having a duo-tone effect, It is a truly magnificent flower of large size and always fully double. Pkt., 15c; $\frac{1}{4}$ oz., 75c; $\frac{1}{2}$ oz., \$1.25; oz., \$2.00.

2553 Oriole

This variety seems to be particularly popular with all classes of gardeners. A bright glistening orange shaded with liquid gold. As the flowers age they show a coppery cast, but the effect is beautiful at all times. Of good form. Pkt., 15c: ¼ oz., 75c: ½ oz., \$2.00.

2554 Dahlia Flowered all colors mixed

This is a complete mixture of the Dahlia-Flowered Zinn scribed on this page. It also contains a number of other—PKt., 15c; 1/4 02., 65c; 1/2 02., \$1.00; 02., \$1.75.

One packet each of the seven named Dahlia Flowered Zinnias for only 75c, postpaid.

Flowering Spring Bulbs Summer Everybody's Garden Should Have These Beautiful Bulbs

Easily grown, requiring scarcely any care, start to bloom early in the summer and continue until cold weather. You can rely on all our bulbs as sure to grow and bloom. They are large, sound stock with live center shoots, far surpassing those small bulbs frequently offered at lower prices. We maintain The Best is the Cheapest.

1308 TUBEROSES Giant Flowering—Annual—Excelsior Dwarf Pearl-Mammoth

Our Mammoth Excelsior Dwarf Pearl is a special selection made for Pearl is a special selection made for many years of the most dwarf, double and full flowered spikes and is exceptionally sturdy and dwarf in habit. Elephant's Ear—Annual

These well-known Elephant's Ears are the most effective, both as single plants on the lawn, massed in beds, or for margins of water. The distinct apron-like leaves often attain a length of three feet by twenty inches wide. Bulbs can be stored in dry sand over winter and kept from year to year. Large size, 7x9 inches in circumference, each, 18 cts.; 3 for 45 cts.; per dozen, \$1.70, postpaid.

1302 Caladium-Elephant's Ear

1306 OXALIS

Annual

Summer Flowering—Highly valuable for hanging baskets, also borders of walks, and flower beds. Blooms quickly. Showy in mass beds. Mammoth bulbs of rosy pink, pure white and mixed sorts only, mammoth size, 12 cts. per dozen; 100 for 85 cts., postpaid.

Everblooming

Tuberose

1308

called Climbing Mignonette. Also called Chimbing Mignonette. A beautiful tuberous-rooted climber, with rather plain, thick leaves and handsome racemes of fragrant white flowers. The vine makes a very rapid growth and a few plants will cover a trellis or

few plants will cover a trellis or cottage in a single season. It is a very pretty thing to use for shading a porch or veranda, as the leaves are brilliant, glossy green. Lift the bulbs each fall the same as Dahlias. Each, 5 cts.; 6 for 25 cts.; per dozen, 45 ets., postnaid. cts., postpaid.

1305 Madeira Vine

1304 CINNAMON VINE Beautiful Foliage, Dainty Flowers, **Exquisite Perfume**

Exquisite Perfume

Hardy climber with dark green foliage, and late in the season bearing a profusion of small white flowers of a delicious cinnamon fragrance. Perfectly hardy everywhere, the vines dying down to the ground each autumn, but growing very rapidly in early spring, soon covering any trellis or arbor. Where you wish to hide unsightly places, we would suggest planting the Cinnamon Vine. Every tuber sure to grow. Plant any time in spring. Please order at once. No trouble to keep till planting time. Strong tubers, each, 8 ets.; 4 for 30 ets.; per dozen, 85 ets., postpaid.

1304 Cinnamon Vine

being two

1240 The President -Green ht. 4 ft.

Very Latest Introduction and the Most Satisfactory Red Canna ever produced. Bigger and Better than Firebird. Make a solid bed of these on your lawn and you will be envied by all your neighbors.

he envied by all your neighbors.

Height 4 feet. In color, a rich, glowing scarlet, and the immense, firm, rounded flowers, 7 inches across when open, are produced on strong, erect stalks well above the large, rich green foliage. "The President" is superior to any other red variety in the quantity and also quality of bloom, and the firm flowers resist drought and heat to a remarkable degree. A large bed of this variety was planted last year in front of the White House and received the unqualified admiration of every lover of Cannas. "The President" has proved to be the-most satisfactory proved to be the most satisfactory red Canna ever produced. Get your order placed now for de-livery at planting-time. Each, 25c; 3 for 69c; Doz., \$2.45, post-

1241 King Humbert

-Bronze ht. 5 ft.

A Universal Standard Favorite: Glowing Orange Scarlet, streaked with Crimson:

Orange Scarlet, streaked with Crimson:
This remarkable "Gold Medal"
Canna has been the sensation of
the past eight years. It is a cross
between the orchid-flowering and
the French or Crozy type, combining the best features of both,
the large flowers of one with the
free blooming character of the
other, and the handsome broad,
tropical foliage. Each, 22c; 3 for
60c; Doz., \$2.25, postpaid.

1242 Goldbird—Green—4 ft. Canary Yellow

weeks earlier and far more satisfactory. Our prices are as low as most firms charge for dry unstarted bulbs.

Remarkably free flowering variety. The immense soft canary-yellow flowers are borne in large clusters well above the very healthy green foliage. A robust grower, sure bloomer, forming sturdy, shapely plants very quickly, making it an ideal variety for amateurs or Florists. Each, 30c; 3 for 75c; Doz., \$2.75, postpaid.

Green

Very compact, almost dwarf and of a very luxuriant growth. Leaves bluish green, never burn. Trusses of enormous size borne well above the foliage. Flowers very large, with immense petals. Color purest La France-pink, with satin sheen. Each, 32c; 3 for 85c; Doz., \$3.00, postpaid.

1244 Yellow King Humbert—4 ft.—The Best Yellow Canna

This is the best yellow Canna spotted with red dots.

An orchid-flowering sport of the well-known variety King Humbert. Has the same habit of growth as its parent; foliage a very dark green, with flowers measuring 5 to 7 inches across; individual petals 3 to 3½ inches in diameter. Color of flower a deep rich yellow, softly spotted and blotched with bright red.

Some plants will occasionally give a scarlet or scarlet striped flower, which we consider an improvement, rather than a defect. Each, 22c; 3 for 60c; Doz., \$2.25, postpaid.

1245 Wyoming—Bronze—6 ft.—The Best Orange Yellow

A beautiful variety, with rich purplish bronze foliage. Flowers are large as King Humbert, and of good substance; bright orange, slightly rimmed and flaked with rose. Each, 22c; 3 for 60c; Doz., \$2.25, postpaid.

Each, 7 cts.; dozen, 60 cts.; 100 for \$3.85, postpaid.

1348 Le Marechal Foch. This might briefly be described as an improved America, having the same soft flesh-pink color, but with much larger blooms and coming into flower two weeks earlier. Of unusually strong, vigorous growth with splendid straight, well-filled spikes. Each, 7 ets.; dozen, 70 ets.; 100 for \$4.00, postpaid.

CONDON'S Beautiful GLADIOLUS

The Most Charming Flower in Cultivation
—Stately and Attractive—Easy of Culture

"To know them is to love them." Every yard should have at least a few choice Gladiolus. They succeed nicely in any good fertile garden soil. Plant as early in the spring as ground can be worked and for succession of bloom set at intervals of two weeks. Bulbs set six inches deep require a few more days to come up, but more than repay you for waiting, as they form a deep root system, retaining moisture which furnishes more stalk growth and larger and more perfect flowers. Set in rows of solid beds eight to ten inches apart, to allow for cultivating, which should be done at least once a week. Water freely, if possible, this insures more continuous flowering. Lift the bulbs in the fall, dry thoroughly, and store in dry, warm place until spring again. These multiply in the ground and you can separate the small seedlings from the mother plant, grow them on the following year and in that way increase your supply. Our list of named varieties comprises the best standard reliable sorts that we recommend will please you. All good healthy well propagated bulbs that we guarantee will propagated bulbs that we guarantee will produce large spikes of beautiful flowers.

1343 America. Conceded to be one of the finest varieties for cutting or bedding ever sent out; color a beautiful soft fleshpink; orchid-like in its coloring and texture. Each, 5 cts.; dozen, 50 cts.; 100 for \$2.50, postpaid.

with a touch of carmine in the lowers with a touch of carmine in the lower petals. These are borne on tall, graceful spikes; a beautiful and exceedingly refined variety. Each, 7 cts.; dozen, 60 cts.; 100 for \$3.50, postpaid.

1335 Brenchleyensis. The most effective vermilion-scarlet for massing and considered by many as (The Mother of all Gladiolus). Each, 7 cts.; dozen, 60 cts.; 100 for \$3.50, postpaid.

1336 Independence. A brilliant Begonia-pink, with richly marked throat. A long spike of wax-like flowers. One of the best for cut flowers. Each, 6 ets.; dozen, 58 ets.; 100 for \$3.50, postpaid.

1337 Schwaben. Magnificent flowers of delicate pale yellow with a dark blotch in center. One of the finest and largest of all yellows. Each, 7 cts.; dozen, 65 cts.; 100 for \$3.95, postpaid.

1338 Baron J. Hulot. Large pinkish-lavender flowers shading to rich, dark rose. Tall grower, flowers well opened, striking and beautiful. Each, 10 cts.; dozen, \$1.00; 100 for \$7.00, postpaid.

for \$7.00, postpaid.

1339 Panama. A lovely apple blossom shade, true La France pink. A great large flower on a tall spike, perfect in every detail. Each, 6 cts.; dozen, 58 cts.; 100 for \$2.98, postpaid.

1340 Mrs. Francis King. Lincoln-red, throat with small blotches raspberry-red surrounded by a very little sea amber-yellow. Four inches. Each, 6 cts.; dozen, 58 cts.; 100 for \$3.00, postpaid.

341 Chicago White. Pure white with narrow lines. Crimson-carmine on midribs of three lower petals, surrounded by a little amber. Petals slightly reflex. Early; a forcing variety. Several flowers out at one time. Each, 7 ets.; dozen, 65 ets.; 100 for \$4.00, postpaid.

1342 Cracker Jack. The darkest red-rich maroon, a royal color supreme in that shade. This will give you early blooms which are delightful in contrast with the lighter shades in a bouquet. Each, 7 ets.; dozen, 65 cts.; 100 for \$4.00, postpaid.

Collection We will send postpaid one each of the above twelve choice for 60c named Gladiolus

GLADIOLUS

At Moderate Prices

Hardy Northern Grown Fruit Trees

Apples For Everybody—Best Standard Varieties Budded from Bearing Orchards

EARLY SUMMER VARIETIES

1100 Duchess of Oldenburg From Russia, extremely hardy, medium size, yellow with red stripes. Somewhat sour, fine for cooking. Will not keep long when fully ripe.

1101 Red Astrachan The old-time favorite. Perhaps one of the most popular early appes ever grown, Large, roundish, nearly covered with deep crimson, overspread with thick bloom, Juley, rich acid, beautiful; a good bearer.

FALL AND EARLY WINTER VARIETIES

1104 **Wealthy** Originated in Minnesota. Fruit large, roundish; skin smooth, mostly covered with dark red; flesh white, juicy, good. Tree very hardy, vigorous, and productive.

1113 Snow An early winter apple of medium size and dark red color. The flesh is pure snowy white, juicy and aromatic with a rich yet sprightly vinous flavor. The standard for quality in dessert apples.

1112 Talman Sweet Medium size, pale yellow, tinged with red; firm, rich sweet. November to April,

1105 Maiden Blush Good size, fine flavor, beautifully blushed, good bearer, a fine apple for home and market.

1103 **Grimes Golden** One of the most popular Apples, Tree a strong, thrifty grower. Fruit medium to large; flesh yellow, firm, very fine grained, juicy, sub-acid flavor; fine quality. Excellent for eating, cooking or market.

LATE WINTER VARIETIES

1109 Northern Spy Large, bright red and very hardy. Comes into bearing very late. Not a success in Kansas and Nebraska, but largely planted in Illinois, Michigan and the East.

1110 Northwestern Greening Extremely hardy and vigorous grower. Fruit large, greenish yellow when ripe. Good quality and a long keeper. Especially recommended for Northern States.

Stayman's

1111 Winesap Another old and tried variety of a beautiful red color, rather thick skin, good quality and a long keeper. The apple is medium size. For the home orchard we still recommend is especially for the Middle Western States,

1102 **Baldwin** A large, dark red Apple; sub-acid, good flavor. Tree hardy, vigorous, productive. Excellent for eating, cooking and market,

1106 **Jonathan** Bears young and a big producer. Fruit very attractive, bright red, quality of the finest, flavor of the best. Flesh tender, crisp and juicy, with a smooth and glossy skin that makes it a big seller everywhere.

1108 **Delicious** A remarkable variety rapidly taking first rank both for commercial and home orchards. Fruit large, nearly covered with brilliant dark red, flesh fine grained, crisp and melting, juicy, with a delightful aroma; of very highest quality. A splendid shipper, bearing annually.

CRAB APPLES

1114 Whitney No. 20 Large, averaging 1½ to 1 inches in diameter. Skin smooth, glossy, green, striped, splashed with carmine; flesh firm, juicy, and flavor pleasant; ripens the latter part of August. Tree a great bearer and very hardy.

1116 Yellow Siberian Fruit medium; golden yellow; borne in clusters.

1115 Hyslop Medium in size, very bright red skin. De licious for jelly and preserves.

CHERRY TREES The four most popular varieties. Plant a All trees offered below are strong, healthy, well rooted

Notice | stock—3 to 4 feet—and shipped by express, customer paying transportation charges. If wanted by Mail add 25 cts. per tree to prices quoted on this page.

1038 Black Tartarian Sweet Tree hardy, a vigorous grower, thrives everywhere; very productive. Fruit very large, bright purplish black; juicy, sweet, rich, excellent flavor and quality; fine for eating, canning or market.

1037 Napoleon Sweet Sometimes called Royal Anne. A beautiful Cherry of large size; pale yellow, with bright red cheek; flesh firm, juicy and sweet; one of the best Cherries for eating, canning or market.

large montmorency A beautiful, extra large, red, sour Cherry. Fruit larger and firmer than Richmond; ripens about ten days later. A strong grower, absolutely hardy, bears young and a sure-cropper. There is a big demand everywhere for this fine Cherry. 1036 Large Montmorency

1035 Early Richmond

The earliest and most popular sour Cherry grown; one of the most popular and valuable of the acid varieties. Fruit medium size, dark red, melting and juicy; unsurpassed for cooking and canning. Tree slender growing; exceedingly productive, very hardy, as it will stand the most severe Winter.

PRICES on Cherry Trees By Express, Not Prepaid: Nos. 1035 and 1036, 65 cts. Each; 6 for \$3.50; 12 for \$6.00. Nos. 1037 and 1038: 85 cts. Each; 6 for \$4.75; 12 for \$8.40. 1035 Early Richmond

ears Will do nicely even in extreme north

Cherry

153 Seckel S m a 1 1; sin rich yellowish brown hen fully ripe, with deep rownish red cheek; flesh ery fine grained, sweet, sceedingly juicy, melting, uttery; one of the richest and highest flavored pears.

951 Bartlett Large, high-fla-rer; very uttery, juicy, high-fla-ored, great bearer; very opular both for eating nd canning.

050 Kieffer Its large ize, handsome appearance, nd remarkable keeping nd shipping qualities take it very profitable for narket.

052 Clapp'sFavorite

Suited to Any State Plums in the Union

1040 Red June The market variety. Medium to large, deep red, with beautiful bloom. Flesh lemon yellow, firm and of delightful quality. Ripens early August. A prize wipper

prize winner.

1041 Abundance One of the most
Topponese sorts. Fruit popular of the Japanese sorts. Fruit large, bright red, firm and sweet. Very early.

1042 Opata - Prof. Hansen's

New Plum The finest plum for home gardens or where there is room for but one or two fruit trees. A dwarf grower, bearing heavily one year after it is planted. The fruits are purple with firm yet juicy green flesh of excellent quality. Tender skin and very small pit. Free stone. PRICES on Plums, By Express, Not Prepaid: 65 cts. Each; 6 for \$3.50; 12 for \$6.00. 12 for \$6.00.

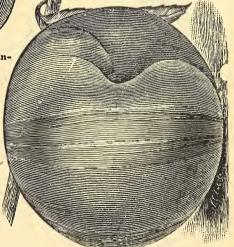

047 J. H. Hale A fine variety; tree perfectly hardy. Fruit extra large, ripens about a week earlier than Elberta. Quality and flavor of the best. Color a beautiful golden yellow with deep carmine blush.

1048 Early Elberta 1948 Early Elberta Bright yellow with red blush, flesh yellow, finer grained and sweeter than Elberta, and ripens a week to ten days earlier. Excellent for home

or shipping.
1045 Carman color, creamy white or pale yellow with deep blush, skin very tough, flesh tender, fine flavor and quite juicy.

1046 Champion A large, handsome early variety, creamy white with red cheek, sweet, rich and juicy. PRICES on Peaches: 40 cts. Each; 6 for \$2.10; 12 for \$3.98. By Express, Not Prepaid.

1056 Apricot Superb 756 Apricot Superb Hardier; and surer crop. The best flavored, most productive hardy Russian apricot yet produced. Medium size, light salmon color. By Express, Not Prepaid: 66 ets. Each; 6 for \$3.25; 12 for \$6.00.

Peaches from your own trees are delicious -Start a few this year.

With every order we furnish free circular giving full information on spraying.

STRAWBERRIES 1209 Condon's Champion Market

Condon's Champion Market is the Earliest—Largest—Best Flavored—Longest Keeping and Biggest Yielder of All Early Strawberries

Here you have one grand variety that meets the long felt demand of private and market planters. It's a hybrid from the old reliable and still famous Dunlap, crossed with Tullock's Prize and Guaranteed to Please and make you Money. It is a perfect flowering variety and needs no other sort to fertilize it. Plants are very sturdy, robust growers, producing heavy deep green foliage that protects the fruit and keeps it in perfect condition longer than any sort we have ever tried. As our supply of plants this year is limited we urge all who desire plants of this Wonderful Berry to order early. 25 plants, 85 cts.; 50 plants, \$1.50; 100 plants, \$2.50, postpaid; for larger quantity see page 147.

These are the kind of plants you get here. Note the strong roots.

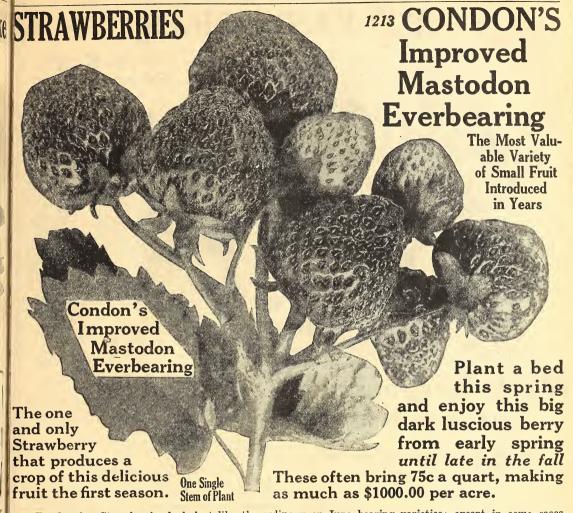

About Varieties We have grown them all, and after careful trial ground comparisons have discarded many sorts and offer you a list of Only the Very Best and Most Profitable varieties.

All varieties marked "S" are Staminate Perfect Flowering and Bi-Sexual. All varieties marked "P" are Pistillate and destitute of stamens, so when planting those marked "P" it will be necessary to have every third row a Perfect Flowering or "S" variety to properly fertilize the bed; by so doing you obtain much finer fruit.

Remember-we furnish free with each order instructions how to grow these profitably.

Everbearing Strawberries look just like the ordinary or June bearing varieties; except in some cases the fruit is a trifle larger and to my notion better flavored. The plants are strong, vigorous growers, producing as much as 75 to 100 berries and blooms on a single plant. They begin bearing about the same time as the standard sorts and produce fruit until very late in the fall. 25 plants, \$1.20; 50 plants, \$2.25; 100 plants, \$3.95; 500 plants, \$15.75; 1,000 plants, \$30.00, postpaid.

Remember

100 Spring bearing plants will supply a family of 5 all summer, and with 100 Everbearing you can have this delicious fruit all season. 15,000 plants to set an acre. Full directions for growing furnished free with all shipments.

NOTICE: We ship plants from March to May 15th. Please state when wanted.

RED RASPBERRIES

Black Raspberries 1065 Cumberland

The Best All Around Variety For Market or Home Use

MIDSEASON

This new black cap is a wonder in size and vigor of plant growth and is as hardy as any known variety. It has no disease of either cane or foliage, grows luxuriantly wherever planted, and is tremendously productive of extra large, coal black berries, not approached in size or beauty by any other known variety. Kansas and Gregg, remarkable for size as they are, are simply "not in it" with Cumberland, except that their season of ripening gives each a distinct place.

1066 Gregg

Extra large late sort. Delicious Flavor. This is the extra big late blue black fellow. Heavy growing canes that branch out sparingly. Its late ripening and good quality make it a favorite.

1067 Plum Farmer

The earliest black cap in cultivation. The plants are very healthy, being unusually free from disease. The canes are strong growing, thus giving lots of bearing wood, insuring a heavy crop of fruit, of large fine quality.

1068 Kansas

Large heavy grower and cropper, branches very freely. Is hardy, productive, glossy, jet black berries.

Prices on All Raspberries, Red and Black, Listed Above 10 cts. Each; 3 for 25 cts.; 6 for 42 cts.; 12 for 75 cts.; 100 for \$5.75, postpaid. By Express Not Prepaid—25 for \$1.25; 100 for \$4.50; 500 for \$19.50; 1,000 for \$35.00. 1062 Early King

Produces a big crop every year. King is without exception the most prolific early Red Raspberry ever grown. Perhaps the greatest outstanding feature of this variety is its earliness.

1061 Cuthbert

An old variety, but still holds first place, as it always has, for home use or near markets. Large size. Late Red variety.

1063 Columbian

A very strong growing variety. Fruits large, dark purple and of good quality. Hardy and very productive.

BLACKBERRIES

Blackberries require the same treatment as Raspberries.

1072 Early Harvest

Is very earliest. Berries medium size and sweet. Plants dwarf and compact, may be planted close together. Particularly suited for south of Rockford; not good for extreme north.

1073 Erie

By far the best early sort for central and northern latitudes. Berries very large, nearly round, firm, and excellent quality for market or home use.

1074 Eldorado

A reliable standard recommended to make good any place. Fruits large, borne in clusters, quality superb.

1075 Snyder

Hardiest of all. Especially suited for the north. Berries medium size, sweet, juicy and of fine flavor.

Prices, All Varieties Blackberries: 12 cts. each; 3 for 30 cts.; 6 for 50 cts.; 12 for 90 cts.; 100 for \$6.00, postpaid. By Express not prepaid: 25 for \$1.50; 100 for \$5.00; 500 for \$22.50; 1,000 for \$40.00.

ALL BERRIES, SHRUBS and NURSERY STOCK will be shipped in ample time for Spring setting.

Small Fruits Continued-1080 DEWBERRY—Lucretia

"The Most Profitable Fruit Grown"

Dewberries are bringing big money and are said to be more profitable than any other fruit grown at the present time. Berries are very large, bright glossy black, beautiful and of delicious flavor. They are earlier and larger than blackberries. Of slender trailing growth, and immensely productive. Plant rows three feet apart and string on single wires held up by short post, same as grapes.

Mulch over in late autumn. Strong plants. Each, 15 cts.; 6 for 50 cts.; 12 for 90 cts.; 100 for \$7.00; postpaid. By Express not prepaid: 25 for \$1.50;

100 for \$5.00.

CURRANTS

Currants do best in rich deep soil. Keep pruned annually and well cultivated. In red Currants we think "Wilder" is the best Red, although many are still partial to the old reliable Fay's Prolific; both are very good. Berries large and juicy, flavor mild and spicy. White Grape is the best White. Clusters are long; berries large; flavor mild and delicious. 1082 Wilder, 1083 Fay's Prolific, 1084 White Grape. Prices, all Varieties: Each, 25c; 6 for \$1.25; 12 for \$2.25; 100 for \$15.50, postpaid. By Express not prepaid: 25 for \$3.60; 100 for \$13.50.

Currant-Wilder

NOTICE

Send your order for Fruits, Plants, Shrubs and Bulbs along with your Seed order. We will forward seeds at once and unless instructed differently will hold balance for shipment in spring at proper time.

CURRANTS

cannot be shipped west of the Mississippi river on account of Government quarantine on them.

GRAPE VINES More Popular Every Year-Plant Liberally \$300.00 to \$500.00 Per Acre Returns—Demand Far Greater Than Supply—ORDER EARLY

CULTURAL DIRECTIONS. Plant for field culture 8 by 12 feet, about 40 plants per acre. Grapes will grow and do well on light sand or clay where it is hard to raise other farm or fruit crops.

All grape vines 2 yr. old.

1090 MOORE'S EARLY (Black)—The most widely planted, most popular of the early black grapes. Similar to Concord in appearance and quality and two weeks earlier. Succeeds everywhere Concord grows. We advise the planting of Moore's Early for it always pays. Each 25c; 6 for \$1.35; Doz., \$2.50; 100 for \$16.00, postpaid. By Express not prepaid: 25 for \$3.00; 100 for \$10.00.

1091 NIAGARA (White)—The best known white grape. As vigorous and productive as Concord. We grow it largely and recommend it commercially. Each, 25c; 6 for \$1.35; Doz., \$2.50; 100 for \$17.00, postpaid. By Express not prepaid: 25 for \$3.50; 100 for \$12.00.

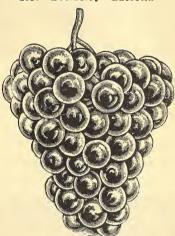

100 for \$12.00.

1092 CONCORD (Black)—The most widely grown, most popular of all grapes; rich, black, good bunch, good quality, good shipper. Produces tremendous crops everywhere. Each, 20c; 6 for \$1.10; Doz., \$2.00; 100 for \$12.50, postpaid. By Express not prepaid: 25 for \$2.75; 100 for \$9.00.

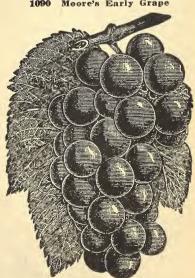

1093 DELAWARE (Rcd)—One of the very best for table use. Bunch and berries of medium size. The flavor is very sweet and delicious. Each, 30 cts.; 6 for \$1.65; Doz., \$3.00; 100 for \$19.50, postpaid. By Express not prepaid: 25 for \$4.25; 100 for \$15.00.

1080 Dewberry-Lucretia

1090 Moore's Early Grape

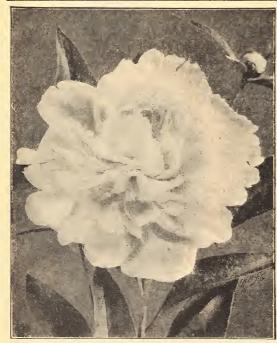

1092 Concord Grape

CONDON'S Giant Flowering PEONIES

1268 Festiva Maxima 59c Rose type; early. This is not only the finest white in existence, but many regard it as the queen of all the Peonies. Mr. Harrison says: "This flower has reached the ultimate beyond which we cannot go. Here at the door stands Festiva Maxima, white as the soul of the Madonna, with now and then a blood drop, as though the iron had sometimes entered her heart. What a marvelous flower!" It combines enormous size with wondrous beauty; often seven to eight inches in diameter. Clear carmine spots on edge of center petals. For over sixty years it has held first rank, and is still the standard of perfection by which all other Peonies are judged. The most popular white Peony for cut flowers. June rose fragrance. Each, 59 ets.; 3 for \$1.65; doz., \$5.95, postpaid.

1264 Duchess de Nemours 39c Crown type; early. Blooms several days after Festiva Maxima. Superb, cup-shaped, sulphur-white flowers with greenish reflex that lights up the entire flower: gradually changes to a pure snow-white without spot or blemish. Each, 39 cts.; 3 for \$1.05; doz., \$3.60. postpaid.

1272 Queen Marie

1271 Meissonier (American Beauty) 69c

Bomb type; midseason. Very brilliant crimson; full double flowers on stiff, wiry stems; the stems may sometimes have short crooks in them, but they are never weak. The coloring is wonderfully rich and brilliant. In the Chicago cut flower markets this Peony is known as the American Beauty Peony on account of the resemblance in color to the Rose of that name. A grand cut flower. Each, 69 cts.: 3 for \$1.95; doz., \$6.98, postpaid.

1270 Louis Van Houtte 60c Semi-rose type; late midseason. Very fine, shapely bloom; medium to large flower; color bright violaceous-red of dazzling effect. Old favorite. Each, 60 cts.; 3 for \$1.55; doz., \$6.00, postpaid.

1267 Fragrans 39c Bomb type; very late. Comsolferino-red with slight silvery reflex; strong, vigorous grower, making shapely plants; free bloomer in clusters; an old favorite and extensively grown for cut flowers. Each, 39 cts.; 3 for \$1.05; doz. \$3.60, postpaid.

1272 Queen Marie 75c Bomb type; early midseason. The very best every day white. When cut a first rate keeper. Flower of good substance and color; very pretty in the bud state, when it has a faint blush tint; an old standby. Each, 75 cts.; 3 for \$2.00; doz., \$7.00, postpaid.

SPECIAL

No. 1274. One strong root each of the 10 named Peonies listed on pages 150 and 151 for \$5.00, postpaid.

Remember-We furnish free with each order instructions how to grow these to perfection,

Beautiful PEONIES

he Old Fashioned Garden Flower Greatly Improved

No disease or insects ever trouble these lants. They last forever, growing better very year with age. To make a home comtete Peonies should be in every yard, as ley cost so little and look so big. We only row the best varieties in their class, which e offer at very cheap prices for high quality ell eyed roots. We furnish free full culture irections with every order.

1265 Edulis Superba

1266 Felix Crousse

1266 Felix Crousse 84c Rose type; late midseason. All Peony enthusiasts are familiar with the fact that it is difficult to get a red Peony that is a self color; that is to say, a full, rich, even shade of red without being suffused with violet, purple or crimson shades: Felix Crousse fills the bill. Its large, globular flowers, solid and compactly built from edge to center, are a rich, even, brilliant, dazzling ruby-red. Exceptionally flery, bright and effective. None better. Each, 84 cts.; 3 for \$2.35; doz., \$8.40, postpaid.

Rose type; midseason, dark red Peony of regular fine form with large petals simply dazzling with its dark maroon coloring. This is the next best red after Felix Crousse. Lovers of Peonies should have them both for the best reds. Each, 49 cts.; 3 for \$1.33; doz., \$4.80, postpaid.

1279 Officinalis Rubra Plena

The earliest of all dark red Peonies. Comes into full bloom by Decoration Day. This is the very finest old-fashioned dark red sort. It is considered by experts as perhaps the most brilliant of all red peonies, and in addition comes into full bloom by Memorial day. We only have a very limited number of these so advise early orders. Each, \$1.50; 3 for \$4.00.

1265 Edulis Superba 59c Crown type; very early. This might well be called the Decoration Day Peony, for it has never failed to be in full bloom for May 30th. A most beautiful bright, clear mauvepink with silvery reflex that under good culture measure from seven to eight inches across. One of the most valuable Peonies. Each, 59 cts.; 3 for \$1.65; doz., \$5.95, postpaid.

Special Bargain

When transplanting our Peonies every fall as we do, we always set full rows of each variety and always have quite a quantity of each variety left over, which we keep separate as to color but not names. That is, all the Red are planted together, also the Pinks and Whites, so we offer you what we term unnamed but true to color. Whatever you get will be a good variety as we don't grow anything but the best. We offer these at the following special low price. Each, 35 ets.; 3 for 98 ets.; doz., \$3.48, postpaid.

 1275. Unnamed Red
 Each, 35c

 1276. Unnamed Pink
 " 35c

 1277. Unnamed White
 " 35e

Special Offer one of each color for 98c postpaid.

1279 Officinalis Rubra Plena

Hardy Ornamental Flowering Shrubs That Will Beautify Your Home

1142 SPIREA Van Houttei **Bridal Wreath**

1142 Spirea Van Houttei-Bridal Wreath

ALMOND FLOWERING

A very beautiful, early-blooming, dwarf shrub of shapely, compact growth, especially valuable because of the profusion of flowers very early in the Spring. We offer either the white or pink flowering, identical in habit of growth, the only difference being in the color of the flowers.

1123 Rosy Pink 2 yr. old large plants 18 to 24 inches. Each, 50 cts.; 3 for \$1.35, postpaid.

DEUTZIA

The most beautiful and most popular of flowering shrubs. Flowers in June and through July and August. Of easy culture, thriving in almost any well-drained soil.

1144 Crenata Flore Pleno This is a variety that has very double flowers which are white tinged with rose. The flowers are produced in great profusion in racemes from 4 to 5 inches long. 18 to 24 inches. 2 yr. old. Each, 30 cts.; 3 for 75 cts., postpaid.

1145 Pride of Rochester A variety of Deutzia Crenata Flore Pleno, and producing large double white flowers; back of the petals slightly tinted with rose. It excels all the older sorts in size of flower, length of panicle, profuseness of bloom and vigorous habit. 18 to 24 inches. Each, 30 cts.; 3 for 75 cts., postpaid.

BUSH HONEYSUCKLE

Handsome upright shrubs, with showy flowers and bright berries. They thrive in almost any fertile soil, and in most instances prefer sunny situations. Invaluable for border or mass plant-

1148 Red Tartarian The flowers are borne freely in May and June. Are of bright pink color, followed by showy red berries. 2 yr. old plants, 18 to 24 inches. Each, 35 cts.; 3 for 95 cts.; post-

1149 White Tartarian About the same as the red except that flowers are white. Both Bush Honeysuckles. Strong plants. 18 to 24 inches. Each, 35 cts.; 3 for 95 cts., postpaid.

The Most Satisfactory Shrub. No Garden Complete Without This. Easily Grown, Does Nicely Everywhere—Either in Solid Rows, Borders or Close to Porch. Blossoms First Season. Our Plants Are Stately and Well Developed.

This lovely old-fashioned shrub is always popular, and justly so, because of its real beauty; bears large spirals of densely crowded single white flowers, each blossom like a miniature rose, the entire length of the branches—and they appear by the million—hence the common title of "Bridal Wreath." A beautiful floral wreath is made at once by bending and tying the ends of the branch together. One of the most beautiful, hardy shrubs in existence. Strong 2 yr. old plants, 18 to 24 inches. Each, 25 cts.; 3 for 60 cts.; doz., \$2.25, postpaid.

1143 Spirea Anthony Waterer

Very effective for mass plantings, the crimson flowers and variegated foliage making a beautiful contrast with other shrubs. Flowers lasting several weeks. 18 to 24 inches. 2 yr. old strong plants. Each, 40 ets.; 3 for \$1.10; doz., \$4.00, postpaid.

BEAR IN MIND

All our Shrubs and Vines are strong 2 yr. old Bushy Plants, well rooted, "Guaranteed to Please." When comparing prices don't confuse these with 20 and 25c shrubs offered as strong plants by many dealers, for in reality those are only small whips or lining out stock.

1148 Bush Honeysuckle-Red Tartarian

lardy Ornamental and Flowering Shrubs

Beautify Your Home and Increase the Joy of Living

1153 Hydrangea Paniculata Grandiflora

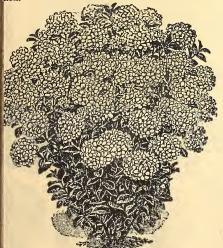

Tens of thousands of this noble summer and itumn-flowering shrub have been sold the past wyears, and the demand is now universal. They ow to a height of 8 to 10 feet, and are absorbely hardy, grow in any soil and bloom the same ar they are set out. They flower abundantly, aring immense panicles of bloom a foot long, hite at first, turning to rose in autumn, comencing to bloom in August, when very few rubs are in bloom. An annual shortening of anches tends to increase the size of the flowers. yr. old large plants 18 to 24 inches. Each, 45 s.; 3 for \$1.20, postpaid.

1154 Hydrangea Arborescens

This new American Hydrangea was found growgwild some years ago in the woods of Ohio dis one of the most beautiful hardy flowering rubs. Its greatest value, aside from its beauty, that it comes into bloom just after the flowering time of the Lilacs, Syringas, Viburnums and pring-flowering Spireas and continues on into ugust. The panicle is more like a Snowball in rm and size than Paniculata Grandiflora (hence name), and is a pure white. It thrives well various soils but requires shade. 2 yr. old rong plants 18 to 24 inches. Each, 50 cts.; 3 for l.35, postpaid.

1155 Hardy Snowball Viburnum

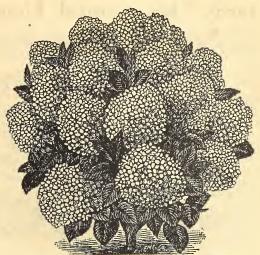

An extremely handsome shrub, with beautiful diage and snowy white flowers, borne in large usters. Flowers are radiant and appear in nucrous white balls. An old-time favorite; one of he best of the flowering shrubs. 2 yr. old plants to 24 inches. Each, 60 cts.; 3 for \$1.65, post-nid.

1155 Hardy Snowball

1162 Forsythia Golden Bell

One of the earliest shrubs to bloom in Spring ime. The long branches are covered with golden ellow flowers before the leaves appear. Grows well in shade or sun. The foliage is a beautiful lark green. 2 yr. old plants 18 to 24 inches. Each, 30 cts.; 3 for 75 cts., postpaid.

1153 Hydrangea Paniculata Grandiflora

1161 Golden Elder

Foliage a bright golden yellow all season. 2 yr. old roots, 18 to 24 inches. Each, 45 cts.; 3 for \$1.25, postpaid.

Althea Frutex (Rose of Sharon)

A free-flowering shrub of easy culture and very desirable on account of blooming in August and September. Flowers resemble a double hollyhock. It requires protection and should be planted only in the spring.

Double White 1151 Double Pink Double Pink Double Red

2 yr. old strong plants, 18 to 24 inches. Each, 30 cts.; 3 for 80 cts., postpaid. Your choice.

Dogwood

Very valuable for border and screen plantings. Beautiful Summer and Winter, a mass of small clusters of white flowers in Summer, followed with blue berries; bark a deep dark red low, very attractive.

1125 Red Barked

1126 Yellow Barked

2 yr. old strong plants, 18 to 24 inches. Each, 35 cts.; 3 for 90 cts., postpaid.

1127 Japonica Flowering Quince

A dense, twiggy bush; branches covered with sharp, stout spines and dark, glossy foliage. A very prolific bloomer, in May the plant is a red blaze of color. Can be used for hedges, mass planting or singly. 18 to 24 inches. 2 yr. old strong plants. Each, 50 cts.; 3 for \$1.35, postpaid.

1122 Snowberry White Indian Currant

Rose colored flowers in June, followed by large clustered, milk-white fruits which remain well into the Winter. The shrub is compact in form with numerous slender branches. 2 yr. old strong plants, 18 to 24 inches. Each, 30 cts.; 3 for 80 cts., postpaid.

1159 Lilac Persian Blue

One of the best known flowering shrubs and deserving of its wide popularity. Universally loved for its pleasing fragrance and delicate colorings. Very fragrant. 2 yr. old plants 18 to 24 inches. Each, 50 ets.; 3 for \$1.35, postpaid.

Hardy Ornamental Hedge and Flowering Shrubs

Barberry Thunbergii. Japanese Barberry. (Berberis.)

1183 Amoor River Privet

This is the hardiest of all Privets and especially desirable for hedge planting in the North, where Winters are severe. It is much superior to any other hedge plant, as it is not subject to blight. The dark green foliage is retained until late in the Fall. and it can be pruned to give any desired effect. Bears handsome white flowers in June. 2 yr. old plants, 18 to 24 inches. Each, 20 cts.; 3 for 50 cts.; doz., \$1.70; 100 for \$12.75, postpaid.

1157 WEIGELA—Eva Rathke Crimson

A new variety. A strong grower and of graceful drooping habit. Flowers a dark beautiful crimson. 2 yr. old strong roots, 18 to 24 inches. Each, 65 cts.; 3 for \$1.70, postpaid.

1158 WEIGELA—Rosea—Pink

The tallest growing. Foliage of a very dark green, flowers bright rose. 2 yr. old strong roots. Each, 35 cts.; 3 for 90 cts., postpaid.

1160 Calycanthus

The old-fashioned "Sweet-scented Shrub." Has velvety deep purple flowers. 2 yr. old large roots, 18 to 24 inches. Each, 50 cts.; 3 for \$1.25, postpaid.

1128 High Bush Cranberries (Opulus)

Grows 8 to 10 feet. Handsome, dense, brilliant green foliage; a rich setting for large bunches of crimson berries which persist on winter bare branches. 2 yr. old plants, 18 to 24 inches. Each, 45 cts.; 3 for \$1.20, postpaid.

1129 Russian Mulberries

Very hardy, vigorous grower; valuable for feeding silk worms, for hedges, fences and waste food supply in poultry yards. Fruit of small size, varies in color from white to black. 2 yr. old plants, 18 to 24 inches. Each, 10 cts.; 3 for 25 cts.; doz., 90 cts., postpaid.

1121 Tamarix Africana (Tamarisk)

Strong, slender, tall-growing irregular Shrubs, with feathery foliage and small, delicate flowers, borne profusely on gracefully-bending branches. These pink flowers are very attractive during May. 2yr. old plants, 18 to 24 inches. Each, 25 cts.; 3 for 65 cts.; doz., \$2.00, postpaid.

1130 Prunus Triloba (Double Flowered Plum)

A charming shrub of vigorous growth. Very early in spring, before its leaves appear, the whole tree is decked in a fleecy cloud of very double light pink blossoms. Its effect on a still leafless landscape is very bright. 2 yr. old plants, 18 to 24 inches. Each, 75 cts.; 3 for \$2.10, postpaid.

1156 Syringa Philadelphus (Mock Orange)

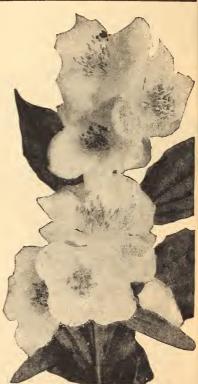

A tall, vigorous and hardy bush. Produces a mass of white flowers in May, resembling orange blossoms, deliciously fragrant and fine for cutting. One of the best flowering shrubs; foliage very attractive. 2 yr. old plants, 18 to 24 inches. Each, 30 cts.; 3 for 75 cts. postnaid. 3 for 75 cts., postpaid.

1182 Japanese Barberry (Berberis Thunbergii)

The Very Finest and Hardiest Hedge Plant

Especially suited for protecting corners of the lawn near the sidewalk. This kind has nothing to do with Black Rust so you can plant them freely.

This is the most valuable for making a low dwarf hedge. It is of low, regular and compact growth and requires very little pruning. It has fine thorns and small round rich green leaves that change color in the autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. It is frequently planted singly. 2 yr. old plants, 18 to 24 inches. Each, 30 cts.; 3 for 75 cts.; doz., \$2.40; 100, \$18.00, post-

1156 Syringa-Mock Orange

Beautiful Hardy Climbing Vines

CLEMATIS

1170 JACKMANII - The Most Beautiful of all Flowering Vines Rapid Grower-Free Bloomer

The well known large flowering blue Clematis. The beautiful flowers, when fully expanded, measure 4 to 6 inches in diameter, intense violet-purple, with a rich, velvety appearance, distinctly veined. It blooms continually from July until cut by frost. Plant is hardy, abundant and successful bloomer. Price: For strong, 3-year-old plants, each, 75 cts.; 3 for \$1.95, postpaid.

1171 CLEMATIS—Paniculata (Also Known as "Virgin's Bower")

This is one of the handsomest and most satisfactory flowering climbers. Of strong rapid growth, with small dense foliage forming a most effective background for the delicate white flowers, which are deliciously fragrant. Flowers last from August to October and are followed by silvery, feathery seed pods. Thrives in any location and soil, is free from blight and insects. A splendid vine for porches, trellises, also for covering fences, sloping banks, walls, etc. Each, 40 cts.; 3 for \$1.00, postpaid.

PURPLE WISTARIA— A Beautiful Climber

1170 Clematis Jackmanii

1168 Aristolochia Sipho (Dutchman's Pipe Vine)

A vigorous and rapid-growing climber, bearing singular brownish-colored flowers, resembling in shape a pipe. Its flowers, however, are of little value compared to its light-green leaves, which are of very large size, and retain their color from early spring to late fall; perfectly hardy. Each, 85 cts.; 3 for \$2.25, postpaid.

1176 Bignonia

(Trumpet Vine)

A robust tall climber, with great leathery trumpet-shaped flowers of scarlet, that last ll summer. A beautiful showy vine, useful for fences, screens, stumps, etc. Large lots. Each, 35 cts.; 3 for 90 cts., postpaid.

1174 Ampelopsis

(Engelmann's Ivy)

One of the best and hardest vines for the Northwest. The foliage is smaller and thicker than Ampelopsis Quinquefolia, and is especially beautiful in autumn, when it turns crimson and orange. It is the only perfectly hardy vine that will cling to brick, stone or cement. It is used extensively on churches and large buildings; does well in any soil. Strong roots. Each, 25 cts.; 3 for 65 cts., postpaid.

1169 Boston Ivy

(Ampelopsis Veitchii)

A beautiful climbing vine which clings tightly to any kind of a wall. Especially good on brick or stucco house walls. This is the true variety which "sticketh." Foliage deep green small leaf making a dense covering and finest texture of all the Ampelopsis. Each, 50 cts.; 3 for \$1.35, postpaid.

1175 Japanese Kudzu Vine

("Jack-and-the-Bean-Stock" Vine)

A remarkably rapid growing vine for ornament and shade. It produces many graceful twining stems, 20 to 30 feet long, in a season. Leaves are dark green and of soft, woolly texture. Purple flowers, resembling miniature Wistaria, are borne in clusters. Strong roots. Each, 35 cts.; 3 for 85 cts., postpaid.

1173 Chinese Matrimony Vine

A strong bushy vine, with fine foliare. Very handsome when covered with quantities of small purple flowers, which are followed by small scarlet berries. A good vine for covering low fences, porches or unsightly places. Strong roots. Each, 25 ets.; 3 for 65 cts., postaid.

1172 Bitter Sweet

Celastrus Scandens

A very popular hardy vine of twining habit, Bright green foliage, turning to yellow in autumn, with quantities of bright orange and searlet berries, which remain all winter. Large roots. Each, 35 cts.; 3 for 85 cts., postpaid.

1177 Honeysuckle

Hall's Japanese (Halleana)
A vigorous grower and continuous bloomer. The foldage remains green almost all winter. Large roots. Each, 35 cts.; 3 for 90 cts., post-

1178 Honeysuckle Scarlet Trumpet (Sempervirens)

The best known and most popular variety. Broad, deep green leaves in pairs, united at the base, remaining until late. Clusters of long, scarlet, trumpet-shaped flowers are followed by red berries in fall. Large roots. Each, 35 ets.; 3 for 90 ets., postpaid.

Please order by number as well as names.

It will help us to serve you quicker.

Wistaria-American Purple

This variety bears in great profusion large, drooping clusters of purple, pea-shaped flowers, somewhat resembling a bunch of grapes in size and form. Blooms in May and June, and sometimes again in the fall. Foliage is very pretty, of pale green color. A beautiful climber that may also be trained to tree form. Strong roots. Each, 60 ets.; 3 for \$1.65, postpaid. True grafted stock.

Wistaria—Chinese White

Similar to the Purple Wistaria. but the flowers are pure white. The foliage is fairly dense, and remains in good condition all summer, which makes the Wistaria a very good vine for training over a veranda, trellis, or pergola. Large roots. Each, 75 cts.; 3 for \$2.00, postpaid.

RIBS .

ritoma Flame Flower

¹⁹³ Aquilegia or Columbine

Mrs. Scott Elliott's Strain of Long Spurred Hybrids. This strain is considered to be the best ever raised, and has received awards whenever exhibited. The blooms are of large size and the spursvery long. The colors range through shades of lavenders, mauves, blues, purples, whites, creams, yellows, pinks, reds, tc. There are no jarring or crude tints, and the whole form a most harmonious mass of coloring seldom seen in other flowers. Each, 25 cts; 3 for 70 cts.; doz., \$2.50; postpaid.

1167 Hardy Flowering Plant "Tritoma"

Red-hot Poker, Flame Flower, or Torch Lily Pfitzeri (The Everblooming Flame Flower)

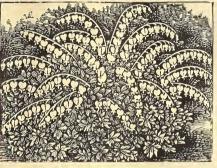

Very handsome and showy border plants, Flowers borne in compact form on stout 3 and 4 ft, stems, having the appearance at a distance of orange and red colored spear heads. Require protection during winter, unless in a very sheltered position, Each, 30 ets.; 3 for 85 cts.; doz. \$2.95; postpaid.

"Also Known as Spanish Bayonet"
Filamentosa. Among hardy ornamental foliage and flowering plants, this can be classed at the head of the list. Its broad sword-like foliage and 5 to 6 feet tall, branched spikes of large, fragrant, drooping, creamy-white flowers during June and July make it an effective plant for all positions. Each, 25 cts.; 3 for 65 cts.; doz., \$2.35; postpaid.

Orientale (Oriental Poppy)

Scarlet Red 3 Ft. Stems

For gorgeous coloring the Oriental Poppies have few rivals among hardy plants. They produce magnificent effect in shrubberies and herbaceous borders, while for cutting they are invaluable. Each, 19 cts.; 3 for 50 cts.; doz., \$1.75;

Bleeding Heart

Yucca (Adam's Needle)

1191 Bleeding Heart

Spectabilis (Bleeding Heart, or Seal Flower). An old-fash-ioned favorite; its long racemes of graceful heartshaped pink flowers are always attractive; it is used largely for forcing, and is perfectly at home in any part of the hardy border, and especially valuable for planting in the shade. Strong clumps. Each, 75 cts.; 3 for \$1.98; doz., \$7.00, postpaid.

Iris—Latest Improved Superb Varieties. All Shades and Colorings. Perfectly Hardy.

1250 Geraldine—Richly reticulated purple on a white ground, very bright Orange beard.
1251 Francina—White with violet reticulations at base and on edge. Beard Orange, shading to blue at edge.

Pancroft—Cream White, pale yellow at base reddish brown reticulations. with

1253 Roseway—Lilac pink, erect grower of good size and color.

1254 Pocahontas-Falls pure white bordered pale violet.

1255 Princess Beatrice—The king of Enormous blue flowers tinted violet.

1256 Silver Mist-Uniform sky-blue. One of the best late sorts.

1257 Midnight-Dark claret-purple, buds black. early free bloomer. Very

1258 Tristram—White standards and extra large plum-purple. Falls bordered White.

1259 Princess Victoria Louise—Plum color, bordered cream, a very pleasing shade.

Any of the above Iris, 20 cts. each; 6 for \$1.00; 12 for \$1.75; 25 for \$3.00, postpaid.

SPECIAL 1260 Special Offer: for \$1.50 we will mail one root each of the ten OFFER: named Iris each distinctly labeled.

CONDON'S Giant Flowering BEGONIAS

Begonia Coralline Lucerne

30 Coralline Lucerne 32c The Wonderful New Flowering Begonia

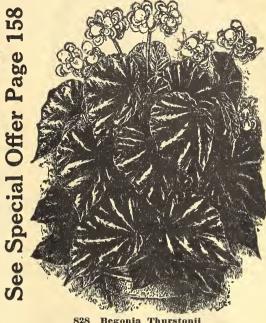

This new Begonia has simply taken by storm verybody who has seen it; certainly a wonder; he blooms last 4 to 6 weeks, borne in immense lusters, almost hiding the plant; color a bright oral-red, changing to a delicate pink. It is past he power of speech to describe it. A wonder. Fine plants, each 32 cts.; 3 for 90 cts.; doz., \$3.00, postpaid.

326 Argentia Guttata 20c

Very Beautiful Begonia

Has purple-bronze leaves, oblong in shape with silver markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. Each, 20 cts.; 3 for 50 cts.; doz., \$1.75, postpaid.

CONDON'S PLANT FOOD, listed on page 88, will benefit all your plants wonderfully.

Begonia Thurstonii

Thurstonii

The under side of the leaves is a rich purplish-The under side of the leaves is a rich purplish-red, the veinings very prominent, while the face or upper side is a bronzy-green, shaded with crimson and olive, with a peculiar glossy-metallic luster over all. Flowers rosy-white, in large clusters well above the foliage. The plant has a fine habit. Each, 24 ets.; 3 for 65 ets.; doz., \$2.35, postpaid.

Argentia Guttata Speckled Beauty

Begonias are a wonderful house plant for Winter and Summer.

King of the Begonias-All Distinct-Rex

"The Most Decorative of the Begonia Family"
Nature has bestowed on Rex Begonias many of her choicest gifts, uniting the radiance and brilliancy of pre-

Nature has bestowed on Rex Begonias many of her choicest gifts, uniting the radiance and brilliancy of preclous jewels, the shining luster of metals, with the beautiful colors and textures of the most costly fabries. The leaves alone possess all these charms, while the dainty flowers add lightness and grace.

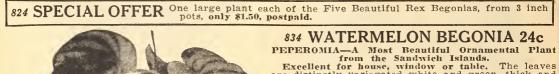

819 Bertha McGregor This new Begonia is known to be and acknowledged by all the leading Begonia growers of the United States to be the best all round Begonia in the Rex family. Leaf long-pointed and with six deep notches. A free strong grower, producing foliage in abundance; the center of leaf is small, dark and with bronze. From 3 inch pots, each, 35c; 3 for 90c, postpaid.

823 Lord Palmerston Broad-like metallic zone; edge and center dark red, finely dotted over with silver. From 3 inch pots, each, 35c; 3 for 90c, postpaid.

822 Lesoudsii Finest and largest of any of the Rex family; impossible to describe in words the beautiful markings of this magnificent Begonia. From 3 inch pots, each, 35c; 3 for 90c, postpaid.

821 Queen Victoria on under side. A splendid grower and easy for the amateur to cultivate; sure to please. From 3 inch pots, each, 35c; 3 for 90c, postpaid.

820 Rubrum Leaf has a pinkish-metallic luster, which makes it one of the most attractive variety; leaf very large, with a smooth edge, and the plant is a vigorous grower. From 3 inch pots, each, 35c; 3 for 90c, postpaid.

Excellent for house, window or table. The leaves are distinctly variegated white and green, thick and waxy-like and have the appearance of being powdered with frosted silver. The fleshy leaves enable them to withstand the dry air of living rooms much better than the great majority of plants. While primarily greenhouse plants, they do well under irregular temperature without damage. Watermelon Begonia requires shade in the summer, but should be given full sun in the winter and less water than the majority of plants. They should not be kept overwatered. A loose soil provided with good drainage places them at their best. Each, 24c; 3 for 65c; doz., \$2.25, postpaid.

postpaid.

Cyclamen, or Persian Violet 30c

Without doubt the most beautiful ornamental winter

VEGETABLE SPECIALTIES FOR 1928

Cabbage 317 Wisconsin All Season "Improved Yellow Resistant"

This new strain was developed at the Wisconsin Experiment Station and has proven a wonderful help to Kraut Growers and Shippers where "yellows" is prevalent. It is one of the most valuable mid-season or kraut varieties. It differs slightly in color from other strains, being a little darker and showing a resemblance to the color of Hollander. This strain shows a little shorter stem. The heads are rounding or slightly flattened and are solid and fine quality even in weather unfavorable to other late varieties. The seed we offer is of the true "yellow resistant" strain. Pkt., 15c; ½ 0z., 25c; 0z., 40c; ½ 1b., \$1.25; ½ 1b., \$2.40; 1b., \$4.50, postpaid.

²⁹⁶ Bugner's Ballhead "Pure Bred" Yellow Resistant

A very wonderful hard headed winter variety of short stem ballhead, which is now used almost exclusively for winter cabbage in and around Chicago, Illinois. Pkt., 15c; $\frac{1}{2}$ 02., 40c; 02., 75c; $\frac{1}{4}$ lb., \$2.00; $\frac{1}{2}$ lb., \$3.75; lb., \$7.00. postpaid.

BEANS

235 Full Measure "Very Early Stringless.
Nearly Round Podded. Excellent Quality"

In great demand in the eastern states. Fine stringless medium green pod of high quality. The pods are straight, 6 inches long, very fleshy, almost round, crease-backed, and are tender. It is a prolific sort, the heavy pods producing throughout a long season. We consider this one of the very best stringless green pod bush Beans for early and main crop planting. On account of the superior quality, it is especially recommended for the home garden. Pkt., 10c; 1/2 lb., 25c; lb., 45c; 2 lbs., 30c, postpaid.

247 Unrivaled Wax The Name Tells The True Story One of the Latest Introductions in Wax or Yellow Podded Snap Beans

The plants are vigorous, healthy growers, producing an abundance of pale yellow pods about 5½ inches long. Pods are narrow and somewhat flattened but very fleshy and of excellent quality. It is extremely early and recommended for Market or Home Gardens. Pkt., 10c; ½ lb., 25c; lb., 45c; 2 lbs., 30c, postpaid.

266 Cracker Jack or Webber Wax

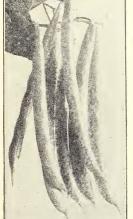

A very early and very productive sort. Vines strong, holding pods well up from the ground. Pods six inches long, half round, straight, stringless, and deep yellow in color. Excellent for home, market or canning. Pkt., 10c; $\frac{1}{2}$ lb., 22c; lb., 40c; 2 lbs., 70c, postpaid.

Italian Marrow or Cocozelle

13

The shape is long, cylindrical and tapering slightly to the stem end; it is a summer variety, used when immature by slicing and frying and is certainly delicious. May also be cooked and served like Asparagus as it is sometimes called Summer Asparagus. The skin is a dark green, changing to alternate stripes of green and gold as it ripens. The vines are bush and extremely productive; it is gaining in popularity as its merits become better known. The length of the mature fruits varies from 12 to 16 inches, and the diameter, 5 to 6 inches. Edible in 60 days. Weight, 4 pounds. Pkt., 10c; 0z., 18c; ½ lb., 45c; ½ lb., 80c; lb., \$1.50, postpaid.

Primrose-Primula Obconica

CONDON'S Grand Prize **Exhibition Varieties**

Spring is the proper time to plant Chrysanthemums for fall blooming

Chrysanthemums deserve a place in every garden, coming as they do after the Summer flowers have begun to wane, and continuing to bloom profusely in most places until well into November. The cultivation of these 'Mums is simple: Plant them in a rich, well-drained piece of ground, setting out the plants a foot apart and pinching them ouce or twice during the months of May or June. They will branch out and make beautiful bushes and give the cultivator more return for the labor expended than any plant in the garden. There is a place for 'Mums in every garden in America.

Upon receipt of 'Mums we recommend potting up in 3 or 4 inch pots and keep in the house until after danger of frost is over; then put in your garden, cultivating freely all summer, and about September 1st take up all but the Hardy Ones putting them in 6 to 8 inch pots and keep in the house in sunny exposure, and in this way you can produce just as large and gorgeous blooms as the florists. If you want only one Extra Large Bloom on a plant pinch off all but the top center bud. The following varieties are the "cream of all the 'Mums to date."

NOTICE

The Woman's Club of Rockford bought 1,000 Mum The Woman's Club of Rockford bought 1,000 Mum Plants last spring distributing two to each member to grow on, and this fall they had a public sale of all the plants, and believe me, it was a marvelous show of beauty, and one of the most popular and profitable methods ever introduced for raising money for charitable purposes. Why don't you Ladies start a similar club this spring? We will aid you to make it a success and supply you plants at special prices in 50-100-500 or 1,000 lots. Write us.

Celebration-Latest Introduction. Beautiful Golden Yellow

Condon's New Hardy Pompon Chrysanthemums

The flowers run from 1 inch to 3 inches in diameter, small petaled, very compact and formal, usually in rather close clusters so that one cut spray is a bouquet in itself. While not all varieties are entirely hardy, their inexpensiveness makes a liberal planting worth while even for but one fall show. As pot-plants, the Pompons are very satisfactory and furnish some of the daintiest table decorations of the fall and winter season.

849 Uvalda (New.) Large flowered and snow-white, on long stiff stem; when grown to a single stem, it is absolutely perfect; can be dis-budded five or six flowers to a plant.

855 New York (New.) One of the prettiest, most distinct and valuable Pompons; brilliant bronze, neat and compact, very lasting, and late; fine habit and "bunches" liberally. The color everybody

864 Western Beauty Flower large; deep rose-pink; stiff upright growth.

865 "Glory of Seven Oaks" Blooms profuse by all winter in pots as a window or conservatory plant. Flowers two to three inches across. Perfectly hardy in the open ground and blooms in early fall. Flowers brightest goldenyellow, double to the very center, of large size and borne in clusters.

866 Mrs. Frank Beu Very popular orange and bright bronze; late, one of the very best.

867 Chicago Pearl
The most beautiful of white Pompons, pure in color, of full fluffy form; very early; extremely useful to every grower of cut flowers.

Special prices on the six new beautiful Pompons described above. Strong plants from 3 inch pots. Each 20 cts.; 3 for 50 cts.; doz. \$1.65, postpaid.

HARDY Japanese Anemone Chrysanthemums

The Anemones are distinct garden kinds and very useful when cut in very useful when cut in sprays for floral decoration. Plants grow 2 to 3 feet; and bloom extravagantly with clustered flowers averaging 3 to 3½ inches wide. The central cushion or disc of dense, short quills, rests on one or more layers of usually flat ray florets.

868 The Chief Sulphur. yellow shading to light lemon-yellow; center full and rounded and slightly darker than the ray florets; 3 to 4 inches.

Leilah Deep pink, shading deeper in the center, and crowded with petals.

Co-ed White, shading to pale pink.

Fire Bird Color, deep, rich red; the most striking of the collection, outer petals reflex, showing the center.

Boston Fern 21c

NEPHROLEPIS BOSTONIENSIS

"No Single Decorative Plant Has Ever Proven More Popular"

This Fern is one of the best known varieties grown, and in the long years of its cultivation has proven worthy of a place in every home. Considered the most valuable house plant to be had. It is easy culture and a very rapid grower, producing fronds of unusual length, frequently measuring six to eight feet in length. Its unusual freedom of growth without special care has made it popular with all admirers of house plants. Fine plants from 3 inch pots. Each, 21 ets.; 3 for 54 ets. Large specimen plants from 5 inch pots. Each, 70 ets.; 3 for \$1.90; postpaid. 70 cts.; 3 for \$1.90, postpaid.

Please order ho number as well as names

884 Nephrolepis Sparrowii 30c

We take great pleasure in offering to our customers for the first time this We take great pleasure in offering to our customers for the first time this new and valuable variety, a true sport of the Neph. Superbissima (or Fluffy Ruffles) Fern. It has the dark green foliage of its parent, which, with its beautiful crested fronds, makes it a most unique, distinct and desirable Fern. One of the most distinguishable features of this new Fern is its robustness, which makes it a very rapid and easy grower, a Fern the amateur can grow with success. We recommend this new variety most highly. Our Greenhouse Superintendent, Mr. E. K. Sparrow, was the originator of this grand variety from which it derives its name "Sparrowii," being named after the originator. Fine plants from 3 inch pots. Each, 30 cts.; 3 for 80 cts. Large specimen plants from 5 inch pots. Each, 85 cts.; 3 for \$2.25, postpaid. postpaid.

885 Maiden Halr Fern

886 Moss Fern

(Selaginella Emilliana.)—A new, upright-growing Moss, with numerous feathery stems branching from the base and forming a dense tuft. Well grown plants attain twelve to eighteen inches in height. We know of no other Fern of this type that can equal this variety, either as a Fern for dishes or as a pot plant. Will keep for long time if proper care is given. Highly recommended. Fine plants from 3 inch nots. Each, 24 cts.: 3 for 65 cts. mostinch pots. Each, 24 cts.; 3 for 65 cts., post-

postpaid.

Strong plants, each, 20 cts. 3 for 50 cts.,

887 Lace Fern 21c Asparagus Plumosus

Lace Fern; may be grown either s a pot plant or in window exes and has the advantage of ing more graceful, and having her leaves than the most delite fern. The individual fronds leaves grow from 6 to 8 inches width, and when cut and put water, retain their shape and blor for weeks. No finer decative plant has ever been incoduced. As a house plant it is servedly popular as it will wrive under almost all conditions. Strong plants, each, 21 sts.; 3 for 54 cts., postpaid.

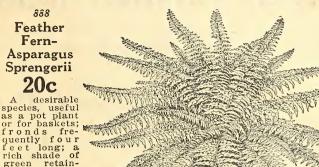

891 Dwarf Boston

891 "Dwarf Boston" Fern 24c

The finest dwarf compact house fern. Just as healthy und vigorous as the Old Famous Boston fern but much shorter. Fronds average 3½ to 4 in, wide and 20 in, long. When fully grown has a semi-drooping abit but far more erect than any other sort. This is a type of new fern that will add attractiveness only home. Order early please as supply is limited his year. Fine young plants. Each, 24 cts.; 3 for 55 cts.; large plants from 5-inch pots, each, 75 cts.; 5 for \$2,00, postpaid.

¹⁹³ Verona Fern 25c Wonderful for Table Decorations

A handsome new variety of the Elegantissima type, it has fine "ostrich plume" foliage and a stiff mid-rib which enables the fronds to stand up with a lovely gracefulness. Rather compact, dense, and feathery. Constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the other fronds. Each, 25 cts.; 3 for 70 cts., postpaid.

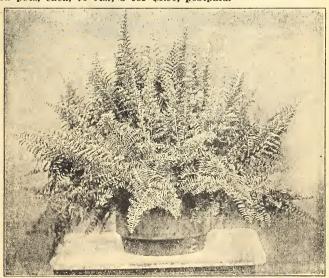

The Roosevelt Roosevelt

In general characteristics it resembles the world-famous Poston Fern, but it surpasses that Fern for two reasons: it that Fern for two reasons: it produces many more fronds than the Boston, thus making a bushier, handsomer plant; then the pinnae are beautifully undulated, giving the "Roosevelt" a pronounced wavy effect seen in no other Fern; as the plant ages this effect becomes quite distinct. A charming and most notable variety. Fine young plants, each, 22 cts.; 3 for 55 cts. Large plants from 5 inch pots, each, 70 cts.; 3 for \$1.90, postpaid.

Whitmanii Compacta 22c The Great Parlor Fern

888 Sprengerii

This is a condensed form of the "Ostrich Plume" Fern, with valuable characteristics added which are not evident in the parent, the pinnae subdividing, making miniature fronds which are superimposed on the main fronds, looking as if two or more were condensed into one. Graceful beyond description. Fine young plants, each, 22 cts.; 3 for 55 cts. Large plants from 5 inch pots, each, 70 cts.; 3 for \$1.90, postpaid.

Whitmanii Compacta-The Great Parlor Fern

CONDON'S World Famous GERANIUMS

The Most Satisfactory Plant in the World for CEMETERY Purposes, Porch Boxes, Hanging Baskets, or Solid Beds in Your Yard

No other plant will give half the show and service as Geraniums. They begin blooming in Maj and continue until killed by severe freezing in the fall. We grow thousands of the very finest varieties and offer only those that from our years of experience are positively the best.

For Cemetery Purposes

there is nothing finer. We fix our graves this way. In late October we plant Single Tulip Bulbs—one color on all the graves; these come up first thing in the spring and give a gorgeous array of blooms until about May 15th to 20th, then we plant Condon's Fireball Scarlet Red Geraniums on all the graves and border around with Salleroi striped leaf Geranium, Coleus, Dusty Millers, Lantanas or Alternanthera, and this combination gives us continuous blooms contrasted with harmonious foliage all summer with very little care. Try these this spring. You will be delighted, I'm sure.

Condon's Fireball-Finest Double Scarlet

906 Beaute Poitevine 19c

Beautiful shade of shrimp pink, gradually shading to white; considered to be one of the best semi-double bedders in the light salmon shades; a universal favorite. Each, 19 cts.; 3 for 50 cts.; doz., \$1.75, postpaid.

ROSES

The illustration here is an actual photograph of our two year old Hardy Guaranteed Roses.

"The Very Finest in America"

Everybody can now have these beautiful roses and be positively sure of producing the most gorgeous sweet scented blooms in almost every color and shade imaginable.

Special Announcement

We have vastly increased our growing facilities which will enable us to produce for our customers the best roses to be had in this country—OWN ROOT ROSES. Roses grown on their own root in large pots, having strong, fibrous, active roots, and are in full foliage when shipped. This quality of plants, whether one or two year size, is full of vigor, vitality and blooming capacity when you receive them. Under the most ordinary care in reasonably good garden soil, they not only grow but bloom profusely the first year, and you can hardly fail to be successful. Very few firms offer Own Root Roses because they are more expensive to grow them. It has cost us quite a lot to acquire such an equipment, and with only one thought, i. e., to grow Own Root Roses because we firmly believe that they are the best and most successful to grow in any climate. We have vastly increased our grow

One Year Old Plants

Our one year old Rose plants, while moderate in price and not nearly as large, of course, as the two year old plants, will astonish you, both in the growth they make and the abundance of flowers produced, even the first year. They may be denended upon to give splendid satisfaction.

Two Year Old Plants

Our two year old Specimen plant is the popular size rose to plant, and is positively not excelled in quality and blooming capacity regardless of price. Our Roses are all grown from cuttings and are consequently ALL ON THEIR OWN ROOTS. If they are inclined to sprout from their roots, they should be encouraged to do so, as young, vigorous shoots produce the finest flowers; they cannot throw up wild shoots as the budded and grafted rose because root and top are the same. As 'ong as any part of the plant or root remains, it will produce the same beautiful flower. We do not send out any budded or grafted roses as this class of roses is on wild manettia roots and should your plant freeze to the ground, you would have only the manettia root left to throw up shoots which will never bloom.

CONDON'S Roses are all grown on their own roots "Not Grafted"

> Winter Rested Not Forced

Our Roses are all grown in our own greenhouses here at Rockford and are recognized as "The Finest

Roses in America''

ONDON'S Sure-to-Bloom Hardy Everblooming Hybrid Tea Roses

These great bush Roses have rapidly superseded all other classes for general planting because of the parentage, which is the result of cross fertilization between the Hardy Hybrid Perpetual or June coses and the Everblooming Tea Roses. From the June Roses they inherit the large, bold, handsome, equisitely fragrant flowers, retaining in a marked degree their hardiness, so that they stand the everset winters without damage, and from the Tea Roses they have retained the free and constant looming habit, together with the great variety of color found only in this class. They produce their orgeous flowers without interruption throughout the entire growing season, making them the best of Il Roses for general planting. Our collection is the largest and most varied in this country, and the list includes all vaeties of merit now in cultivation. All on their own roots—

ice planted, practically permanent.

978 Sensation 35c

SPECIAL OFFER NO. 1372
One large two year old plant each of the 6 beautiful everblooming Roses as listed below from 5 in. pots, 18 to 24 in. high, only \$3.50, postpaid.

The Greatest Garden Rose
The color is an even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower, from early spring until freezing weather. Strong, vigorous, branching grower, each branch terminating in a large, bold, double bloom. Hardy everywhere. Strong plants. Each, 21 cts.; 3 for 55 cts. Large 2 year old plants 18 to 24 inches high, Each, 60 cts.; 3 for \$1.60, postpaid.

1003 Beautiful Bessie Brown 25c

A Great Outdoor Hardy Rose
It has unsurpassed beauty of a totally distinct character, bearing large, full, deep and double flowers profusely in the open ground all through the summer. The color is almost pure white, though sometimes flushed with pink; petals large and of fine form. Strong plants. Each, 25 ets.; 3 for 65 ets. Large 2 year old plants 18 to 24 inches high, Each, 70 ets.; 3 for \$1.95, post-paid.

CONDON'S Everblooming Hybrid Tea Roses

Gorgeous Dazzling Varieties Adapted to All Locations

976 Sunburst 24c

"Stands Head and Shoulders Above All"
This magnificent giant-flowering Rose stands head and shoulders above all other Roses of its class. It is a constant blooming variety, producing fragrant blooms of an especially deep color riety, producing fragrant blooms of an especially deep color throughout the summer. It has all the good points of merit; a fine long pointed bud; long stems; extraordinary vigorous and healthy, and belongs in the class of big Roses. The color is a beautiful orange-copper, golden orange and golden yellow, largo intense shades, and brilliant in effect. Strong plants. Each, 24 cts.; 3 for 65 cts. Large 2 year old plants, 13 to 24 inches high, Each, 65 cts.; 3 for \$1.75, postpaid.

986 Radiance 20c Carmine Pink

The flowers, which are of splendid form, are large and full and somewhat of the June Rose type. The buds are particularly handsome in form, the full blooms large and double, the petals of immense size and the blossoms are highly perfumed. The growth of the plant is vigorous, making strong canes which are thick and heavy. Radiance is rightly considered a leading Rose of the garden for cutting and successfully competes with many of the finest greenhouse productions as a cut-flower variety. Radiance produces a wealth of heavy, clear dark green foliage and has the qualities that make it the ideal garden Rose. Strong plants. Each, 20 cts.; 3 for 50 cts. Large 2 year old plants, 18 to 24 inches high, Each, 60 cts.; 3 for \$1.60, postpaid. \$1.60, postpaid.

1001 Rhea Reid 19c

One of the Very Best Red Bedding Roses
Rhea Reid is as fragrant as a Rose
can be; has good sized flowers and
biooms continuously. The bud, when
first opening, is the brightest crimsonscarlet and the flower retains this perfect coloring until it drops its petals.
Blooms continuously the whole season
through and gives fine stome for cutting through and gives fine stems for cutting. Its habit of growth is remarkably good, making strong, shapely plants that may be depended on for large

be depended on for large flower shoots. A great favorite. Strong plants. Each, 19 cts.; 3 for 48 cts. Large 2 year old plants, 18 to 24 inches high. Each, 60 cts.; 3 for \$1.60, post-naid. paid.

All our stock is on its own roots— don't buy 'the other kind, budded and grafted. We offer strong, lusty plants in all sizes and stake our reputation upon their quality.

1002 Gruss An Teplitz 18c

in wonderful profusion throughout the whole growing season; in fact, it is always in bloom. The flowers are produced singly, sometimes in clusters, producing a gorgeous effect on the lawn or in the garden all summer through. The fragrance of Gruss An Teplitz Rose is unexcelled by that of any other variety under cultivation. It is a strong and sturdy grower, often attaining a height of four or five feet, is perfectly hardy in all sections and is one of the finest of many splendid Roses that have come to us from Europe. Strong plants, Each, 18 cts.; 3 for 45 cts. Large 2 year old plants, 18 to 24 inches high, Each, 58 cts.; 3 for \$1.60, postpaid.

The Sweetest, Richest Crimson
Hybrid Tea Rose
Called by some growers Virginia
Coxe. The intense, dazzling

R. Coxe. The intense, dazzling color of this Rose is found in no other variety. Fiery crimson, shaded with a dark, velvety sheen, totally unlike any other color in the world. Large, handsome, moderately double flowers. Produced in wonderful profusion throughout the whole growing season; in

988 Mrs. Aaron Ward 22c

This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years, in color that catches the eye at once. Coppery orange in the open bud, golden orange when partly developed, pinkish fawn of lovely shade whenfully open, when it looks like a full fluffy rosette. No wonder everybody that sees it falls in love with it. Strong plants, Each, 22 cts.; 3 for 58 cts. Large 2 year old plants, 18 to 24 inches high, Each, 63 cts.; 3 for \$1.75, postpaid.

CONDON'S Hardy Everblooming Tea Roses Highly Cherished of all Roses

The Oldest and Most

Own Roots Winter Rested and Not Forced

All Grown on Their

To this class of bush Roses—the hardy everblooming Teas—belongs all honor. Their reign in the estimation of Rose-lovers the world over has the estimation of Rose-lovers the world over has been long and enduring. Among them will be found many favorites of our grandmothers' gardens. They have been of inestimable value to the beginners in Rose culture. Of strong, healthy, hardy habit of growth, they thrive splendidly in all parts of the country, blooming continuously, and with their handsome, deliciously perfumed flowers, their place in American gardens is secure and everlasting. They are quite hardy, but where the winters are extremely severe, protect them earofully carefully.

994 Alexander Hill Gray 20c

The respect of all Rose lovers warrants the ssuing of a champion Rose, and a Tea at that to pay due homage to one of the world's greatto pay due homage to one of the world's greatest Tea Rose growers. It is wonderfully floriferous, every shoot being crowned with a lower bud, which develops into a bloom of very arge size, great substance and perfect fornation, with high pointed center from which the petals gracefully reflex. The best and argest pure yellow Tea Rose yet introduced. Its color is a solid deep yellow throughout. Marechal Niel-like lemon-yellow; strongly tea scented. Strong plants, Each, 20 cts.; 3 for 50 cts. Large 2 year old plants 18 to 24 inches high, Each, 10 cts.; 3 for \$1.60, postpaid.

1005 Mrs. B. R. Cant 18c

This beautiful new Rose, of English origin, we specially recommend for outdoor cultivation as one of the best, if not the best, Rose of its class and color now in cultivation. One of the kind hat we can not have too many of. Exceedingly arrdy, producing in marvelous profusion deep rimson-pink flowers perfectly double; delightfully ragrant. Buds large, pointed and beautiful. Strong plants, Each, 18 cts.; 3 for 45 cts. Large? year old plants 18 to 24 inches high, Each, 55 its.; 3 for \$1.50, postpaid.

983 Lady Hillingdon 21c

"Everybody Can Grow It"

It has long willowy stems that are in no sense veak, as the buds are held upright; has a long lender pointed bud of brilliant deep golden-yelow, and a striking peculiarity of this Rose is that ach day the golden-yellow color becomes deeper rellow and more intense, unlike all other yellow toses with which we are familiar, as invariably he tendency after being cut is to get lighter in color. Strong plants, Each, 21 cts.; 3 for 52 cts. arge 2 year old plants 18 to 24 inches high, Each, 2 cts.; 3 for \$1.65, postpaid.

Wm. R. Smith

A Vigorous, Healthy Grower, Excellent in Quality and Beautiful in Bloom

Whether you live East, West, North or South, whether you wish one Rose or 1,000, here is a Rose which has our unqualified endorsement. It will thrive abundantly in almost any reasonable location. The flowers are large, full and double, and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored cream with flesh tint tips, buff yellow base and the center a heart of pink. Perfect buds. The flowers are borne on long, strong stems, just right for making bouquets. Fragrance is delightful. You will admire the foliage, too, deep green leaves on red stems and the new growth of rich garnet; the plant will grow for you vigorously, is almost on red stems and the new grown of rich garnet; the plant will grow for you vigorously, is almost the hardiest of this class and blooms abundantly. Strong plants, Each, 19 ets.; 3 for 48 ets. Large 2 year old plants 18 to 24 inches high, Each, 60 ets.; 3 for \$1.60, postpaid.

1006 Pink Maman Cochet 18c

This superb Rose is well known as a queen among Roses, one of the best and most beauamong Rôses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick, shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy everblooming Roses. Strong plants. Each, 18 cts.; 3 for 45 cts. Large 2 year old plants 18 to 24 inches high, Each, 58 cts.; 3 for \$1.55, postpaid.

1004 White Maman Cochet 18c

A most magnificent snow-white Rose, with sometimes a faint tinge of pale blush. It has the same freedom of bloom as the Pink Cochet, the same magnificent form of buds and flowers, and the same hardiness—standing at the very head of all Roses as the best white kind for open ground culture. Vigorous as an oak, and hardy everywhere. Strong plants, Each, 18 ets.; 3 for 45 ets. Large 2 year old plants 18 to 24 inches high, Each, 58 ets.; 3 for \$1.55, postpaid.

Condon's Banner Set of Roses

CONDON'S HYBRID PERPETUAL ROSES

These are the hardiest of all Roses. They are of vigorous, upright habit, with large leaves and very large, full, double, richly fragrant flowers which are produced in profusion in June, and more sparingly in autumn. In order to obtain the finest flowers, prune severely in early spring, manure liberally and keep the soil well cultivated.

963 Crimson American Beauty 30c

The best known, most popular and impressive Rose in cultivation. Big, gloriously rich in fragrance, the flowers are simply superb. Color, rich crimson, charmingly shaded and veined. As the flowers expand, their beauty seems to be enhanced rather than diminished. The fragrance is not excelled by any Rose known. Strong plants, Each. 30 cts.; 3 for 80 cts. Large 2 year old plants 18 to 24 inches high. Each, 75 cts.; 3 for \$2.10; postpaid.

964 J. B. Clark 24c

An intense deep scarlet-rose, shaded blackish-crimson, color like the sheen of a plum, often 7 inches in diameter and 5 inches deep. J. B. Clark has created a great sensation throughout the United States and Europe. A wonderfully strong and upright grower, exceedingly vigorous, with splendid and heavy dark bronze-green foliage. The glory of the plant is in its flowers, as they are extraordinary in size, full and double, wonderfully fragrant, of great depth, and borne freely from the first year, on long, stiff stems. Strong plants. Each. 24 cts.: 3 for 60 cts. Large 2 year old plants 18 to 24 inches high. Each, 65 cts.; 3 for \$1.50;

White American Beauty 30c (Frau Karl Druschki)

This brilliant white type Rose has become renowned as the very highest type of its class and the best snow-white Rose ever introduced. It is an extraordinarily strong grower, branching freely, and has the vigor and hardiness of an oak. Large, heavy foliage and magnificent flowers that are nothing less than glorious—immense in size and produced with great freedom on long, stiff stems. The color is marvelously white, without a tinge of yellow or any other shade. Hardy everywhere. Strong plants. Each, 30 cts.; 3 for 80 cts. Large 2 year old plants 18 to 24 inches high. Each, 70 cts.; 3 for \$1.95; postpaid.

NOTICE

These 6 Roses listed on this page are universally acknowledged the most popular of all roses. Try them this year.

966 Mrs. John Laing 30c

Everblooming Hybrid Perpetual

A Hybrid Perpetual that is truly perpetual, producing a succession of flowers all summer, until late in the fall. An erect plant, of strong growth, but not as gigantic as some of the others. It is very hardy and its medium-sized flowers of cuplike form are very sweet. It is a lively shade of solid pink, and so distinct in form that it can never be mistaken. A rather tame Rose, perhaps because it is so good. Strong plants. Each. 30 cts.; 3 for S0 cts. Large 2 year old plants 18 to 24 inches high. Each, 70 cts.; 3 for \$1.95; postpaid.

965 Pink American Beauty 30c (Heinrich Munch)

One of the newer varieties that we recommend strongly to all lovers of Roses. It has created a sensation wherever grown. The color is a soft pink, very large and full; vigorous grower and undoubtedly one of the very finest of the Hybrid Perpetual varieties. Strong plants. Each, 30 cts.; 3 for S0 cts. Large 2 year old plants IS to 24 inches high. Each, 70 cts.; 3 for \$1.95; postpaid.

961 Paul Neyron 25c

"Among the Foremost Roses of the World"

Paul Neyron enjoys the distinction of producing the largest of Roses. The plant blooms two or three times a year. The color is clear pink, shading to rose—most beautiful in the massiveness of the blossoms. Very fragrant with mild touch of apple blossoms. The rose is very strong and vigorous and is considered by Rose growers as being among the six Roses of the world best suited for outdoor planting. Strong plants. Each, 25 cts.; 3 for 65 cts. Large 2 year old plants 18 to 24 inches high. Each, 65 cts.; 3 for \$1.50; postpaid.

Condon's American Beauty Set of 6 Roses

Special Offer No. 1363

Gorgeous Roses, one strong plant each of the six beauties listed above one year old from 3 in, pots 9 to 14 in, high. Only \$1.50; postpaid.

Special Offer No. 1364

One large two year old plant each of the 6 beauties from 5 in. pots, 18 to 24 in. high. Only \$3.65; postpaid.

CONDON'S Wonderful Hardy Climbing Roses

950 Alida Lovett 24c

In habit it is quite like the popular Van Fleet, ut with larger and more beautiful mildew-proof liage, while the color of the flower is brighter. oth buds and flowers are large, of ideal form, nd held on stiff stems a foot and a half to two et long; and the color is a lively bright shell-pink ith shadings of rich sulphur at the base of petals -a combination that is both novel and beautiful. he plant is of strong growth, a free bloomer and ironclad hardihood; flowering for a long sean. It is also quite fragrant. Strong plants. ach, 24 cts.; 3 for 65 cts. Large 2 year old ants 18 to 24 inches high. Each, 65 cts.; 3 for .80, postpaid.

TRIO OF THE LOVETT SISTERS SET
SPECIAL OFFER NO. 1358

Rose. One year old, from 3 in. pots, 9 to 14 in.
high, only 60 cts. Postpaid.
SPECIAL OFFER NO. 1359
One large two year old plant each of the 3
Lovett Sisters Roses, from 5 in. pots, 18 to 24
in. high, only \$1.70. Postpaid.

3 Excelsa (Red Dorothy Perkins) 20c

New and distinct Rambler of remarkable merit. remarkable grower, free from insects and proaroon with tips of the petals scarlet. Flowers ll and double and thirty or forty produced on stem. Strong plants. Each, 20 cts.; 3 for 50 s. Large 2 year old plants 18 to 24 inches gh. Each, 58 cts.; 3 for \$1.55, postpaid.

952 Dorothy Perkins 21c

The Brilliant Pink Rambler Rose. Flowers are orne in large clusters, are very double, with ettily crinkled petals; remarkably pretty pointed ids, beautiful clear shell-pink in color, lasting long time without fading. The bush is per-ctly hardy in all localities. Strong plants. Each, l cts.; 3 for 55 cts. Large 2 year old plants 3 to 24 inches high. Each, 60 cts.; 3 for \$1.60, stpaid.

These are the Roses so necessary for the home, giving it, no matter how humble or pretentious, a touch of beauty not to be had by any other form of adornment. They also have a most useful side, in that they give most delightful and refreshing shade when used on the porch, veranda or pergola. They are used very extensively in covering unsightly spots in the grounds, for screening outbuildings. Are especially recommended for trailing down over embankments and for cemetery planting; not subject to insect attack. All are hardy everywhere.

The Lovely Trio of the Lovett Sisters Climbing Roses

Among climbers the following rank unsurpassed:-

956 Bess Lovett 22c

Is of strong growth, with large, glossy Silver Moon-like foliage, and, what is remarkable

in a climbing rose, the flowers are exquisitely fragrant. Flowers are lavishly produced; are of good size, double, full and cupped form, being similar in make-up to the Climbing American Beauty, but very much brighter in color and more fragrant by far. The color is a clear bright red. The roses, which are very lasting, are also very beautiful in bud and are borne on long stems, hence are admirable for cutting. Strong plants. Each, 22 cts.; 3 for 55 cts. Large 2 year old plants 18 to 24 inches high. Each, 60 cts.; 3 for \$1.65, postpaid.

957 Mary Lovett 20c

It is very much like the beautiful Dr. W. Van Fleet Rose, except in that the large full flowers are pure snow white. They are held on long, strong stems and are delightfully sweet-scented. It blooms in late summer and autumn, as well as in June. It is a strong grower, with abundant mildew-proof foliage, and is exceedingly free flowering. The flowers are very lasting. The finest and most valuable climbing white rose as yet offered. Strong plants. Each, 20 cts.; 3 for 50 cts. Large 2 year old plants 18 to 24 inches high. Each, 60 cts.; 3 for \$1.65, postpaid.

954 Marechal Niel 25c

The Famous Golden Yellow Rose. The fame of the superb yellow Rose, Marechal Niel, with its large, deep, golden-yellow flowers, is world wide. It is almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. Its magnificent goldenyellow flowers are almost massive in dimensions, and reports from growers tell of single plants showing one to two thousand blooms at a time. Contrary to many Roses, which lose their color after opening, Marechal Niel decidedly improves and takes a deeper yellow after being kept for a day or two. The tea fragrance is strongly present in this Rose. It is a variety which practically stands by itself. In the North should have very careful protection during the winter. Strong plants. Each, 25 cts.; 3 for 65 cts. Large 2 year old plants 18 to 24 inches high. Each, 75 cts.; 3 for \$2.10, postpaid.

Please order by number as well as names. It will help us to serve you quicker.

BEST HARDY CLIMBING OR RAMBLER ROSES

The Most Beautiful Climbing Rose in Existence. Named After the Celebrated Parent - American Beauty.

Brated Parent — American Beauty

Here we have the latest triumph in American Rose growing, the true Climbing American Beauty in all its promise and glory, the realized dream of every Rose grower. Just the same as the American Beauty practically. Large flowers, each produced on separate stems, vivid rosy-crimson in color, with delicious fragrance. Borne in the greatest profusion throughout the growing season. Foliage tough and leathery, deep, glossy green, sun and in se et proof. The youngest plants attain a height of 10 to 15 feet in a single season. Hardy and as sturdy as an oak in all localities. Splendid in the South. For single specimens, trailing over verandas, for trelliese, anywhere and everywhere, this Rose will cire the greatest satisfaction. Words of description can hardly do justice to this magnificent Rose. Absolutely true to name, on its own roots. Strong plants, each, 23 cts.; 3 for 75 cts. Large 2 year old plants. 18 to 24 inches high, each, 70 cts.; 3 for \$1.95; postpaid.

955 Rosarie Cerise-Pink 22c

958

Paul's

Scarlet

Climber

Climbing American Beanty

951 American Pillar 25c

Has spring into great popularity. Of extremely vigorous habit of growth, the bushes being clothed in lively green from earliest spring until late in the fall. It, has a profusion of bright pink, semi-double flowers in clusters and are followed by large clusters of attractive red berries, Strong plants, each, 25 cts.; 3 for 65 cts, Large 2 year old plants, 18 to 24 inches high, each, 65 cts.; 3 for \$1.75; postpaid.

958 Paul's Scarlet Climber 28c

is scarlet—definite, actual, and vivid. Nothing so pure and bright in color has ever before been known in a climbing Rose. It needs, and deserves, to stand by itself, away from hardy climbers that are merely red, and with which it will not mix. The garden without Paul's Scarlet Climber is deficient. Get its brilliance into your service this year. Use it as a pillar or a bush—but if you value your eyesight, keep its dazzling scarlet as far away as possible from carmine or magenta flowers. Winner of the Cory Cup, and also the Gold Medal of the National Rose Society. Strong plants. Each, 28 cts.; 3 for 75 cts. Large 2 year old plants 18 to 24 inches high. Each, 70 cts.; 3 for \$1.95; postpaid.

CONDON'S Hardy Climbing Set of Roses SPECIAL OFFER NO. 1356

One strong plant each of the 4 beautiful climbing Roses as described above, one year old from 3 in. pots, 9 to 14 inches high, only 95 cts.; postpaid. SPECIAL OFFER NO. 1357

One large two year old plant each of the 4 beautiful climbing Roses as described above from 5 in. pots, 18 to 24 in. high, only \$2.50; postpaid.

Polyantha or Fairie Roses

nguished by their dwarf, bushy habit of growth, regrance. This class of Roses produces bushy, well branched plants 12 to 24 inches high, which re completely loaded with rare blooms from early spring until late fall. They make wonderful edges or borders, also delightful house plants.

Erna Teschendorff 24c

Improved Baby Crimson
Flowers glistening dark red, of same type as ad Baby Rambler, but much brighter in color. ry effective when massed. A Rose you can dend on for bright bloom continuously from June til frost. Strong plants, Each, 24 ets.; 3 for 60 s. Large 2 year old plants 12 to 18 inches high, ich, 55 cts.; 3 for \$1.50, postpaid.

972 Geo. ELGER 24c

Golden Yellow Baby Doll
A superb Polyantha Rose with just sufficient of
a Rose blood to make it different from any in
class. It produces great quantities of lovely
tle buds of golden yellow, opening into miniature
mmetrical Roses. Each bush is so loaded with
soms that they resemble a huge bouquet. Like
Roses of this class, it is free in growth and
som, blooming all summer. Hardy everywhere
th some protection. Foliage bright, attractive
sen. Excellent companion for the Baby Ramrs. Strong plants, Each, 24 ets.; 3 for 60 ets.
rge 2 year old plants 12 to 18 inches high, Each,
ets.; 3 for \$1.50, postpaid.

Catherine Zeimet 22c

White Baby Rambler Chis is surely a beauty. It grows to a height 15 to 20 inches and produces double, pure white wers in wonderful abundance. It has a fraance similar to Hyacinths. Of free, compact owth and very attractive, a sheet of white and vays in bloom. Strong plants, Each, 22 cts.; 3 :55 cts. Large 2 year old plants 12 to 18 inches ch, Each, 55 cts.; 3 for \$1.50, postpaid.

969 Baby Doll (Tip Top) 25c Tri-color—Orange, Red and Yellow

The flowers are miniature in size but magnificent in form and produced by the hundreds. Exquisite for cutting or bouquets and bedding purposes. Makes a magnificent show in the open ground, always blooming from early spring until late fall. The tips of the petals are vivid scarlet, then mellowing down through shades of pink into saffron, lavender and gold, finally into deep old gold, a combination so extraordinary and so pleasing that everyone seeing it exclaims, "What a Wonderful Rose!" Foliage slender and produced in abundance, dark lustre green. Strong plants, Each, 25 cts.; 3 for 65 cts. Large 2 year old plants 12 to 18 inches high, Each, 65 cts.; 3 for \$1.80, postpaid. The flowers are miniature in size but magnificent

971 New Ideal—"Rich Garnet"

Ideal indeed for edging or for making a brilliant bed of rich, lustrous garnet, blooming continuously all summer and until frost. The flowers are semi-double, come in great heads of thirty or more, and the color is retained remarkably well until they drop. A neat and compact grower. Has everything a Polyantha of this type needs. Strong plants, Each, 28 cts.; 3 for 75 cts. Large 2 year old plants 12 to 18 inches high, Each, 70 cts.; 3 for \$1.95 postnaid. \$1.95, postpaid.
